Vols. 2, 4-11, 62-68 include the Society's Membership list; v. 55-80 include the Journal of applied mechanics (also issued separately) as contributions from the Society's Applied Mechanics Division. TERI Energy & Environment Data Diary and Yearbook (TEDDY) is an annual publication brought out by TERI since 1986. It is the only comprehensive energy and environment yearbook in India that provides updated information on the energy supply sectors (coal and lignite, petroleum and natural gas, power, and renewable energy sources), energy demand sectors (agriculture, industry, transport, household, buildings), and environment (local and global). Additionally, the publication reviews government policies and analyses latest policy discourses that have

implications on India's energy and environment sector. TEDDY 2018/19 gives an account of India's commercial energy balances, extensively covering energy flows within different sectors of the economy and how they have been changing over time. These energy balances and conversion factors are a valuable reference for researchers, scholars, and organizations engaged in energy and related sectors. After the introductory chapter, TEDDY 2018/19 is divided into three sections—Energy Supply, Energy Demand, and Local and Global Environment. One of the main highlights of TEDDY 2018/19 is the addition of a new chapter—Buildings—under Energy Demand section. This chapter gives an in-depth analysis of India's energy consumption by the buildings sector, and highlights the role of energy efficiency in buildings from the perspectives of both economy and environment. The thirty-fourth edition of TEDDY continues to remain less prose intensive with inclusion of more data, represented with the help of

infographics, thus making the publication an authentic and interesting read. TEDDY 2018/19 also features a section on interlinkages of SDGs with energy and environment. Key Features:

- Provides a review of government policies, programmes and initiatives that have implications for the petroleum and natural gas sector and the Indian economy
- New chapters on Air Pollution, Solid Waste Management, Water Resource Management, and Land and Forest Resource Management
- Exhaustive data from energy supply, energy demand, and local and global environment sectors

Academic Paper from the year 2019 in the subject Politics - International Politics - Topic: Peace and Conflict Studies, Security, grade: 1,3, Interdisciplinary Center Herzliya, language: English, abstract: This paper is analyzing the terrorist's attacks of France since the proclamation of the caliphate and the refugee crisis in 2014. Focusing on the perpetrators and their reasons for the attacks in France - mainly on symbols of the French culture, like the national day, freedom of religion, freedom of speech as well as on state officials. The backgrounds of the attackers play an important role as well as the long-lasting and difficult relationship between France and the Muslim world mainly throughout their colonial history, their current interventions in wars as well as their inner state policies. The 2018/19 edition analyses the gender pay gap. The report

focuses on two main challenges: how to find the most useful means for measurement, and how to break down the gender pay gap in ways that best inform policy-makers and social partners of the factors that underlie it. The report also includes a review of key policy issues regarding wages and the reduction of gender pay gaps in different national circumstances. “The Global Wage Report is an indispensable for economists, trade unionists, employers and the interested public.” – Hansjörg Herr, Berlin School of Economics and Law. What if you could use Nobel prize-winning science to predict the choices your customers will make? Customer and user behaviors can seem irrational. Shaped by mental shortcuts and psychological biases, their actions often appear random on the surface. In Choice Hacking, we'll learn to predict these irrational behaviors and apply the science of decision-making to create unforgettable customer experiences. Discover a framework for

designing experiences that doesn't just show you what principles to apply, but introduces a new way of thinking about customer behavior. You'll finish Choice Hacking feeling confident and ready to transform your experience with science. In Choice Hacking, you'll discover:

- How to make sure your customer experience is designed for what people do (not what they say they'll do)
- How to increase the odds that customers will make the "right choice" in any environment
- How to design user experiences that drive action and engagement
- How to create retail experiences that persuade and drive brand love
- How brands like Uber, Netflix, Disney, and Starbucks apply these principles in their customer and user experiences

Additional resources included with the book:
