**The Favor of God** Sep 25 2022 The grace of God is often referred to as unmerited favor. In fact, the very meaning of grace is favor. In this extraordinary book written at a time when people need God's favor more than ever, Jerry Savelle shows how the favor of God is not only available to the believer, but also promised. Drawing from his own experience and his deep knowledge of the Scriptures, Dr. Savelle explains how to actively walk and grow in divine favor, and by doing so enjoy the practical as well as the supernatural benefits for such a time as this, when many are living in fear and uncertainty. The Favor of God will not just inspire readers. By God's grace and favor, it will empower them.

Wisdom Sits in Places Oct 22 2019 This remarkable book introduces us to four unforgettable Apache people, each of whom offers a different take on the significance of places in their culture. Apache conceptions of wisdom, manners and morals, and of their own history are inextricably intertwined with place, and by allowing us to overhear his

conversations with Apaches on these subjects Basso expands our awareness of what place can mean to people. Most of us use the term sense of place often and rather carelessly when we think of nature or home or literature. Our senses of place, however, come not only from our individual experiences but also from our cultures. *Wisdom Sits in Places*, the first sustained study of places and place-names by an anthropologist, explores place, places, and what they mean to a particular group of people, the Western Apache in Arizona. For more than thirty years, Keith Basso has been doing fieldwork among the Western Apache, and now he shares with us what he has learned of Apache place-names--where they come from and what they mean to Apaches. "This is indeed a brilliant exposition of landscape and language in the world of the Western Apache. But it is more than that. Keith Basso gives us to understand something about the sacred and indivisible nature of words and place. And this is a universal equation, a balance in the universe. Place may be the first of all concepts; it may be the oldest of all words."--N. Scott Momaday "In *Wisdom Sits in Places* Keith Basso lifts a veil on the most elemental poetry of human experience, which is the naming of the world. In so doing he invests his scholarship with that rarest of scholarly qualities: a sense of spiritual exploration. Through his clear eyes we glimpse the spirit of a remarkable people and their land, and when we look away, we see our own world afresh."--William deBuys "A very

exciting book--authoritative, fully informed, extremely thoughtful, and also engagingly written and a joy to read. Guiding us vividly among the landscapes and related story-tellings of the Western Apache, Basso explores in a highly readable way the role of language in the complex but compelling theme of a people's attachment to place. An important book by an eminent scholar."--Alvin M. Josephy, Jr.
