*Introducing a dramatic new chapter to American Indian literary history, this book brings to the public for the first time the complete writings of the first known American Indian literary writer, Jane Johnston Schoolcraft (her English name) or Bamewawagezhikaquay (her Ojibwe name), Woman of the Sound the Stars Make Rushing Through the Sky (1800–1842). Beginning as early as 1815, Schoolcraft wrote poems and traditional stories while also translating songs and other Ojibwe texts into English. Her stories were published in adapted, unattributed versions by her husband, Henry Rowe Schoolcraft, a founding figure in American anthropology and folklore, and they became a key source for Longfellow's sensationally popular *The Song of Hiawatha*. As this volume shows, what little has been known about Schoolcraft's*

writing and life only scratches the surface of her legacy. Most of the works have been edited from manuscripts and appear in print here for the first time. *The Sound the Stars Make Rushing Through the Sky* presents a collection of all Schoolcraft's extant writings along with a cultural and biographical history. Robert Dale Parker's deeply researched account places her writings in relation to American Indian and American literary history and the history of anthropology, offering the story of Schoolcraft, her world, and her fascinating family as reinterpreted through her newly uncovered writing. This book makes available a startling new episode in the history of American culture and literature. Is God dying? Some people think so--and more want it so. They say Christian beliefs and our way of life aren't relevant anymore. But what critics, and even many churchgoers, don't realize is the life-changing importance of Christianity. Showing how the world would be a dark place without Christianity, *Unimaginable* guides you through the halls of history to see how

Jesus' teachings dramatically changed our world and continue to be the most powerful force for good today. Learn · How Christianity has stood against slavery, racism, eugenics, and injustices toward women and children · Why freedom as a universal value and modern education and legal systems owe much to Christianity · How Christians throughout the ages have demonstrated the value of human life by sacrificially caring for the sick, marginalized, and dying · How people of faith are extending God's kingdom through charities, mental health initiatives, and other ways. This provocative and enlightening book is sure to encourage believers and equip them to respond to doubters. This is the fascinating story of the farmers and hill people from northern Arkansas, where slavery was not a big part of the local economy, who opposed the state's secession from the Union. In resistance to secession and to fighting for the Confederacy, they formed secret organizations--known commonly as the Arkansas Peace Society--and inaugurated their own

leaders. Increased pressure from Richmond in the fall of 1861 for the Arkansas government to provide more soldiers pressed Arkansas's yeomen farmers to enlist but only provided more incentive for the men to join the Arkansas Peace Society (later known as the Union League). Many Arkansas communities forged home protective units or vigilance committees to protect themselves from slave uprisings and what they saw as federal invasion. Unionist mountaineers did the same, but their home protection organizations were secret because they were seeking protection from their secessionist neighbors and the state's Confederate government. In November 1861, the Arkansas Peace Society was first discovered in Clinton, Van Buren County, by the secessionist element, which rapidly formed vigilante committees to arrest and interrogate the suspects. The news and subsequent arrests spread to adjoining counties from the Arkansas River to the Missouri border. In most cases, the local militia was called out to handle the arrests and put down the rumored uprising.

While some Peace Society members fled to Missouri or hid in the woods, others were arrested and marched to Little Rock, where they were forced to join the Confederate army. Leaders who were prominent in the Peace Society recruited and led companies in Arkansas and Missouri Unionist regiments, returning to their homes to bring out loyalist refugees or to suppress Confederate guerrillas. A few of these home-grown leaders assumed leadership positions in civil government in the last months of the war, with the effects of their actions lingering for years to come. We live in a radically skeptical age. Tough questions are being asked about Christianity. And most believers are ill-equipped to provide the answers our culture and communities desperately need. Many in today's church do not know the Bible as well as they should and they struggle with their own "big questions" about the faith. After receiving more than four thousand questions at his Christian Thinkers Society events over the span of six years, Dr. Jeremiah Johnston began to recognize six categories of recurring,

trending questions that dominated the rest. In *Unanswered*, he tackles these tough issues that plague the minds of believers but are rarely addressed in church, such as... Why is it that God often seems to remain silent? How can we trust in the bodily resurrection of Jesus, and what does it mean for us today? What do Christians need to understand about suicide and mental illness? How should Christians respond to spiritual darkness and the obsession with paranormal activity? Why is biblical illiteracy so dangerous for Christians and the church? Why do we experience suffering and pain? *Unanswered* will leave you enriched, characterized by a thinking faith, capable to communicate confidently, and committed to escape the tendency to offer trite answers to a skeptical world.

Kennesaw Mountain: Sherman, Johnston, and the Atlanta Campaign This important cultural analysis tells two stories about food. The first depicts good food as democratic. Foodies frequent 'hole in the wall' ethnic eateries, appreciate the pie found in working-class truck stops, and reject the

snobbery of fancy French restaurants with formal table service. The second story describes how food operates as a source of status and distinction for economic and cultural elites, indirectly maintaining and reproducing social inequality. While the first storyline insists that anybody can be a foodie, the second asks foodies to look in the mirror and think about their relative social and economic privilege. By simultaneously considering both of these stories, and studying how they operate in tension, a delicious sociology of food becomes available, perfect for teaching a broad range of cultural sociology courses. He vowed to wed, bed, and abandon her. But love got in the way... Joan Johnston sweeps you back to Regency era England and Scotland with a love story that will take your breath away. Here is romance at its best as Johnston brings back unforgettable characters from her bestsellers *Captive*, *After the Kiss*, and *The Bodyguard* in a spellbinding novel of seduction and betrayal. She was the reigning belle of the ton for the fourth Season in a row,

but Lady Regina Wharton, the Duke of Blackthorne's daughter, was determined to avoid the perils of marriage. She had already seen enough to distrust all men. Then Clay Bannister, the dashing Earl of Carlisle, dared to steal a kiss and stir new and exciting desires. Scarred by tragedy, Carlisle intrigued her with his mysterious past and his dark, dangerous charm. She never suspected she was about to marry her father's most vengeful enemy—or that her greatest defense would be the passions he could not resist....

Scribes and Their Remains begins with an introductory essay by Stanley Porter which addresses the principal theme of the book: the text as artifact. The rest of the volume is then split into two major sections. In the first, five studies appear on the theme of 'Scribes, Letters, and Literacy.' In the first of these Craig A. Evans offers a lengthy piece that argues that the archaeological, artifactual, and historical evidence suggests that New Testament autographs and first copies may well have remained in circulation for one century or more,

having the effect of stabilizing the text. Other pieces in the section address literacy, orality and paleography of early Christian papyri. In the second section there are five pieces on 'Writing, Reading, and Abbreviating Christian Scripture.' These range across numerous topics, including an examination of the stauros (cross) as a nomen sacrum. One of the first to answer the South's call to arms was James Johnston Pettigrew. He served in the Southern army from the opening guns at Fort Sumter until his tragic death during the Confederate retreat from Gettysburg. Using newspapers, letters, diaries, and other accounts of the time, Dan Bauer tells General Pettigrew's remarkable story in journal form. Pettigrew's fictionalized journal offers a first-hand, day-by-day account of the Civil War. Here are the experiences of planters, common soldiers, slaves, women and officers of the Confederate South. What kind of men did it take to lead Southern troops into the bloody battles of the Civil War? Were they daredevils risking all for glory, or patriots

striving to build a new nation? The story is contained within these pages...

"Here's a powerful, biblical antidote to despair!"--LEE STROBEL, New York Times bestselling author *God's peace, his shalom*, can penetrate every aspect of your life--spiritually, mentally, physically, and emotionally. As Greg Laurie writes in the foreword, since we are made in God's image, you could say we have been prewired for happiness. We are prewired for hope. We are prewired for peace. If you are longing for healing and wholeness, noted Bible scholar Jeremiah J. Johnston

will help you discover how to . Unleash shalom in your life . Live and apply shalom in God's world . Protect your shalom in difficult times This uplifting book is also helpful for ministry leaders and everyone else who recognizes the church's incredible opportunity today to help individuals and families dealing with anxiety, worry, and mental pain. Let this be your guide into the peace that passes all understanding. Shalom! "This is more than surviving; we are offered the gift of truly flourishing."--SHEILA WALSH, author of *Holding On When You Want to Let Go* "In this reassuring meditation on Christian happiness... Johnston's mix of scholarly and uplifting notes will speak to solace seekers and their ministry leaders alike."--PUBLISHERS WEEKLY This is a reproduction of a book published before 1923. All four canonical gospels identify the resurrection of Jesus, yet none detail the exact moment of its happening. The absence of this narrative detail was hotly contested in the second century, when critics derided a resurrection account without credible witness. Thus, the discovery of the Akhmim fragment at the end of the 19th century, which purports to provide exactly that detail, is a huge and surprisingly under-utilised addition to Biblical scholarship of the Apocryphal gospels. Johnston examines both the impact of this discovery on the scholarship at the time, and argues for the dating of the fragment to the second century AD. He identifies shared characteristics with other documents from this period, including a rise in anti-semitic feeling, and developments in concepts of the afterlife, and makes a

claim for this fragment being the text that aided the development of these movements. The Second Century was the key time in which the non-canonical Biblical texts were established. It was also the era in which theologies which would become 'orthodox' in the third century were penned and defined. The significance, then, of dating the Akhmim fragment to the second century AD is huge. This work will be of great use to scholars of Second Temple Judaism, and those with an interest in the creation of the ideas that surround scholarship of the Bible. Communication and relationships sit at the centre of our hyper-connected lives, and their effective management is a strategic necessity for all organisations today. As the communication and public relations industries continue to grow globally, they offer a dynamic career for those with the right skills and knowledge. Jane Johnston and Leanne Glenny show how strategic communication and public relations plug into the social, economic and political world, creating crucial links between organisations and people. They explain how

communication professionals build partnerships, motivate and engage stakeholders, manage content, media and planning, develop reputations, and troubleshoot crisis communication. Strategic Communication is a complete introduction to the fundamentals of communication and public relations for the next decade. It presents innovative and creative approaches to deliver 100 tools and tactics, over 30 theories and models, and three levels of strategy that underpin successful communication. The authors include examples from around the world, from private sector, public sector and not for profit organisations. Animal death is a complex, uncomfortable, depressing, motivating and sensitive topic. This work critically engages the hermeneutical methods used to analyse the New Testament writings, so that the lenses through which studies of the texts have been traditionally viewed can be revised. Jeremy Hultin contributes an article on the rhetorical use of the chosen citations by Jewish rabbis in their commentary on scripture, while Mark Gignilliat writes on

the potential implications for viewing Old Testament Scripture in the manner of the early Church exegetes and theologians. With these two contributions providing a frame for the other chapters, the essays explore a range of topics including the significance of the number 42 in Matthew; the study of Wisdom in Matthew, the extent to which the four gospels are underlined by Hebrew material, if any; the use of Hebrew material in shaping New Testament writings; and the uses of Scripture in the letters of Paul and the letters to the Hebrews. Read separately, these articles provide fascinating insights and revisions to established ideas on intertextuality between the Old/Hebrew Bible and the New Testament writings. Taken together, the collection presents a solid argument for the fundamental revision of our current hermeneutical practice in Biblical Studies.

Detectives Byrne and Balzano return to the streets of Philadelphia to put an end to a macabre succession of murdered children. A quiet Philadelphia suburb. A woman cycles past a train depot with her young daughter. There she finds a

murdered girl posed on a newly painted bench. Beside her is a formal invitation to a tea dance in a week's time. Seven days later, two more young victims are discovered in an abandoned house, posed on painted swings. At the scene is an identical invitation. This time, though, there is something extra waiting for Detectives Kevin Byrne and Jessica Balzano: a delicate porcelain doll. It's a message. And a threat. With the killers at large, Detectives Byrne and Balzano have just seven more days to find the link between the murders before another innocent child is snatched from the streets.
