New York Times" editor Shortz collects 50 of the best crosswords from the papers popular Sunday edition. Détente or Destruction, 1955-57 continues publication of Routledge's multi-volume critical edition of Bertrand Russell's shorter writings. Between September 1955 and November 1957 Russell published some sixty-one articles, reviews, statements, contributions to books and letters to editors, over fifty of which are contained in this volume. The texts, several of them hitherto unpublished, reveal the deepening of Russell's commitment to the anti-nuclear struggle, upon which he embarked in the previous volume of Collected Papers (Man's Peril, 1954-55). Continuing with the theme of nuclear peril, this volume contains discussion of nuclear weapons, world peace, prospects for disarmament and British-Soviet friendship against the backdrop of the Cold War. One of the key papers in this volume is Russell's message to the inaugural conference of the Pugwash movement, which Russell was instrumental in launching and which became an influential, independent forum of East-West scientific cooperation and counsel on issues as an internationally agreed nuclear test-ban. In addition to

the issues of war and peace, Russell, now in his eighties, continued to take an interest in a wide variety of themes. Russell not only addresses older controversies over nationalism and empire, religious belief and American civil liberties, he also confronts head-on the new and pressing matters of armed intervention in Hungary and Suez, and of the manufacture and testing of the British hydrogen bomb. This volume includes seven interviews ranging from East-West Relations after the Geneva conference to a Meeting with Russell. Having finally mastered Devil Union, Asta must head to the Spade Kingdom to help his friends. But he's gonna need some help getting there. This is the first complete version in English of the "Book of the People" of the Quiche Maya, the most powerful nation of the Guatemalan highlands in pre-Conquest times and a branch of the ancient Maya, whose remarkable civilization in pre-Columbian America is in many ways comparable to the ancient civilizations of the Mediterranean. Generally regarded as America's oldest book, the Popol Vuh, in fact, corresponds to our Christian Bible, and it is, moreover, the most important of the five pieces of the great library treasures of the Maya that survived the Spanish Conquest. The Popol Vuh was first transcribed in the Quiche language, but in Latin characters, in the middle of the sixteenth century, by some unknown but highly literate Quiche Maya Indian—probably from the oral traditions of his people. This now lost manuscript was copied at the end of the seventeenth century by Father Francisco Ximénez, then parish priest of the village of Santo Tomás Chichicastenango in the highlands of Guatemala, today the most celebrated and best-known Indian town in all of Central America. The mythology, traditions, cosmogony, and history of the Quiché Maya, including the chronology of their kings down to 1550, are related in simple yet literary style by the Indian chronicler. And Adrian Recinos has made a valuable contribution to the understanding and enjoyment of the document through his thorough going introduction and his identification of places and people in the footnotes. Historiography formed an unusually important component of the popular culture and heritage of east European Jewry in the late nineteenth and early twentieth centuries. This was a period of social, economic, and political upheaval, and for the emerging class of educated Jews the writing and reading of Jewish history provided not only intellectual but also emotional and moral sustenance. Facing an insecure future became easier with an understanding of the past, and of the Jewish place in that past. This volume is devoted to the development of Jewish historiography in the three east European centres—Congress Poland, the Russian empire, and Galicia—that together contained the majority of world Jewry at that time. Drawing widely on the multilingual body of scholarly and popular literature that emerged in that turbulent environment, the contributors to this volume attempt to go beyond the established paradigms in the study of Jewish historiography, and specifically to examine the relationship between the writing of Jewish history and of non-Jewish history in eastern Europe. In doing so they expose the tension between the study of the Jewish past in a communal setting and in a wider, regional, setting that located Jews firmly in the non-Jewish political, economic, and cultural environment. They also explore the relationship between 'history'—seen as the popular understanding of the past—and 'scholarly history'—interpretation of the past through the academic study of the sources, which lays claim to objectivity and authority. The development of Jewish historical scholarship grew out of the new intellectual climate of the Haskalah, which encouraged novel modes of thinking about self and others and promoted critical enquiry and new approaches to traditional sources. At the same time, however, in response to what the traditionalists perceived as secular research, an Orthodox historiography also emerged, driven not only by scholarly curiosity but also by the need to provide a powerful counterweight in the struggle against modernity. In fact, east European Jewish historiography has undergone many methodological, thematic, and ideological transformations over the last two centuries. Even today, east European Jewish historiography revisits many of the questions of importance to scholars and audiences since its emergence: how Jews lived, both within the narrow Jewish world and in contact with the wider society; the limits of Jewish insularity and integration; expressions of persecution and anti-Jewish violence; and also Jewish contributions to the societies and states of eastern Europe. Many challenges still remain: questions of the purpose of the research, its ideological colouring, and its relevance for contemporary Jewish communities. The fruit of research in many disciplines and from different methodological points of view, this volume has much to offer scholars of modern Jewry trying to understand how east European Jews saw themselves as they struggled with the concepts of modernity and national identity and how their history continues to be studied and discussed by an international community of scholars. Ichigo and his friends knew invading Hueco Mundo wouldn't be easy, but even the lesser Arrancars are pushing them to their limits! Can Ichigo, Uryû and Chad find the inner strength to overcome the first line of attack, or will Orihime be stuck in Hueco Mundo forever?! -- VIZ Media The common question from the western point of view is of the sort; why did China lose its early leadership of productive technologies to Europe during the early modern period? Answers to this seemingly clear enquiry vary from general cultural inwardness to the interferences of imperial governance. This collection surveys such theories but alters the issue by raising the notion that Chinese technologies did not so much fail as move along a path different from that of Europe. Our second collection on the Mindful Hand, also shifts common ground by querying and modifying common views of the links between knowledge and technique in early-modern European development. Scientific or related knowledge was not brought to technique as a socio-cultural gift from an educated elite to the working man. Rather, educated gents, practitioners, instrument makers, craftsfolk and technicians of all kinds intermingled both socially and in terms of the recognition of technical problems as well as in the assemblage of the mental, commercial and cognitive resources required to pursue innovative production projects.
