Gospel Identity, created by missions-focused ministry Serge, focuses on the changing of Christians by the power of the gospel. In this life-transforming resource, small groups seeking to grow and be on mission with the gospel will discover their need for Jesus, examine the blessings of their new identity in Christ, and learn how those gifts move us outward to love others. With user-friendly small group activities and questions rooted in Scripture, this study resource includes a leader's guide and is suitable for small groups and individual mentoring. The series offers many other helpful and theologically rich small group resources, such as Gospel Growth and Gospel Love. Gospel Identity works at the very heart of the Christian faith: it presents a theological framework for understanding our shared

identity in Christ but also focuses on tangible ways Christians can live out these foundational truths. Many small group guides either focus heavily on biblical study without a personal life connection or they don't rely on Scripture enough. Gospel Identity doesn't neglect deep personal transformation, and it doesn't water down the good news. Serge offers readers an opportunity for rich, grace-based training on the specific and meaningful topic of identity, which is woven into the fabric of our being. Come and explore how a firmly rooted knowledge of gospel identity leads to renewal and a radical, missional mindset for your community. A classic memoir that's gripping, funny, and ultimately unforgettable from the bestselling former National Ambassador of Books for Young People. A strong choice for summer reading—an engaging and powerful autobiographical exploration of growing up a so-called "bad boy" in Harlem in the 1940s. As a boy, Myers was quick-tempered and physically strong, always ready for a fight. He also read voraciously—he would check out books from the library and carry them home, hidden in brown paper bags in order to avoid other boys' teasing. He aspired to be a writer (and he eventually succeeded). But as his hope for a successful future diminished, the values he had been taught at home, in school, and in his community seemed worthless, and he turned to the streets and to his books for comfort. Don't miss this memoir by New York Times bestselling author Walter Dean Myers, one of the most important voices of our time. Once upon a time the practice of storytelling was about collecting interesting stories about the past, and converting them into soundbite pitches. Now it is more about foretelling the ways the future is approaching the present, prompting a re-storying of the past. Storytelling has progressed and is about a diversity of voices, not just one teller of one past; it is how a group or organization of people negotiates the telling of history and the telling of what future is arriving in the present. With the changes in storytelling practices and theory there is a growing need to look at new and different methodologies. Within this exciting new book, David M. Boje develops new ways to ask questions in interviews and make observations of practice that are about storytelling the future. This, after all, is where management practice concentrates its storytelling, while much of the theory and method work is all about how the past might recur in the future. Storytelling Organizational Practices takes the reader on a journey: from looking at narratives of past experience through looking at living stories of emergence in the present to looking at how the future is arriving in ways that prompts a re-storying of the past. "WE NEED TO TALK." In this urgent and insightful book, public radio journalist Celeste Headlee shows us how to bridge what divides us--by having real conversations BASED ON THE TED TALK WITH OVER 10 MILLION VIEWS NPR's Best Books of 2017 Winner of the 2017 Silver Nautilus Award in Relationships & Communication "We Need to Talk is an important read for a conversationally-challenged, disconnected age. Headlee is a talented, honest storyteller, and her advice has helped me become a better spouse, friend, and mother." (Jessica Lahey, author of New York Times bestseller The Gift of Failure) Today most of us communicate from behind electronic screens, and studies show that Americans feel less connected and more divided than ever before. The blame for some of this disconnect can be attributed to our political landscape, but the erosion of our conversational skills as a society lies with us as individuals. And the only way forward, says Headlee, is to start talking to each other. In We Need to Talk, she outlines the strategies that have made her a better conversationalist—and offers simple tools that can improve anyone's communication. For example: BE THERE OR GO ELSEWHERE. Human beings are incapable of multitasking, and this is especially true of tasks that involve language. Think you can type up a few emails while on a business call, or hold a conversation with your child while texting your spouse? Think again. CHECK YOUR BIAS. The belief that your intelligence protects you from erroneous assumptions can end up making you more vulnerable to them. We all have blind spots that affect the way we view others. Check your bias before you judge someone else. HIDE YOUR PHONE. Don't just put down your phone, put it away. New research suggests that the mere presence of a cell phone can negatively impact the quality of a conversation. Whether you're struggling to communicate with your kid's teacher at school, an employee at work, or the people you love the most—Headlee offers smart strategies that can help us all have conversations that matter. "McGonigal is a clear, methodical writer, and her ideas are well argued. Assertions are backed by countless psychological studies." —The Boston Globe "Powerful and provocative . . . McGonigal makes a persuasive case that games have a lot to teach us about how to make our lives, and the world, better." —San Jose Mercury News "Jane McGonigal's insights have the elegant, compact, deadly simplicity of plutonium, and the same explosive force." —Cory Doctorow, author of Little Brother A visionary game designer reveals how we can harness the power of games to boost global happiness. With 174 million gamers in the United States alone, we now live in a world where every generation will be a gamer generation. But why, Jane McGonigal asks, should games be used for escapist entertainment alone? In this groundbreaking book, she shows how we can leverage the power of games to fix what is wrong with the real world—from social problems like depression and obesity to global issues like poverty and climate change—and introduces us to cutting-edge games that are already changing the business, education, and nonprofit worlds. Written for gamers and non-gamers alike, Reality Is Broken shows that the future will belong to those who can understand, design, and play games. Jane McGonigal is also the author of SuperBetter: A Revolutionary Approach to Getting Stronger, Happier, Braver and More Resilient.
