This reprint of this super popular title has been published in various formats. This medium-size format has been the bestselling version and has now been out of print for several years. There is a dedicated fan base of fervent Charley Harper fans and a new audience waiting to discover his work for themselves and to gift it to others. A brand new look at the extraordinary accomplishments of early modern Italian women artists This generously illustrated volume surveys a sweeping range of early modern Italian women artists, exploring their practice and paths to success within the male-dominated art world of the period. New attention to archival documents and detailed technical analyses of the beautiful paintings featured here--ranging from historical subjects to portraits and still lifes--offer new insight into the ways these women worked and their accomplishments. Essays and catalogue entries by an international team of distinguished art historians examine the works of Artemisia Gentileschi, Sofonisba Anguissola, Lavinia Fontana, Fede Galizia, Elisabetta Sirani, Giovanna Garzoni, Rosalba Carriera, and other less known Italian women artists. Through these works of art in diverse media--from paintings to prints--the fascinating stories of early modern Italian women artists are revealed. Diego Rivera's (1886-1957) Detroit Industry fresco cycle in the Detroit Institute of Arts is the finest Mexican-style mural in the United States. Completed in nine months, between July 1932 and March 1933, the murals are a tribute to Detroit industry and labour, and Rivera considered the cycle to be the most successful work of his career. Throughout the mural Rivera celebrates the harmonies between man, nature and machine. The cycle begins on the east wall, which depicts the origins of human life and technology. The panels on the west wall represent technologies of air and water and introduce the automobile industry. The north wall is devoted to representations of two races of humanity, the automobile industry and scenes from other major Detroit industries: medicine, pharmaceuticals and commercial chemicals. Panels on the south wall primarily depict the production of an automobile body. This unique volume will detail the murals with horizontal and vertical fold-outs ideal for the paintings size and scope. A lively text will include information on the artist and his technique, the patron (Edsel Ford) and a detailed analysis of the various panels that make up the fresco cycle. 50 colour illustrations Carefully curated and beautifully packaged erotic art through the ages – 200 works from the world's most important artists. This carefully curated and beautifully packaged book spotlights nearly 200 works from the world's most important artists, including Titian, Paul Cézanne, Picasso, Andy Warhol, Michelangelo, Rembrandt, Edgar Degas, Edvard Munch, Georgia O'Keeffe, Jackson Pollock, Lucian Freud, Louise Bourgeois, Francis Bacon, David Hockney, Gerhard Richter, Cecily Brown, Anselm Kiefer, George Condo, and Anish Kapoor. With its chronological organization, The Art of the Erotic provides insights into human sexuality throughout the ages. Starting with one bunting and ending with ten baby quail, Charley Harper's Count the Birds is the perfect board-book primer for learning numbers, guided by Zoe Burke's rhyming text. "Early artworks by Charley Harper and Edie McKee Harper. Includes 200 full-color reproductions and historical photographs"-- A 21st century retelling of a 2500-year old story One of Hindu mythology's best-loved and most enduring tales gets a modern touch: Artist and veteran Pixar animator Sanjay Patel lends a lush, whimsical illustration style and lighthearted voice to one of Hindu mythology's best-loved and most enduring tales. Teeming with powerful deities, love-struck monsters, flying monkey gods, magic weapons, demon armies, and divine love, Ramayana: Divine Loophole tells the story of Rama, a god-turned-prince, and his quest to rescue his wife Sita after she is kidnapped by a demon king. • Illustrated tale features over 100 colorful full-spread illustrations, a detailed pictorial glossary of the cast of characters who make up the epic tale, and sketches of the work in progress • An ancient mythology with timeless, essential and meaningful themes • Sanjay Patel is the author of The Little Book of Hindu Deities while an animator and storyboard artist for Pixar Animation Studios, he worked on numerous films, including Monsters, Inc. ; A Bug's Life; Toy Story 2; Ratatouille; The Incredibles; and Toy Story 3. His short film Sanjay's Super Team was nominated for an Academy Award for Best Animated Short Film Fans of Sanjay Patel's The Little Book of Hindu Deities: From the Goddess of Wealth to the Sacred Cow and Ganesha's Sweet Tooth will be entranced by the images and story in Ramayana: Divine Loophole. From princesses in peril to gripping battles, scheming royals, and hordes of bloodthirsty demons, Ramayana: Divine Loophole is the ultimate adventure story presented with an unforgettably modern touch. • Great book for the entire family to enjoy together • An engaging way to teach children about Hindu mythology Antoni Gaudí has a reputation as monastic, mad, and hermetic. But the architect of many of the buildings that define Barcelona's cityscape was no mad eccentric. He was a genius inspired by his faith in nature and the divine. Picking up the same strands of eclecticism and art nouveau current in fin de siècle European architecture, he transformed them into an idiom unique to himself and Barcelona to create a series of buildings as revolutionary in their engineering as they were astonishing for their spaces. For Gaudí his work was his life, and this book reveals the exuberant world and groundbreaking work of this unique figure in the history of modern architecture. Digital renderings have long served architects and interior designers to help visualize spaces before the building begins. But a new generation of digital artists are taking this craft a step further to create otherworldly scenes that can't, and won't, ever be built. This inspiring compilation of the most innovative projects in digital art covers the work of the artists and creatives at the forefront of this aesthetic. Discover Filip Hodas and his captivating pop culture dystopia artwork series, explore Massimo Colonna's surrealist urban landscapes and dive into the abstract compositions of Ezequiel Pini, founder of Six N. Five studio. Dreamscapes & Artificial Architecture presents the work of leading creatives from across the globe, exploring the infinite ways to conceptualize utopian oases and dystopian nightmares. With their roots in spatial design, their ideas present a new creative current defined by the fusion of digital techniques such as computer rendering and 3D art, and an aesthetic that moves between fantasy and reality. Freed from the constraints of the physical world, these dreamscapes expand the possibilities for architecture and interior design. As The Giving Tree turns fifty, this timeless classic is available for the first time ever in ebook format. This digital edition allows young readers and lifelong fans to continue the legacy and love of a classic that will now reach an even wider audience. "Once there was a tree...and she loved a little boy." So begins a story of unforgettable perception, beautifully written and illustrated by the gifted and versatile Shel Silverstein. This moving parable for all ages offers a touching interpretation of the gift of giving and a serene acceptance of another's capacity to love in return. Every day the boy would come to the tree to eat her apples, swing from her branches, or slide down her trunk...and the tree was happy. But as the boy grew older he began to want more from the tree, and the tree gave and gave and gave. This is a tender story, touched with sadness, aglow with consolation. Shel Silverstein's incomparable career as a bestselling children's book author and illustrator began with Lafcadio, the Lion Who Shot Back. He is also the creator of picture books including A Giraffe and a Half, Who Wants a Cheap Rhinoceros?, The Missing Piece, The Missing Piece Meets the Big O, and the perennial favorite The Giving Tree, and of classic poetry collections such as Where the Sidewalk Ends, A Light in the Attic, Falling Up, Every Thing On It, Don't Bump the Glump!, and Runny Rabbit. And don't miss the other Shel Silverstein ebooks, Where the Sidewalk Ends and A Light in the Attic! "New edition featuring over 100 animal-inspired artworks by American artist Charley Harper. Includes commentary by the artist/author"-- A book with 200 full-color photos and a series of anecdotes shows how bird enthusiasts showcase their love of birds in and around their homes. By the author of Living With Dogs. Combines van Gogh's paintings with his own words, describing each work of art and introducing young readers to the concept of color. As makers, we tend to learn different stitches over time without thinking much about how they relate to one another.

But when Natalie Chanin and her Alabama Chanin and The School of Making teams began to look at needlework closely, they realized all stitches are based on geometric grid systems—and by using grids as guides, they could make learning stitches, even seemingly elaborate ones, as easy as child’s play. In *The Geometry of Hand-Sewing* Chanin presents their breakthrough method, featuring illustrated instructions (for both right- and left-handed stitchers) for more than 100 stitches—from the most basic straight and chain to the more fanciful feather and herringbone; photos of both right and wrong sides; and guidelines for modifying stitches to increase one’s repertoire further. To simplify learning, the book also offers downloads for two stitching cards with the grids on which every stitch in the book is based. These printable cards can be used as stencils for transferring grids to fabric. Most of us can’t make it through morning without our cup (or cups) of joe, and we’re not alone. Coffee is a global beverage: it’s grown commercially on four continents and consumed enthusiastically on all seven—and there is even an Italian espresso machine on the International Space Station. Coffee’s journey has taken it from the forests of Ethiopia to the fincas of Latin America, from Ottoman coffee houses to “Third Wave” cafés, and from the simple coffee pot to the capsule machine. In *Coffee: A Global History*, Jonathan Morris explains both how the world acquired a taste for this humble bean, and why the beverage tastes so differently throughout the world. Sifting through the grounds of coffee history, Morris discusses the diverse cast of caffeinated characters who drank coffee, why and where they did so, as well as how it was prepared and what it tasted like. He identifies the regions and ways in which coffee has been grown, who worked the farms and who owned them, and how the beans were processed, traded, and transported. Morris also explores the businesses behind coffee—the brokers, roasters, and machine manufacturers—and dissects the geopolitics linking producers to consumers. Written in a style as invigorating as that first cup of Java, and featuring fantastic recipes, images, stories, and surprising facts, *Coffee* will fascinate foodies, food historians, baristas, and the many people who regard this ancient brew as a staple of modern life. A celebration of artworks featuring books and readers from throughout history, for the delight of art lovers and bibliophiles As every book tells a story, every book in art is part of an intriguing, engaging, and relatable image. Books are depicted as indicators of intellect in portraits, as symbols of piety in religious paintings, as subjects in still lifes, and as the raw material for contemporary installations. Reading *Art* spotlights artworks from museums and collections around the globe, creating a gorgeous, inspiring homage to both the written word and to its pivotal role in the visual world. "Wild Ideas" looks deep into the forests, skies and oceans to explore how animals solve problems. Whether it's weaving a safe place to rest and reflect, blowing a fine net of bubbles to trap fish, or leaping boldly into a new situation, the animals featured (including the orangutan, humpback whale and gibbon) can teach us a lot about creative problem solving tools and strategies. This book uses lyrical text grounded in current science alongside wonderfully detailed art to present problems as doorways to creative thinking. "Wild Ideas" encourages an inquiry-based approach to learning, inviting readers to indulge their sense of wonder and curiosity by observing the natural world, engaging with big ideas and asking questions Originally published in 1963, *The West Wing* is one of Edward Gorey's classic books. This wordless tale unfolds through thirty-one mysterious drawings that carry the viewer from room to room via long corridors. Peeling wallpaper hangs to the floor, a candle held by invisible hands casts light into the dark, and odd characters appear unbidden. The viewer wonders: What's haunting this building? And who left that boulder on the table?First released as part of *The Vinegar Works: Three Volumes of Moral Instruction* (whichincluded *The Gashlycrumb Tinies* and *The Insect God*) this book is undoubtedly a cautionarytale. Stop. Do not enter. Unless you dare to find out what's happening in *The West Wing*. "Charley Harper's brightly rendered animal illustrations in this board book will teach youngsters their colors in no time, with Zoe Burke's rhyming text offering read-aloud fun."--Amazon.com This book examines the complexities of the hipster through the lens of art history and cultural theory, from Charles Baudelaire’s flâneur to the contemporary “creative” borne from creative industries policies. It claims that the recent ubiquity of hipster culture has led many artists to confront their own significance, responding to the mass artification of contemporary life by de-emphasising the formal and textual deconstructions so central to the legacies of modern and postmodern art. In the era of creative digital technologies, long held characteristics of art such as individual expression, innovation, and alternative lifestyle are now features of a flooded and fast-paced global marketplace. Against the idea that artists, like hipsters, are the “foot soldiers of capitalism”, the institutionalized networks that make up the contemporary art world are working to portray a view of art that is less a discerning exercise in innovative form-making than a social platform—a forum for populist aesthetic pleasures or socio-political causes. It is in this sense that the concept of the hipster is caught up in age-old debates about the relation between ethics and aesthetics, examined here in terms of the dynamics of global contemporary art. Legendary designer and artist Vera Neumann (1907-1993) believed in art's ability to inspire and enrich lives. An innovator and one of the most successful female entrepreneurs of her time, Vera built her company on a radical philosophy: fine art should be accessible to everyone, not just a select few. Known for her iconic images of cheerful flowers, trendy geometrics, and vibrant ladybugs, she believed people should surround themselves with beauty. For the first time, *Vera: The Art and Life of an Icon*, tells her inspiring story through the art and designs she created. In this volume, richly illustrated with Vera's original sketches, paintings, and photographs of her worldwide travels, readers are introduced to the amazing woman behind the dynamic designs that continue to inspire and influence art, design, and fashion. A pawsitively purrfect tour through modern art history! Introduce modern art meowsters with this book of adorable cat portraits, each inspired by an iconic style of art. *The Artsy Cats Board Book from Mudpuppy* features clever kitty-inspired artist names and painting credits, from Clawed Monet to Paw Klee. - 28 sturdy pages - Book trim: 7 x 7" Harper's beloved birds are gracefully translated here into 32 black-and-white line drawings for young, budding artists to interpret in their own color palettes. As a reference, the back cover shows every one of the 32 images featured in their full color original versions. Presents alphabetically arranged entries about the circus, from "G" for giraffes, to "L" for lions, to "R" for ringmaster. As costumed guests gather for Horace the elephant's eleventh birthday party, the birthday feast curiously disappears and it is up to the reader to solve the mystery, in a puzzle that features a rhyming text and colorful picture clues. Reprint. Frida Kahlo, Mexican artist and champion of justice and women's rights, transformed the pain and suffering of her life into enduringly powerful paintings. "I have been an inveterate keeper of journals since I was 14 especially at times of adventure and crisis and travel. Here, for the first time, such a journal made its way to publication, not that much changed from the raw, handwritten journal that I kept during my fascinated 9 days in Oaxaca." Dr. Oliver Sacks Oliver Sacks is best known as an explorer of the human mind, a neurologist with a gift for the complex, insightful portrayals of people and their conditions that fuel the phenomenal success of his books. But he is also a card-carrying member of the American Fern Society, and since childhood has been fascinated by these primitive plants and their ability to survive and adapt. Now the bestselling author of *Awakenings* and *The Man Who Mistook His Wife for a Hat* brings his ceaseless curiosity and eye for the wondrous to the province of Oaxaca, Mexico. *Oaxaca Journal* is Sacks's spellbinding account of his trip with a group of fellow fern enthusiasts to the beautiful, history-steeped province of Oaxaca. Bringing together Sacks's passion for natural history and the richness of human culture with his penetrating curiosity and trammeling eye for detail, *Oaxaca Journal* is a captivating evocation of a places, its plants, its people and its myriad wonders.
