A pioneering scholarly collection of essays outlining D.H. Lawrence's reception and influence in Europe This book examines representations of the Second World War in postwar Chinese and Japanese cinema. Drawing on a wide range of scholarly disciplines, and analysing a wide range of films, it demonstrates the potential of war movies for understanding contemporary China and Japan. It shows how the war is remembered in both countries, including the demonisation of Japanese soldiers in postwar socialist-era Chinese movies, and the pervasive sense of victimhood in Japanese memories of the war. However, it also shows how

some Chinese directors were experimenting with alternatives interpretations of the war from as early as the 1950s, and how, despite the "resurgence of nationalism" in Japan since the 1980s, the production of Japanese movies critical of the war has continued. When the United Nations undertook the publication of the Reports of International Arbitral Awards, the 'Pasicrisie internationale' was identified as one of the rare truly general collections of international case law in existence. In fact, in deciding to publish the arbitration clauses and arbitral awards from 1794 to 1900, Henri La Fontaine was doing pioneering work, foreshadowing the famous Reports by half a century. As we near the end of the century, the 'Pasicrisie internationale' remains just as pertinent as it was when first published in 1902. This collection of arbitral awards, with its modest appearance, has certainly contributed more to the development of international arbitration case law than any number of lyrical speeches advocating peace through law. First edition printed in 1902 by Stämpfli, Bern.

Lorsque l'Organisation des Nations Unies entreprit la publication de son Recueil des sentences arbitrales, elle identifia la Pasicrisie internationale comme constituant l'une des rares véritables collections générales de jurisprudence internationale préexistantes. De fait, en décidant de rassembler les clauses compromissoires et les sentences arbitrales de 1794 à 1900, Henri La Fontaine avait fait oeuvre de pionnier et il préfigurait, avec un demi-siècle d'avance, le célèbre Recueil. En cette fin de siècle, la Pasicrisie internationale constitue donc un outil de travail toujours aussi actuel que lors de sa publication en 1902. Cette compilation de sentences arbitrales, d'apparence modeste, a certainement plus contribué au développement de la jurisprudence arbitrale internationale que bien des discours lyriques prônant la paix

par le droit. Première édition imprimée en 1902 par Stämpfli, Berne. La quarta edizione del libro "Fringe benefits e rimborsi spese", rinnovata ed aggiornata con le previsioni della Legge Finanziaria per il 2010, L. 23 dicembre 2009, n. 191, in materia di tassazione agevolata dei premi di produttività, tiene conto di molte e importanti modifiche normative che sono diventate operative nel corso degli ultimi anni, per esempio l'eliminazione dei regimi agevolativi precedentemente previsti per le stock option o i limiti di deducibilità delle spese relative a prestazioni alberghiere e alle somministrazioni di alimenti e bevande. Il volume, pur conservando l'originaria agilità di consultazione, fornisce una trattazione completa ed esaustiva del quadro di riferimento per la qualificazione e quantificazione dei redditi di lavoro dipendente ed assimilati, ne analizza le varie fattispecie che si possono incontrare nella pratica professionale, con particolare attenzione alla disciplina delle trasferte, e le relative modalità di rimborso degli oneri sostenuti dai dipendenti, e a quella dei fringe benefits. L'ultimo capitolo è stato riservato all'esame della disciplina della deducibilità, sia ai fini delle imposte dirette (Irpef/Ires) sia ai fini IRAP, degli oneri connessi ai dipendenti e collaboratori, per aiutare nella determinazione degli importi deducibili specie quelli la cui deduzione è soggetta a limitazioni. Utile per chi deve affrontare la compilazione della dichiarazione dei redditi.

The United Nations, whose specialized agencies were the subject of an Appendix to the 1958 edition of Oppenheim's *International Law: Peace*, has expanded beyond all recognition since its founding in 1945. This volume represents a study that is entirely new, but prepared in the way that has become so familiar over succeeding editions of Oppenheim. An authoritative and comprehensive study of the United Nations' legal practice,

this volume covers the formal structures of the UN as it has expanded over the years, and all that this complex organization does. All substantive issues are addressed in separate sections, including among others, the responsibilities of the UN, financing, immunities, human rights, preventing armed conflicts and peacekeeping, and judicial matters. In examining the evolving structures and ever expanding work of the United Nations, this volume follows the long-held tradition of Oppenheim by presenting facts uncoloured by personal opinion, in a succinct text that also offers in the footnotes a wealth of information and ideas to be explored. It is book that, while making all necessary reference to the Charter, the Statute of the International Court of Justice, and other legal instruments, tells of the realities of the legal issues as they arise in the day to day practice of the United Nations. Missions to the UN, Ministries of Foreign Affairs, practitioners of international law, academics, and students will all find this book to be vital in their understanding of the workings of the legal practice of the UN. Research for this publication was made possible by The Balzan Prize, which was awarded to Rosalyn Higgins in 2007 by the International Balzan Foundation. Il volume esamina i rapporti di lavoro non contrattuali (schiavitù e servaggio) che a lungo contraddistinsero l'economia europea, sia pure con andamenti assai diversi nelle differenti aree. I saggi in esso contenuti esaminano la evoluzione del servaggio (visto come il lato economico del regime signorile) e delle diverse forme di sottomissione personale, fino alla vera e propria tratta degli schiavi, di cui i mercanti europei furono protagonisti, mettendo in luce una situazione assai più complessa e articolata di quanto gli schemi interpretativi tradizionali lasciassero intuire. When Emperor Hirohito announced defeat

in a radio broadcast on 15th August 1945, Japan was not merely a nation; it was a colossal empire stretching from the tip of Alaska to the fringes of Australia grown out of a colonial ideology that continued to pervade East Asian society for years after the end of the Second World War. In *Overcoming Empire in Post-Imperial East Asia: Repatriation, Redress and Rebuilding*, Barak Kushner and Sherzod Muminov bring together an international team of leading scholars to explore the post-imperial history of the region. From international aid to postwar cinema to chemical warfare, these essays all focus on the aftermath of Japan's aggressive warfare and the new international strategies which Japan, China, Taiwan, North and South Korea utilised following the end of the war and the collapse of Japan's empire. The result is a nuanced analysis of the transformation of postwar national identities, colonial politics, and the reordering of society in East Asia. With its innovative comparative and transnational perspective, this book is essential reading for scholars of modern East Asian history, the cold war, and the history of decolonisation.
