Up From Here Sep 22 2022 For men — and the women who love them — a guide to transformation and true power The world needs your light. The world needs your life. Every woman and child needs you also. Few men are taught the true spiritual essence of masculinity. In *Up from Here* Iyanla Vanzant empowers men with the insight and skills they need to identify, name, and understand their feelings, as well as to overcome the old patterns of behavior that result from misusing or not tapping into their emotional strength. In clear terms Vanzant shows men how to use the energy of emotions to move beyond painful, negative feelings such as rage, shame, fear, and anger to authenticity and strength. Like the phoenix, you can rise up from here, out of the ashes of the crash and burn of the past, to claim your true identity and power. By using Vanzant's "power tools" men can transform their frustrations and failures in love, life, and work into opportunities to claim their true potential and purpose.

Manifesting on Purpose Oct 19 2019 It's time to take manifesting off auto-pilot, get behind the wheel, and start steering your life in the direction you want it to go! *Manifesting on Purpose* clarifies why we manifest what we do, why we experience the same things over and over again, until we step in and weed out our own mental gardens. Ever wonder how is it that 2 people can start off with the same opportunity, and one will become a massive success, while the other barely scrapes by? What's the defining factor? What do successful people know that we're missing? We've been taught that the harder we work the more money, happiness, and success we'll have in life; but if this was the case successful people would constantly we run ragged, and be bleary eyed from lack of sleep, instead of enjoying lots of free time pursuing their heart's desires. So, what are we missing? The Law of Attraction is always working, even when we're not focused on it. The Law of Attraction states that, "Like Attracts Like," we are all energy, so our thoughts get reflected back to us. Your thoughts create your physical reality. The problem? We're always thinking! Our thoughts, ungoverned, bounce around from idea to idea, and all too often, focus on the immediate problems in our lives, creating a feedback loop. Since we attract back what we think about, if we're focused on our problems, what's going to show up? More problems! Your mind is your most valuable asset. Your thoughts literally create your reality. Your current situation is a reflection of your previous thoughts. Most people, however, do not consciously decide what they want, their subconscious belief systems run everything on auto-pilot; making most people feel as if they are victims of their circumstances. YOU ARE NOT A VICTIM OF CIRCUMSTANCE! You are in the driver's seat, you simply have to take control of the wheel! Take manifesting off auto-pilot, and create the life you want! "But I think positive thoughts," you say. Your conscious thoughts will always be secondary to your subconscious thoughts in the way of manifestation. Until you change your core beliefs to line up with who you wish to become, and what you wish to do, you cannot break the old cycles. Are you ready to take control? Have abundance in money, love, health, freedom, experiences, and all other areas of your life? Then let's get started!

Take Back the Economy May 06 2021 In the wake of economic crisis on a global scale, more and more people are reconsidering their role in the economy and wondering what they can do to make it work better for humanity and the planet. In this innovative book, J. K. Gibson-Graham, Jenny Cameron, and Stephen Healy contribute complex understandings of economics in practical terms: what can we do right now, in our own communities, to make a difference? Full of exercises, thinking tools, and inspiring examples from around the world, *Take Back the Economy* shows how people can implement small-scale changes in their own lives to create ethical economies. There is no manifesto here, no one prescribed model; rather, readers are encouraged and taught how to take back the economy in ways appropriate for their own communities and context, using what they already have at hand. *Take Back the Economy* dismantles the idea that the economy is separate from us and best comprehended by experts. Instead, the authors demonstrate that the economy is the outcome of the decisions and efforts we make every day. The economy is thus reframed as a

space of ethical action—something we can shape and alter according to what is best for the well-being of people and the planet. The book explores what people are already doing to build ethical economies, presenting these deeds as mutual concerns: What is necessary for survival, and what do we do with the surplus produced beyond what will fulfill basic needs? What do we consume, and how do we preserve and replenish the commons—those resources that can be shared to maintain all? And finally, how can we invest in a future worth living in? Suitable for activists and students alike, *Take Back the Economy* will be of interest to anyone seeking a more just, sustainable, and equitable world.
