**International Handbook of Peace and Reconciliation** Oct 09 2021 How do ordinary people from different regions around the world define peace and reconciliation? What factors do they think are necessary for promoting reconciliation between countries? Do they believe that individuals have a right to protest against war and in favor of peace? Do they believe that apologies can improve the chances of reconciliation? What do they think are the best ways for achieving peace? Does reasoning regarding the achievability of world peace vary by region? *International Handbook of Peace and Reconciliation*, a companion volume to the *International Handbook on War, Torture, and Terrorism*, examines and analyzes how people around the world think about justice, governmental apologies, the right to protest, the peace process, the justifiability of armed conflict, the possibility of world peace, and reconciliation. To address these questions, researchers from the Group on International Perspectives on Governmental Aggression and Peace (GIPGAP) administered the Personal and Institutional Rights to Aggression and Peace Survey (PAIRTAPS) to volunteers from over 40 countries representing the major regions of the world. The volume is organized such that the responses to the survey are summarized and analyzed by both by country and by theme. Integrative chapters provide an up-to-date overview of historical and current events relevant to peace and reconciliation and a grounded theory analysis of definitions of peace and reconciliation and of the role of apology in reconciliation. In addition to describing the major themes emerging from the responses in each region, the volume reports on some exploratory analyses addressing the extent to which we found differences in patterns of responding based on characteristics such as gender, military experience, and involvement in anti-war protest activity. *International Handbook on Peace and Reconciliation* allows ordinary citizens from around the world to voice their views on peace and related issues, and examines the context of these views. Thus, it offers researchers in political science, peace psychology, social psychology, social justice, and anthropology a comprehensive resource for a changing global landscape.

*Closing the Gap* Feb 19 2020 Education is a critical human right, yet Indigenous groups globally face a crisis in higher education (HE) systems. Colonial processes have intentionally and systematically used HE for assimilation which has disrupted cultural connection and economic benefits to Indigenous communities. Drawing on Postcolonial Theory (Loomba, 2002) and the Theory of Justice (Fraser, 2003), this policy review explores factors that have contributed to the pattern of HE exclusion and comparatively poorer outcomes for Indigenous groups in Canada and Mexico. These frameworks will be used to evaluate a range of policies that aim to remedy these gaps. The results indicate that there was a considerable attempt to adopt the principles of Reconciliation and Indigenismo when responding to the needs of Indigenous students. However, the policies do little to redress the racist constructs that are inherent to colonial education, impacting chances for transformative change for Indigenous students.

**Called to Reconciliation** Jan 20 2020 Nationally recognized speaker and church leader Jay Augustine demonstrates that the church is called and equipped to model reconciliation, justice, diversity, and inclusion. This book develops three uses of the term "reconciliation": salvific, social, and civil. Augustine examines the intersection of the salvific and social forms of reconciliation through an engagement with Paul's letters and uses the Black church as an exemplar to connect the concept of salvation to social and political movements that seek justice for those marginalized by racism, class structures, and unjust legal systems. He then traces the reaction to racial progress in the form of white backlash as he explores the fate of civil reconciliation from the civil rights era to the Black Lives Matter movement. This book argues that the church's work in reconciliation can serve as a model for society at large and that secular diversity and inclusion practices can benefit the church. It offers a prophetic call to pastors, church leaders, and students to recover reconciliation as the heart of the church's message to a divided world. Foreword by William H. Willimon and afterword by Michael B. Curry.

*Advocates* Nov 17 2019 A slave runs away from his master. A mutual friend steps in to mediate between the two of them. Can there be healing in such a scarred relationship? In the face of such a daunting breach, is reconciliation (not to what was, but to what God designed) even possible? This is the situation faced in the book of Philemon. From this short New Testament letter, pastor and author Dharti Lewis (*Among Wolves*) unpacks key principles that Paul applied to being an advocate in the midst of division. The divisions of our day don't look the same as Paul's, but the principles are timeless. In 2 Corinthians 5, God commissioned us to be his ambassadors and gave us the ministry of reconciliation. Whether we're engaging in issues of politics, ethnicity, or religious beliefs, our heart posture should be one of an advocate set on reconciliation. The problem is, too many of us approach difficult conversations with the heart of an aggravator. Aggravators sometimes look like they are pursuing good things, but their heart is not toward reconciliation. Any motive less than reconciliation falls short of the desires of God's heart. We need godly advocates in every sphere of life. This book will specifically apply these principles to issues of ethnic division. Are you willing to call any division caused by discrimination, prejudice, or racism a sin? Do you want to grow in your ability to

navigate tense and emotional conversations about ethnic divisions? Are you ready to become an advocate?

**A Struggle for Holy Ground** Aug 19 2022 The consolidation and closure of parishes across the United States has become a fact of contemporary Catholic life. Responding to such an event is often traumatic. How do lay leaders allow their parish to heal when an approved ritual format does not exist? Through the voice of experience and local diocesan offices, Michal Weldon, OFM, has created a guide to the reconciliation process and the rites of parish closures in *A Struggle for Holy Ground*. Composed of thirty-five interviews conducted from participants in the 1990 consolidation of ten parishes in Chicago's Englewood and participants in the 1995 San Francisco consolidation after the 1989 earthquake, *A Struggle for Holy Ground* offers a study for any parish leader to use as a reference when facing such a conflicted issue. This work explores the roles of ritual and pastoral care and proposes a series of new rites: group reconciliation, atonement, lament, leave-taking, memorial, and inauguration, based on the personal experience of those involved in parish restructurings. Chapters include: The Best We Could Do with Church? Demographics, Finances, and Culture, Traditions of Reconciliation: Conflict, Communion, and Sacred Remembering, The Negotiation of Crisis: Forgiveness, Trauma, and Sacred Space, Remembering in a Different Kind of Way: Grief, Lament, and Healing, Towards New Rituals of Reconciliation at the Closure of Sacred Space. Michal Weldon, O.F.M., D.Min., of Francis and Clare's Friary, Franklin, Wisconsin, is also an instructor at Sacred Heart School of Theology, Hales Corners, Wisconsin.

*Reconciliation in Divided Societies* Jun 05 2021 "As nations struggling to heal wounds of civil war and atrocity turn toward the model of reconciliation, Reconciliation in Divided Societies takes a systematic look at the political dimensions of this international phenomenon. . . . The book shows us how this transformation happens so that we can all gain a better understanding of how, and why, reconciliation really works. It is an almost indispensable tool for those who want to engage in reconciliation"—from the foreword by Archbishop Emeritus Desmond Tutu As societies emerge from oppression, war, or genocide, their most important task is to create a civil society strong and stable enough to support democratic governance. More and more conflict-torn countries throughout the world are promoting reconciliation as central to their new social order as they move toward peace and stability. Scores of truth and reconciliation commissions are helping bring people together and heal the wounds of deeply divided societies. Since the South African transition, countries as diverse as Timor Leste, Sierra Leone, Fiji, Morocco, and Peru have placed reconciliation at the center of their reconstruction and development programs. Other efforts to promote reconciliation—including trials and governmental programs—are also becoming more prominent in transitional times. But until now there has been no real effort to understand exactly what reconciliation could mean in these different situations. What does true reconciliation entail? How can it be achieved? How can its achievement be assessed? This book digs beneath the surface to answer these questions and explain what the concepts of truth, justice, forgiveness, and reconciliation really involve in societies that are recovering from internecine strife. Looking to the future as much as to the past, Erin Daly and Jeremy Sarkin maintain that reconciliation requires fundamental political and economic reform along with personal healing if it is to be effective in establishing lasting peace and stability. Reconciliation, they argue, is best thought of as a means for transformation. It is the engine that enables victims to become survivors and divided societies to transform themselves into communities where people work together to raise children and live productive, hopeful lives. Reconciliation in Divided Societies shows us how this transformation happens so that we can all gain a better understanding of how and why reconciliation is actually accomplished.

**Exclusion & Embrace** May 04 2021 Life at the end of the twentieth century presents us with a disturbing reality. Otherness, the simple fact of being different in some way, has come to be defined as in and of itself evil. Miroslav Volf contends that if the healing word of the gospel is to be heard today, Christian theology must find ways of speaking that address the hatred of the other. Reaching back to the New Testament metaphor of salvation as reconciliation, Volf proposes the idea of embrace as a theological response to the problem of exclusion. Increasingly we see that exclusion has become the primary sin, skewing our perceptions of reality and causing us to react out of fear and anger to all those who are not within our (ever-narrowing) circle. In light of this, Christians must learn that salvation comes, not only as we are reconciled to God, and not only as we "learn to live with one another", but as we take the dangerous and costly step of opening ourselves to the other, of enfolding him or her in the same embrace with which we have been enfolded by God.

*Reconciliation After Violent Conflict* Oct 17 2019 How does a newly democratized nation constructively address the past to move from a divided history to a shared future? How do people rebuild coexistence after violence? The International IDEA Handbook on Reconciliation after Violent Conflict presents a range of tools that can be, and have been, employed in the design and implementation of reconciliation processes. Most of them draw on the experience of people grappling with the problems of past violence and injustice. There is no "right answer" to the challenge of reconciliation, and so the Handbook prescribes no single approach. Instead, it presents the options and methods, with their strengths and weaknesses evaluated, so that practitioners and policy-makers can adopt or adapt them, as best suits each specific context. Also available in a French language version.

*A Moral Theory of Political Reconciliation* Jan 12 2022 Following extended periods of conflict or repression, political reconciliation is indispensable to the establishment or restoration of democratic relationships and critical to the pursuit of peacemaking globally. In this book, Colleen Murphy offers an innovative analysis of the moral problems plaguing political relationships under the strain of civil conflict and repression. Focusing on the unique moral damage that attends the deterioration of political relationships, Murphy identifies the precise kinds of repair and transformation that processes of political reconciliation ought to promote. Building on this analysis, she proposes a normative model of political relationships. *A Moral Theory of Political Reconciliation* delivers an original account of the failure and restoration of political relationships, which will be of interest to philosophers, social scientists, legal scholars, policy analysts, and all those who are interested in transitional justice, global politics, and democracy.

**Reconciliation Reconsidered** Dec 19 2019 Reconciliation Takes Time. A broad racial divide mars Churches of Christ, and courageous leaders from across the United States have joined together to listen to one another. Rather than adopt a posture of resignation, they have met for honest, God-honoring conversation. In *Reconciliation Reconsidered*, Tanya Brice pulls together the early fruit she has gleaned from this ongoing conversation about racial reconciliation. Learn about yourself in the context of community as you explore these key ideas: •Exercise truth-telling: it's what is needed before any reconciliation can happen •Discover how race relations are not as simple as you think •Challenge your stereotypes •Understand the meaning of current events like the Ferguson shooting in fresh ways •Revisit Christ's teachings with a careful eye toward discipleship and love of your neighbor •Each chapter concludes with discussion questions that can help you and others navigate this perplexing and difficult topic.

*Forgiveness and Reconciliation* May 16 2022 To be unforgiving is harmful. The inability to come to terms with one's anger or strife often can lead to stress disorders, mental health disorders, and relationship problems. Forgiveness is a personal decision. *Forgiveness and Reconciliation* focuses on individual experiences with forgiveness, aiming to create a theory of what forgiveness is and connect it to a clinical theory of how to promote forgiveness. Dr. Worthington creates an evidence-based approach that is applicable for individuals and relationships, and even for society. He also describes an evidence-based method of reconciliation - restoring trust in damaged relationships. Dr. Worthington hopes that this theory will inform scientific research and improve intervention strategies. Showing that forgiveness transforms personality, Worthington describes ways a clinician can promote (but not force) forgiveness of others and self. He provides research-based theory and applications and discusses the role of emotion and specific personality traits as related to forgiveness. Forgiveness and reconciliation might not be cures, but, as Worthington shows, they are tools for transforming both the self and the world.

*Justice and Reconciliation in World Politics* Apr 15 2022 Calls for justice and reconciliation in response to political catastrophes are widespread in contemporary world politics. What implications do these normative strivings have in relation to colonial injustice? Examining cases of colonial war, genocide, forced sexual labor, forcible incorporation, and dispossession, Lu demonstrates that international practices of justice and reconciliation have historically suffered from, and continue to reflect, colonial, statist and other structural biases. The continued reproduction of structural injustice and alienation in modern domestic, international and transnational orders generates

contemporary duties of redress. How should we think about the responsibility of contemporary agents to address colonial structural injustices and what implications follow for the transformation of international and transnational orders? Redressing the structural injustices implicated in or produced by colonial politics requires strategies of decolonization, decentering, and disalienation that go beyond interactional practices of justice and reconciliation, beyond victims and perpetrators, and beyond a statist world order.

*Resurgence and Reconciliation* Mar 22 2020 The two major schools of thought in Indigenous-Settler relations on the ground, in the courts, in public policy, and in research are resurgence and reconciliation. Resurgence refers to practices of Indigenous self-determination and cultural renewal whereas reconciliation refers to practices of reconciliation between Indigenous and Settler nations, such as nation-with-nation treaty negotiations. Reconciliation also refers to the sustainable reconciliation of both Indigenous and Settler peoples with the living earth as the grounds for both resurgence and Indigenous-Settler reconciliation. Critically and constructively analyzing these two schools from a wide variety of perspectives and lived experiences, this volume connects both discourses to the ecosystem dynamics that animate the living earth. Resurgence and Reconciliation is multi-disciplinary, blending law, political science, political economy, women's studies, ecology, history, anthropology, sustainability, and climate change. Its dialogic approach strives to put these fields in conversation and draw out the connections and tensions between them. By using "earth-teachings" to inform social practices, the editors and contributors offer a rich, innovative, and holistic way forward in response to the world's most profound natural and social challenges. This timely volume shows how the complexities and interconnections of resurgence and reconciliation and the living earth are often overlooked in contemporary discourse and debate.

**Fault Lines** Sep 27 2020 Real solutions to a hidden epidemic: family estrangement. Estrangement from a family member is one of the most painful life experiences. It is devastating not only to the individuals directly involved--collateral damage can extend upward, downward, and across generations. More than 65 million Americans suffer such rifts, yet little guidance exists on how to cope with and overcome them. In this book, Karl Pillemer combines the advice of people who have successfully reconciled with powerful insights from social science research. The result is a unique guide to mending fractured families. Fault Lines shares for the first time findings from Dr. Pillemer's ten-year groundbreaking Cornell Reconciliation Project, based on the first national survey on estrangement; rich, in-depth interviews with hundreds of people who have experienced it; and insights from leading family researchers and therapists. He assures people who are estranged, and those who care about them, that they are not alone and that fissures can be bridged. Through the wisdom of people who have "been there," Fault Lines shows how healing is possible through clear steps that people can use right away in their own families. It addresses such questions as: How do rifts begin? What makes estrangement so painful? Why is it so often triggered by a single event? Are you ready to reconcile? How can you overcome past hurts to build a new future with a relative? Tackling a subject that is achingly familiar to almost everyone, especially in an era when powerful outside forces such as technology and mobility are lessening family cohesion, Dr. Pillemer combines dramatic stories, science-based guidance, and practical repair tools to help people find the path to reconciliation.

Final Report of the Truth and Reconciliation Commission of Canada, Volume One: Summary Aug 27 2020 This is the Final Report of Canada's Truth and Reconciliation Commission and its six-year investigation of the residential school system for Aboriginal youth and the legacy of these schools. This report, the summary volume, includes the history of residential schools, the legacy of that school system, and the full text of the Commission's 94 recommendations for action to address that legacy. This report lays bare a part of Canada's history that until recently was little-known to most non-Aboriginal Canadians. The Commission discusses the logic of the colonization of Canada's territories, and why and how policy and practice developed to end the existence of distinct societies of Aboriginal peoples. Using brief excerpts from the powerful testimony

heard from Survivors, this report documents the residential school system which forced children into institutions where they were forbidden to speak their language, required to discard their clothing in favour of institutional wear, given inadequate food, housed in inferior and fire-prone buildings, required to work when they should have been studying, and subjected to emotional, psychological and often physical abuse. In this setting, cruel punishments were all too common, as was sexual abuse. More than 30,000 Survivors have been compensated financially by the Government of Canada for their experiences in residential schools, but the legacy of this experience is ongoing today. This report explains the links to high rates of Aboriginal children being taken from their families, abuse of drugs and alcohol, and high rates of suicide. The report documents the drastic decline in the presence of Aboriginal languages, even as Survivors and others work to maintain their distinctive cultures, traditions, and governance. The report offers 94 calls to action on the part of governments, churches, public institutions and non-Aboriginal Canadians as a path to meaningful reconciliation of Canada today with Aboriginal citizens. Even though the historical experience of residential schools constituted an act of cultural genocide by Canadian government authorities, the United Nation's declaration of the rights of aboriginal peoples and the specific recommendations of the Commission offer a path to move from apology for these events to true reconciliation that can be embraced by all Canadians.

**Reparation and Reconciliation** Jul 26 2020 Reparation and Reconciliation is the first book to reveal the nineteenth-century struggle for racial integration on U.S. college campuses. As the Civil War ended, the need to heal the scars of slavery, expand the middle class, and reunite the nation engendered a dramatic interest in higher education by policy makers, voluntary associations, and African Americans more broadly. Formed in 1846 by Protestant abolitionists, the American Missionary Association united a network of colleges open to all, designed especially to educate African American and white students together, both male and female. The AMA and its affiliates envisioned integrated campuses as a training ground to produce a new leadership class for a racially integrated democracy. Case studies at three colleges--Berea College, Oberlin College, and Howard University--reveal the strategies administrators used and the challenges they faced as higher education quickly developed as a competitive social field. Through a detailed analysis of archival and press data, Christi M. Smith demonstrates that pressures between organizations--including charities and foundations--and the emergent field of competitive higher education led to the differentiation and exclusion of African Americans, Appalachian whites, and white women from coeducational higher education and illuminates the actors and the strategies that led to the persistent salience of race over other social boundaries.

**Reconciling All Things** Sep 08 2021 Our world is broken and cries out for reconciliation. But mere conflict resolution and peacemaking are not enough. What makes real reconciliation possible? How is it that some people are able to forgive the most horrendous of evils? And what role does God play in these stories? Does reconciliation make any sense apart from the biblical story of redemption? Secular models of peacemaking are insufficient. And the church has not always fulfilled its call to be agents of reconciliation in the world. In *Reconciling All Things* Emmanuel Katongole and Chris Rice, codirectors of the Center for Reconciliation at Duke Divinity School, cast a comprehensive vision for reconciliation that is biblical, transformative, holistic and global. They draw on the resources of the Christian story, including their own individual experiences in Uganda and Mississippi, to bring solid, theological reflection to bear on the work of reconciling individuals, groups and societies. They recover distinctively Christian practices that will help the church be both a sign and an agent of God's reconciling love in the fragmented world of the twenty-first century. This powerful, concise book lays the philosophical foundations for the Resources for Reconciliation, a new series from InterVarsity Press and the Center for Reconciliation at Duke Divinity School which explores what it means to pursue hope in areas of brokenness in theory and practice.

**Radical Reconciliation: Beyond Political Pietism and Christian Quietism** Dec 11 2021 Everyone supports 'reconciliation'. But too often calls for reconciliation fall short of

uprooting systems of injustice, and thus fail to accomplish the work required to truly reconcile. True reconciliation, these authors argue, is truly radical.

*Model Rules of Professional Conduct* Feb 13 2022 The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

**Shades of Sulh** Jun 17 2022 Sulh is a centuries-old Arab-Islamic peacemaking practice. Rasha Diab explores the possibilities and limits of the rhetoric of sulh as it is used to resolve interpersonal, communal, and (inter)national conflicts--with a case illustrating each of these domains. The cases range from medieval to contemporary times and are analyzed using both rhetorical and critical discourse analyses.

*Reconciliation* Oct 21 2022 Based on Dharma talks by Zen Master Thich Nhat Hanh and insights from participants in retreats for healing the inner child, this book is an exciting contribution to the growing trend of using Buddhist practices to encourage mental health and wellness. Reconciliation focuses on the theme of mindful awareness of our emotions and healing our relationships, as well as meditations and exercises to acknowledge and transform the hurt that many of us experienced as children. The book shows how anger, sadness, and fear can become joy and tranquility by learning to breathe with, explore, meditate, and speak about our strong emotions. Reconciliation offers specific practices designed to bring healing and release for people suffering from childhood trauma. The book is written for a wide audience and accessible to people of all backgrounds and spiritual traditions.
