Dazzling space battles, intergalactic politics, and rogue AI collide in the second book in this epic space opera by award-winning author Megan O'Keefe. Sanda and Tomas are fleeing for their lives after letting the most dangerous smartship in the universe run free. Now, unsure of who to trust, Sanda knows only one thing for certain -- to be able to save herself from becoming a pawn of greater powers, she needs to discover the secret of the coordinates hidden in her skull. But getting to those coordinates is a problem she can't solve alone. They exist beyond a dead gate -- a Casimir gate that opened up into a dead-end system without resources worth colonizing, and was sealed off. To get through the dead gate, she needs the help of the enemy Nazca. But some Nazca are only interested in the chip in her head -- and they'll crack her open to get to it. For more than fifty years, Harold Phifer's childhood living conditions remained a secret, even from those who thought they knew him

best. No one knew about his past growing up with a mother who suffered from mental illness; a greedy aunt; a mindless and spoiled older brother; an absent father. It wasn't until an explosion in Afghanistan that his memory was blasted back into focus. This book is the result of a long, cathartic chat with a stranger at a beach bar, where Harold finally found some peace. #1 NEW YORK TIMES BESTSELLER • A clear-eyed account of learning how to lead in a chaotic world, by General Jim Mattis—the former Secretary of Defense and one of the most formidable strategic thinkers of our time—and Bing West, a former assistant secretary of defense and combat Marine. “A four-star general’s five-star memoir.”—The Wall Street Journal Call Sign Chaos is the account of Jim Mattis’s storied career, from wide-ranging leadership roles in three wars to ultimately commanding a quarter of a million troops across the Middle East. Along the way, Mattis recounts his foundational experiences as a leader, extracting the lessons he has learned about the nature of warfighting and peacemaking, the importance of allies, and the strategic dilemmas—and short-sighted thinking—now facing our nation. He makes it clear why America must return to a strategic footing so as not to continue winning battles but fighting inconclusive wars. Mattis divides his book into three parts: Direct Leadership, Executive Leadership, and Strategic Leadership. In the first part, Mattis recalls his early experiences leading Marines into battle, when he knew his troops as well as his own brothers. In the second part, he explores what it means to command thousands of troops and how to adapt your leadership style to ensure your intent is understood by your most junior troops so that they can own their mission. In the third part, Mattis describes the challenges and techniques of leadership at the strategic level, where

military leaders reconcile war's grim realities with political leaders' human aspirations, where complexity reigns and the consequences of imprudence are severe, even catastrophic. Call Sign Chaos is a memoir of a life of warfighting and lifelong learning, following along as Mattis rises from Marine recruit to four-star general. It is a journey about learning to lead and a story about how he, through constant study and action, developed a unique leadership philosophy, one relevant to us all. In a heartbeat, everything grinds to a halt...On Christmas Eve, the lights go out. Vehicles stop working. Communications break down. Reclusive former soldier Liam Coleman doesn't want to be anywhere near bustling downtown Chicago the day before Christmas. But his twin brother and his pregnant sister-in-law need him, so he makes the trip. But mere minutes after leaving O'Hare, their car crashes, along with hundreds of other vehicles. When Liam's phone stops working, he begins to suspect something more sinister than a local power outage. But before he can react, the first plane falls from the sky... When a super EMP takes down the nation's power grid, Liam knows it's time to bug out. He's prepared, but he never expected to be caught in the middle of Chicago as chaos erupts. With society collapsing before his very eyes, Liam will have to risk more than he ever thought possible to protect the ones he loves--if it's not already too late. Chaos Rising is the riveting post-apocalyptic EMP survival thriller prequel novella set in the Edge of Collapse universe, a brand new series from bestselling author, Kyla Stone. Includes a six-chapter sneak peek of Edge of Collapse, book #1 in the explosive new post-apocalyptic series. In the post-Soviet era, democracy has made little progress in Central Asia. In Chaos, Violence, Dynasty, Eric McGlinchey presents a compelling comparative study of the divergent political courses taken by Kyrgyzstan, Uzbekistan, and Kazakhstan in the wake of Soviet rule. McGlinchey examines economics, religion, political legacies, foreign investment, and the ethnicity of these countries to evaluate the relative success of political structures in each nation. McGlinchey explains the impact of Soviet policy on the region, from Lenin to Gorbachev. Ruling from a distance, a minimally invasive system of patronage proved the most successful

over time, but planted the seeds for current "neo-patrimonial" governments. The level of direct Soviet involvement during perestroika was the major determinant in the stability of ensuing governments. Soviet manipulations of the politics of Uzbekistan and Kazakhstan in the late 1980s solidified the role of elites, while in Kyrgyzstan the Soviets looked away as leadership crumbled during the ethnic riots of 1990. Today, Kyrgyzstan is the poorest and most politically unstable country in the region, thanks to a small, corrupt, and fractured political elite. In Uzbekistan, Islam Karimov maintains power through the brutal suppression of disaffected Muslims, who are nevertheless rising in numbers and influence. In Kazakhstan, a political machine fueled by oil wealth and patronage underlies the greatest economic equity in the region, and far less political violence. McGlinchey's timely study calls for a more realistic and flexible view of the successful aspects of authoritarian systems in the region that will be needed if there is to be any potential benefit from foreign engagement with the nations of Central Asia, and similar political systems globally. A month into the apocalypse, would you still be alive? Colt survived an emergency landing, a standoff with a rogue militia, and more than his share of bullets. With the threat of danger around every corner, leaving the city is his only choice. But with seven people relying on him, Colt discovers the forest is deadlier than the streets. If you lose everything, can you summon the strength to go on? As the city fades into the distance, Dani hopes her luck is changing. But a catastrophic accident turns everything upside down. Grief-stricken and desperate, she must summon the strength to carry on, even when the odds--and her friends--are stacked against her. The end of the world brings out the best and worst in all of us. Starvation, dehydration, and danger lurk behind every tree. If Colt, Dani, and the rest of their group can't put tragedy behind them, it might be the end of their journey. With guilt and anguish tearing them apart, an unexpected visitor becomes their only hope. The EMP is only the beginning. Chaos Gains is book six in the After the EMP series, a post-apocalyptic thriller series following ordinary people trying to survive after a geomagnetic storm destroys the nation's power grid. A journalist's twenty-year

fascination with the Manson murders leads to shocking new revelations about the FBI's involvement in this riveting reassessment of an infamous case in American history. Over two grim nights in Los Angeles, the young followers of Charles Manson murdered seven people, including the actress Sharon Tate, then eight months pregnant. With no mercy and seemingly no motive, the Manson Family followed their leader's every order -- their crimes lit a flame of paranoia across the nation, spelling the end of the sixties. Manson became one of history's most infamous criminals, his name forever attached to an era when charlatans mixed with prodigies, free love was as possible as brainwashing, and utopia -- or dystopia -- was just an acid trip away. Twenty years ago, when journalist Tom O'Neill was reporting a magazine piece about the murders, he worried there was nothing new to say. Then he unearthed shocking evidence of a cover-up behind the "official" story, including police carelessness, legal misconduct, and potential surveillance by intelligence agents. When a tense interview with Vincent Bugliosi -- prosecutor of the Manson Family and author of *Helter Skelter* -- turned a friendly source into a nemesis, O'Neill knew he was onto something. But every discovery brought more questions: Who were Manson's real friends in Hollywood, and how far would they go to hide their ties? Why didn't law enforcement, including Manson's own parole officer, act on their many chances to stop him? And how did Manson -- an illiterate ex-con -- turn a group of peaceful hippies into remorseless killers? O'Neill's quest for the truth led him from reclusive celebrities to seasoned spies, from San Francisco's summer of love to the shadowy sites of the CIA's mind-control experiments, on a trail rife with shady cover-ups and suspicious coincidences. The product of two decades of reporting, hundreds of new interviews, and dozens of never-before-seen documents from the LAPD, the FBI, and the CIA, *Chaos* mounts an argument that could be, according to Los Angeles Deputy District Attorney Steven Kay, strong enough to overturn the verdicts on the Manson murders. This is a book that overturns our understanding of a pivotal time in American history. A leading economic historian traces the evolution of American capitalism from the colonial era to the

present—and argues that we've reached a turning point that will define the era ahead. "A monumental achievement, sure to become a classic."—Zachary D. Carter, author of *The Price of Peace* In this ambitious single-volume history of the United States, economic historian Jonathan Levy reveals how capitalism in America has evolved through four distinct ages and how the country's economic evolution is inseparable from the nature of American life itself. The Age of Commerce spans the colonial era through the outbreak of the Civil War, and the Age of Capital traces the lasting impact of the industrial revolution. The volatility of the Age of Capital ultimately led to the Great Depression, which sparked the Age of Control, during which the government took on a more active role in the economy, and finally, in the Age of Chaos, deregulation and the growth of the finance industry created a booming economy for some but also striking inequalities and a lack of oversight that led directly to the crash of 2008. In *Ages of American Capitalism*, Levy proves that capitalism in the United States has never been just one thing. Instead, it has morphed through the country's history—and it's likely changing again right now. "A stunning accomplishment . . . an indispensable guide to understanding American history—and what's happening in today's economy."—Christian Science Monitor "The best one-volume history of American capitalism."—Sven Beckert, author of *Empire of Cotton* Can ordinary people survive the apocalypse? Raine Caldwell is about to find out. The government isn't coming to rescue her. If Raine and her group are going to make it, they must save themselves. The realization that the lights were not coming back on anytime soon hit them hard. When things go from bad to worse, they must act quickly in search of a refuge from the cold and violent city. *Seeking Refuge* is book two in T. L. Payne's *Gateway to Chaos* series. Connect with me on Facebook at <https://www.facebook.com/groups/tlpaynereadergroup/>. When the Cold War ended in 1989, American hopes for a new world order were quickly disappointed. A new wave of violence soon erupted, engulfing places from Rwanda and Somalia to Chechnya and Bosnia. These new "clashes of civilizations," fundamentalist jihads, and ethnic massacres appeared to be more savage and less rational than the long twilight struggle with the USSR, during which Washington's adversary was clearly identified and relatively predictable. In an effort to understand these post-Cold War conflicts and to advise the government on how to deal with them, a new school of foreign policy thought has developed. Dubbed "chaos theory," it argues that the much heralded processes of globalization are actually breeding a reaction of irrational violence. Thus, the spread of Western cultural icons through new electronic media often shocks and offends moral sensibilities in traditional societies. The explosive growth of international commerce has triggered a wave of migration and urbanization that throws together people from different cultures and fertilizes xenophobia. Chaos theory has already won converts in the U.S. military, the intelligence community, and the foreign service. Its influence has been manifest in an array of policies, particularly during the U.S. engagement in Bosnia. But chaos theory is mostly wrong. In this book, the author outlines the growth of chaos theory and its growing influence, and then provides a thorough empirical critique. Using detailed studies of Bosnia and global comparisons, he shows that globalization has not played a decisive role in fueling recent conflicts. Indeed, journalists' impressions notwithstanding, there is no evidence that since 1989 warfare has become more savage or even more frequent. The advocates of chaos theory are thus urging the U.S. to invest in preparing for a threat that is largely mythical--a strategy that is at least wasteful and potentially dangerous. The author argues that the most useful tools for preventing or prosecuting post-Cold War conflicts remain the same ones that worked in the recent past:

crafty diplomacy, conventional military preparedness, and expanded support for economic development. Previously titled *Is Chaos a Strategic Threat? Bosnia and Myths about Ethnic Conflict* Leading Marxist thinkers re-evaluate Trotsky's key theories -- an ideal introduction for students. How much could you take? Society continues to unravel. Supplies are low, and the survivors are more desperate than ever. Max is on his own, without food or water. A day's journey has turned into four days and four nights. If he can't find the gas they desperately need, what will happen to his friends back at camp? Georgia and Mandy wait for Max to return. Without food, they struggle daily. At any moment, the enemy could appear. Weakened by her injury, will Georgia be able to lead the defense of the camp? Will the others have enough strength to follow? John and Cynthia are trying to track down Max. With Dale's help, they've made it to the compound. But when they mention Max's name, tensions quickly rise. Will they be able to get out of what they've gotten themselves into? *Surviving Chaos* is book 4 of *The EMP*, a post-apocalyptic survival thriller series. It deals with real people fighting for their survival every inch of the way. Instant #1 New York Times and Wall Street Journal bestseller From the Washington Post journalists Yasmeen Abutaleb and Damian Paletta—the definitive account of the Trump administration's tragic mismanagement of the COVID-19 pandemic, and the chaos, incompetence, and craven politicization that has led to more than a half million American deaths and counting. Since the day Donald Trump was elected, his critics warned that an unexpected crisis would test the former reality-television host—and they predicted that the president would prove unable to meet the moment. In 2020, that crisis came to pass, with the outcomes more devastating and consequential than anyone dared to imagine. *Nightmare Scenario* is the complete story of Donald Trump's handling—and mishandling—of the COVID-19 catastrophe, during the period of January 2020 up to Election Day that year. Yasmeen Abutaleb and Damian Paletta take us deep inside the White House, from the Situation Room to the Oval Office, to show how the members of the administration launched an all-out war against the health agencies, doctors,

and scientific communities, all in their futile attempts to wish away the worst global pandemic in a century. From the initial discovery of this new coronavirus, President Trump refused to take responsibility, disputed the recommendations of his own pandemic task force, claimed the virus would “just disappear,” mocked advocates for safe-health practices, and encouraged his base and the entire GOP to ignore or rescind public health safety measures. Abutaleb and Paletta reveal the numerous times officials tried to dissuade Trump from following his worst impulses as he defied recommendations from the experts and even members of his own administration. And they show how the petty backstabbing and rivalries among cabinet members, staff, and aides created a toxic environment of blame, sycophancy, and political pressure that did profound damage to the public health institutions that Americans needed the most during this time. Even after an outbreak in the fall that swept through the White House and infected Trump himself, he remained defiant in his approach to the virus, very likely costing him his own reelection. Based on exhaustive reporting and hundreds of hours of interviews from inside the disaster zone at all levels of authority, Nightmare Scenario is a riveting account of how the United States government failed its people as never before, a tragedy whose devastating aftershocks will linger and be felt by generations to come. An anthology detailing the end of society by differing events. With a traitor in their midst and an outside group continuing to attack them, Alex, Melissa, Luke, and Stan struggle to keep their neighborhood safe. Chaos is about to erupt. During the aftermath of a massive solar flare that has plunged the country into the Dark Ages, Abram and Nick must prepare the compound against the growing bandit threat. But will earlier decisions sink their chances of survival and put those they love at risk of being annihilated? A brewing danger is closing in. As if the bandit threat wasn't bad enough, an erratic stranger is closing in on Abram's compound. But something is lurking beneath the surface of this man, who sees the collapse of society as the greatest opportunity of his life. Will the stranger swoop in at Abram and Nick's weakest moment

and seize control of the compound, or will he play with his prey first? A few choices away from destruction. As they find their days numbered, Abram, Nick, and the rest of the community at the compound are faced with crucial decisions that could help them survive the chaos-or send them to their eventual demise. In this new world, choices matter more than ever and make the difference between life and death. Will they make the right choices? Instant Chaos is book two in the EMP Crisis Series, a post-apocalyptic survival thriller series about regular people struggling to survive after a solar EMP. For fans of books by Kyla Stone, Jack Hunt, Ryan Westfield, Harley Tate, and T.L. Payne. *** This book series contains mild language and some depictions of violence. *** Devastating floods. A catastrophic EMP. At the dawn of chaos, who will survive? In the middle of the worst flooding on record, a devastating EMP wipes out the nation's power, plunging the country into darkness. Cars crash into one another. Planes tumble from the skies, killing everyone on board. Survivors battle for their lives in flooded cities, bereft of mobile phones or media to aid them. And with food and supplies already crippled by the flooding, the nation is very rapidly descending into chaos. Sam is an ex-military man who knows a thing or two about survival. He is in the middle of the city with his loyal dog when the power goes out. Right away, he suspects the worst: an EMP event. Trapped in the ruin, he only has one goal in mind: getting out of the city and getting back home. But does he have what it takes to make it out alive? Or will this journey prove his most dangerous challenge yet? Tara is trapped at home by her controlling boyfriend, Jonno, when the world turns dark. After escaping his clutches, she soon realises that something is desperately wrong outside. Trains are at a standstill. The flooded roads are filled with broken-down cars. And her phone won't work... Does she have what it takes to adapt to this world without power and make it back to her parents' place? Or will her psychopathic boyfriend catch up with her and prevent her escape? At the dawn of chaos... who will survive? Dawn of Chaos is the first book in the new post apocalyptic EMP survival thriller series. If you enjoy stories of ordinary people thrown into harrowing new circumstances, you'll

love the World Without Power series. An accomplished Fortune 50 executive translates for a western audience the lessons he learned from the land of his birth, India. Bob Miglani was stressed out, burnt out, and stuck until he rediscovered the enduring lessons of his childhood: celebrate impermanence, serve others, and move forward no matter what. Bob's message: chaos isn't going away--embrace it! He didn't ask to be a hero, but now all that stands between us and chaos . . . is Colt. Colt McAlister was having the summer of his life. He spent his days surfing and his nights playing guitar on the beach with friends. He even met a girl and got his first car. But everything changes when his parents are killed in a freak accident. He's forced to leave his old life behind and move to Arizona with his grandfather. The only person he knows at the new high school is a childhood friend named Dani. And Oz, a guy he's sure he's never met but who is strangely familiar. But what if his parents' death wasn't an accident? His mother, an investigative reporter, was going to expose a secret mind-control program run by one of the world's largest companies. Before she could release the story, what if agents from Trident Biotech made sure she couldn't go public? Vowing to uncover truth, Colt is drawn into a secret world of aliens, shapeshifters, flying motorcycles, and invisible getaways. The invasion has begun. After the lights went out across the nation, Elliot, Jesse, Maggie and Damon fought off the desperate as they made their way back to Lake Placid. When a string of murders occur throughout Lake Placid, Elliot must face an unknown danger. With looters and raiders going wild it's only a matter of time before they lose control. How many must die before they throw in the towel and protect their own? In the dead of winter, a super EMP destroys the nation's power grid. No electricity. No cars or phones. Worst of all: No heat. The country is plunged into instant chaos. But for twenty-six-year-old Hannah Sheridan, it's the best day of her life. For the last five years, she's been held captive by a sadistic psychopath--until the EMP releases the lock of her prison. Hannah emerges from her underground cell into a hostile winter landscape with no way to call for help, no vehicle that will drive, armed with nothing but the clothes on her back and her own

determination to survive. Liam Coleman, cynical loner and former soldier, is headed nowhere fast. He believed he was prepared for any disaster--until the EMP took everything he'd ever cared about in a matter of seconds. When he runs across a desperate woman who will die without his help, he's forced to make a choice. Two hundred frozen, perilous miles stand between them and their destination in rural Michigan. But the lack of power, desperate people, and the treacherous elements aren't the only threats. Hannah's captor isn't about to let her go. He will hunt her to the ends of the earth and beyond, destroying anything and anyone who gets in his way. For she has something he wants--she's nine months pregnant with his child. Edge of Collapse is a gripping post-apocalyptic EMP thriller perfect for fans of Ryan Schow, Grace Hamilton, Harley Tate, Jack Hunt, and Boyd Craven. The world is divided by dangerous and shifting faultlines the global order is suffering a period of dislocation. Since the onset of the 21st century, the world is embroiled into a war with itself. The democracy is receding in the era of rising populism, and nonagenarian like Kissinger are hearing the drums of the Third World War. Donald Trump, in his four years presidency, shook the foundations of the United States of America and leaving the White House in tatters in January 2021. President Erdogan is pampering the ambition of restoration of the Ottoman empire while reigning in the Kemalist forces. Muhammad Bin Salman is riding his ruthless aspirations to lead Arabs against the Iranian regime. President Xi Jinping's China struts the global stage with newfound confidence and economic prowess. Pakistan is finding itself again between a rock and a hard place with instability at its heart and a saphronised India on its doorsteps. Worst of all, the conflict-ridden world is threatened by a pandemic that has caused an economic bloodbath from Wall Street to Tokyo with millions of lives lost and billions at risk to fall prey to a virus that is changing faster than its cure. T H Hassan analyses a grandly messed up world and proposes solutions to resolve the undergoing crises and conflicts. T M Hassan analyses the world at conflict while drawing upon the ancient enmities and imminent collisions that define the struggle for power and

control in the twenty-first century. Region by region, it delayers the causes, contexts, actors and likely outcomes of globally significant violent struggle now underway. This book is an imperative read to make sense of the fractured and perilous world around us and find an exit from the ongoing chaos. What would you die for? Erica's saga continues in the second installment of the Ruler of Ashes Series - a post-apocalyptic military science fiction thriller. Crimson Sky has ravaged the Earth, and transformed humans into Apex Predators known as 'hunters.' The Order, once sure of their superiority, have been driven beneath the Earth; betrayed by their creations - The Children of the Order, a genetically manipulated race gifted with superhuman capabilities. An ancient evil has emerged - technologically advanced, otherworldly and deadly. Alliances will shift, as The Children align with what they believe is ideologically right. The world is long overdue for a completely new system of governance. If there was ever a need for political representation or a paternalistic and opaque authority, it has been removed by technology. Every political system we have tried has proven incapable of protecting human rights and dignity. Every political system we have tried has devolved into oligarchy. To effect the change we require immediately, to give individuals control and responsibility, to bring regional systems under regional governance, allow global collaboration and protect the heritage of future generations, we need a new political model. Getting home has never been so treacherous. When an EMP takes down the power grid and everything that runs on a computer chip, Melissa has no choice but to walk from her office in downtown Salt Lake City to her home in a suburb fifteen miles south. With a few co-workers to keep her company, she isn't too worried-until they begin their journey and discover how quickly society can fall apart. Alex, Melissa's husband, works thirty blocks south of Melissa's office. When everything stops working he has to decide whether to head north and find Melissa or go in the opposite direction to see if their teenaged children made it home. Only trouble is, he's by himself and danger is everywhere. Two weeks into the apocalypse, would your switch be flipped? Colt isn't a family man. As an air marshal, he doesn't have time for

commitment. When his plane emergency lands outside of Eugene, Oregon, he knows it's the beginning of the end. When he sets off on his own, he's ready to face the future alone. Rescuing a kid isn't part of his plan. When you have nothing left, can you find the will to survive? Dani's only fifteen, but she's no stranger to hardship. When the pangs of hunger drive her to the brink, Dani makes the difficult choice to steal. She knows she might get caught. She never expects a stranger to save her. The end of the world brings out the best and worst in all of us. Colt and Dani will have to fight to survive in this post-apocalyptic world. Joining forces isn't part of the plan, but desperate times call for desperate measures. With danger around every corner, will they find the strength to trust each other? Or will the past ruin any chance of seeing the future? The EMP is only the beginning. Chaos Comes is book four in the After the EMP series, a post-apocalyptic thriller series following ordinary people trying to survive after a geomagnetic storm destroys the nation's power grid. Although Chaos Comes follows the chronological events of After the EMP series, it is book one in a new trilogy featuring new characters. It can be read first. In dangerous Fort Dallas, Rachel is untouchable. All she has to do is hand over her panties every day. Sure, it's weird, but it keeps her safe, right? And if there's a reason behind it, she doesn't care. Until she finds out that she's dragon bait. That changes things. To stay in the fort's sheltering walls, Rachel needs to 'befriend' a dragon and establish a mental connection with him. Drakoni male Jurik may be protective of her, and caring...but he's still a dragon, and just as lost to the madness as any of them. He can't be trusted. No dragon can. Rachel wears the scars from the last time she tangled with one, so seducing one seems absurd. Or...is it? Because Jurik doesn't see her scars...all he sees is her. Is he her worst nightmare? Or everything she needed? The Wheel of Time is now an original series on Prime Video, starring Rosamund Pike as Moiraine! In Lord of Chaos, the sixth novel in Robert Jordan's #1 New York Times bestselling epic fantasy series, The Wheel of Time®, Rand al'Thor, the Dragon Reborn, builds his army of Light even as sworn enemies--and supposed allies--move against him. Now ruling Tear, Andor, and

Caemlyn, among other nations, Rand is recruiting all men capable of channeling to be trained as his Asha'man soldiers. The warrior Aiel clans have pledged loyalty to Rand, acknowledging him as their chief of chiefs, even though the Shaido Aiel remain a threat. Split into two factions, the Aes Sedai of the White Tower and their rebel counterparts both seek to ally themselves with the Dragon Reborn. Rand knows all too well the manipulative nature of the Aes Sedai, no matter which side of their internal war they stand upon. But even he cannot predict just how desperate, cruel, and treacherous they can be. And in the shadows, the Forsaken and the Dark One are conjuring even more chaos...

Since its debut in 1990, *The Wheel of Time*® by Robert Jordan has captivated millions of readers around the globe with its scope, originality, and compelling characters. The last six books in series were all instant #1 New York Times bestsellers, and *The Eye of the World* was named one of America's best-loved novels by PBS's *The Great American Read*. *The Wheel of Time*® New Spring: The Novel #1 *The Eye of the World* #2 *The Great Hunt* #3 *The Dragon Reborn* #4 *The Shadow Rising* #5 *The Fires of Heaven* #6 *Lord of Chaos* #7 *A Crown of Swords* #8 *The Path of Daggers* #9 *Winter's Heart* #10 *Crossroads of Twilight* #11 *Knife of Dreams* By Robert Jordan and Brandon Sanderson #12 *The Gathering Storm* #13 *Towers of Midnight* #14 *A Memory of Light* By Robert Jordan and Teresa Patterson

Patterns of the Wheel: Coloring Art Based on Robert Jordan's The Wheel of Time At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The battle has only begun for Raine Caldwell and her group of survivors. In the weeks since an EMP attack left their world in chaos, Raine Caldwell and her group have escaped St. Louis only to find trouble at the farm in St. Francois County. With the cartel defeated and new alliances formed with the locals, they thought their problems were over. But the battle was only beginning. Can our group of weary survivors find hope amid the chaos? Battered and weary,

the group must gather all their strength for the dangers to come as they seek hope in a desperate world. *Seeking Hope* is the fourth book in the *Gateway to Chaos* series.

From one of America's preeminent national security journalists, an explosive, news-breaking account of Donald Trump's collision with the American national security establishment, and with the world It is a simple fact that no president in American history brought less foreign policy experience to the White House than Donald J. Trump. The real estate developer from Queens promised to bring his brash, zero-sum swagger to bear to cut through America's most complex national security issues, and he did. If the cost of his "America First" agenda was bulldozing the edifice of foreign alliances that had been carefully tended by every president from Truman to Obama, then so be it. It was clear from the first that Trump's inclinations were radically more blunt force than his predecessors'. When briefed by the Pentagon on Iran and the Strait of Hormuz, he exclaimed, "The next time Iran sends its boats into the Strait: blow them out of the water! Let's get Mad Dog on this." When told that the capital of South Korea, Seoul, was so close to the North Korean border that millions of people would likely die in the first hours of any all-out war, Trump had a bold response, "They have to move." The officials in the Oval Office weren't sure if he was joking. He raised his voice. "They have to move!" Very quickly, it became clear to a number of people at the highest levels of government that their gravest mission was to protect America from Donald Trump.

Trump and His Generals is Peter Bergen's riveting account of what happened when the unstoppable force of President Trump met the immovable object of America's national security establishment--the CIA, the State Department, and, above all, the Pentagon. If there is a real "deep state" in DC, it is not the FBI so much as the national security community, with its deep-rooted culture and hierarchy. The men Trump selected for his key national security positions, Jim Mattis, John Kelly, and H. R. McMaster, were products of that culture: Trump

wanted generals, and he got them. Three years later, they would be gone, and the guardrails were off. From Iraq and Afghanistan to Syria and Iran, from Russia and China to North Korea and Islamist terrorism, Trump and His Generals is a brilliant reckoning with an American ship of state navigating a roiling sea of threats without a well-functioning rudder. Lucid and gripping, it brings urgently needed clarity to issues that affect the fate of us all. But clarity, unfortunately, is not the same thing as reassurance. This brilliant little novel, set against the backdrop of post-Mao China, juxtaposes recollections of childhood, pet ownership, and marriage with discussions of art, sex, and murder, weaving together an absurdist tapestry that is the inner life of the novel's felicitously named protagonist, Huang Haha. Subversive, iconoclastic, and wholly irreverent. From the author of Butter comes an emotional coming-of-age novel about teen coder who gets roped into a dangerous hack, perfect for fans of John Corey Whaley and Adam Silvera. Eli is coasting through high school, spending most of his time writing code. Each day is as boring as the next--until he receives a cryptic message in binary code, leading him to Seth and Mouse. They're seeking a third member for a prestigious hacking competition, after their teammate and friend Jordan committed suicide last year. Intrigued by the challenge, Eli agrees. But soon it becomes clear that Seth and Mouse are after more than winning a competition--they're seeking revenge for the abuse that caused Jordan's suicide. Eli is in way over his head, but he's also hiding a dangerous secret that could lead to even more trouble if he isn't careful. In a story about the shift of power from those who rule at school to those who rule online, the difference between bully and victim is blurred and Eli--whose coding skills have taught him to make order out of chaos--will find the real world is much harder to control. First Published in 2015. Routledge is an imprint of Taylor & Francis, an informa company. The explosive, behind-the-scenes story of Donald Trump's high-stakes confrontation with Beijing, from an award-winning Washington Post columnist and peerless observer of the U.S.-China relationship There was no calm before the storm. Donald Trump's surprise electoral victory shattered the

fragile understanding between Washington and Beijing, putting the most important relationship of the twenty-first century in the hands of a novice who had bitterly attacked China from the campaign trail. Almost as soon as he entered office, Trump brought to a boil the long-simmering rivalry between the two countries, while also striking up a "friendship" with Chinese president Xi Jinping — whose manipulations of his American counterpart would undermine the White House's already disjointed response to the historic challenge of a rising China. All the while, Trump's own officials fought to steer U.S. policy from within. By the time the COVID-19 pandemic erupted in Wuhan, Trump's love-hate relationship with Xi had sparked a trade war, while Xi's aggression had pushed the world to the brink of a new Cold War. But their quarrel had also forced a long-overdue reckoning within the United States over China's audacious foreign-influence operations, horrific human rights abuses, and creeping digital despotism. Ironically, this awakening was one of the biggest foreign-policy victories of Trump's fractious term in office. Filled with shocking revelations drawn from Josh Rogin's unparalleled access to top U.S. officials from the White House and deep within the country's foreign policy machine, Chaos Under Heaven reveals an administration at war with itself during perhaps our most urgent hour. Back in their neighborhood, Alex and Melissa settle in, meeting with neighbors and setting up security while trying to procure the items needed to round out their supplies. But all is not well. Though their street has banded together, disagreements in the wider neighborhood keep harmony at bay. And when threats from outside the neighborhood start pressing in, the fracturing inside the neighborhood may be the death of them all. Raine Caldwell and the other survivors from St. Louis thought getting out of the city would be the answer to their problems. They quickly learn that violence and winter's fury aren't exclusive to the city. The group is tested far beyond anything they could imagine as they begin to settle in and survive life without modern conveniences. Can they adapt to the new world in time? After finding themselves in a community terrorized by ruthless and dangerous people, Raine and the others in her group must

pull together to find justice when one of their own is taken. Can they pull the community together, or will it be pulled further apart? Seeking Justice is a gripping tale ordinary people struggling to survive when everything seems to be working against them. Look for Seeking Hope, book four in the Gateway to Chaos series coming soon! A massive cyber-attack crippled half the nation's power grid. A super EMP took care of the rest. While a cyber-attack crippled half the nation's power grid, enemies of the United States launched a super EMP over the midwest sending the nation back to the stone age. For Raine Caldwell and her neighbors, it couldn't have come at a worse time. Deep into the coldest midwest winter on record, the nation is plunged into frigid darkness. With emergency services crippled by the lack of transportation and streets snarled with stalled cars, a spark ignites and the city of St. Louis is engulfed in flames. Chaos grips the city as society spirals out of control and violence fills the streets. With her building surrounded by fire, Raine and her neighbors are forced to flee on foot onto the snow covered streets seeking safety. Seeking Safety is a gripping tale of an ordinary group of people as they fight to survive after an EMP plunges the nation into frigid darkness. Would you have what it takes to survive the cold, dark, dangerous streets and make it to safety? Seeking Safety is the first book in T. L. Payne's heart-stopping post-apocalyptic EMP survival series, Gateway to Chaos. Look for Seeking Refuge: Gateway to Chaos Book Two coming soon! OTHER BOOKS BY BESTSELLING AUTHOR T.L. lights go out, anarchy reigns supreme. After journalist Austin Merryman's wife died, he and his fourteen-year-old daughter left home to travel the country in an old RV. But the comfort and renewal they sought soon descends into chaos. After a message from an old college buddy leads Austin to a bridge in the middle of nowhere, he finds his friend—now an NSA agent—waiting to give him a USB drive. Before the contents can be explained, machine gun fire strafes the bridge, killing Austin's friend and forcing Austin into the raging river. Rescued downstream by a beautiful veterinarian, Austin learns that EMP attacks have thrust the world into eternal darkness—and separated him from the only person he has left. Now, he'll move heaven and earth to locate his daughter and make it to his brother's prepper hideaway in Utah. But the post-apocalyptic world is no longer a friendly place. Resources are growing scarce. Factions break out along ethnic and religious lines. Everyone is willing to do whatever it takes to survive in an increasingly hostile environment. And Austin's daughter is caught right in the middle of this splintering society. But an even deadlier foe stalks them as they struggle across the landscape. Someone who hasn't forgotten about the USB drive Austin possesses. And they'll do anything to get it back. Engage your brain with a suspenseful thriller and compelling story with incredible twists. Find out what happens if chaos takes over the world. What would you do if your life took a sudden turn for worse? If everything you ever knew stopped existing? If the world you knew wasn't there the very next morning? This is precisely what happened to Tara Harris. Before the world plunged into chaos, Tara Hariss had it all. She was engaged to a successful hedge fund manager, and she was about to be promoted at her job. But one fateful day changed everything. Something unthinkable happened. Due to the terrorist EMP attack, the town she lived in lost all electricity. Chaos ensued. Terrorists looted the banks and stores, kidnapped people, tortured, and killed them. But Tara was lucky to survive. Her fiancé, Nathan, hid her away into a bunker and ran out to save his boss. After Tara emerged from the bunker a few weeks later, instead of a lovely city she lived in, she found a wasteland. Natan left her with instructions to

reach a safe haven by boat. Now she is on a cross-country trip trying to survive in a new unknown world, with terrorists, pirates, and lousy weather nipping at her heels. Here's what you can find in this thriller book: Compelling story: This is a perfect book for people who are looking to stimulate their minds and have a pleasant read Adrenaline, thrill, and suspense: Enjoy the thrilling and suspenseful plot that is guaranteed to keep you always on your toes. Unique story delivered skillfully: Uncover the incredible twists and prepare to have your mind blown. Can Tara get to the Electric Utopia Nathan told her about, or will they lose their life trying to make it to the safest place left in the country? "When society falls, how hard will you fight? They expected the solar flare, not the EMP. Now the lights are off and chaos is brewing. It's only a matter of time before violence erupts. Jim owns a small electronics repair store in Rochester, NY. He quickly realizes the reality of the situation. He grabs his emergency kit, planning to get across town to his wife. But finding her among the chaos proves almost impossible. And if he does get to her, where will they find shelter? Rob's been Jim's friend since grade school. He's the kind of guy who's always between jobs but has a big heart. When the lights go out, he doesn't know whether to believe Jim or not. After all, he's got a job interview that he needs to get to. What will it take to convince him this is serious? Jessica's an independent young woman. In the short term, she knows she can take care of herself. But as the chaos grows, will she be able to learn to work with others in order to survive?"--Page [4] of cover.
