The true-crime classic first published in 1963 is reissued in this special edition. Includes archival photos of the prison and prison life. Escape from the Ivory Tower Jan 24 2023 Most scientists and researchers aren't prepared to talk to the press or to policymakers—or to deal with backlash. Many researchers have the horror stories to prove it. What's clear, according to Nancy Baron, is that scientists, journalists and public policymakers come from different cultures. They follow different sets of rules, pursue different goals, and speak their own language. To effectively reach journalists and public officials, scientists need to learn new

skills and rules of engagement. No matter what your specialty, the keys to success are clear thinking, knowing what you want to say, understanding your audience, and using everyday language to get your main points across. In this practical and entertaining guide to communicating science, Baron explains how to engage your audience and explain why a particular finding matters. She explores how to ace your interview, promote a paper, enter the political fray, and use new media to connect with your audience. The book includes advice from journalists, decision makers, new media experts, bloggers and some of the thousands of scientists who have participated in her communication workshops. Many of the researchers she has worked with have gone on to become well-known spokespeople for science-related issues. Baron and her protégées describe the risks and rewards of “speaking up,” how to deal with criticism, and the link between communications and leadership. The final chapter, ‘Leading the Way’ offers guidance to scientists who want to become agents of change and make your science matter. Whether you are an absolute beginner or a seasoned veteran looking to hone your skills, *Escape From the Ivory Tower* can help make your science understood, appreciated and perhaps acted upon.

[Escape from Earth](#) Nov 17 2019 *ESCAPE FROM EARTH* is the untold story of the engineers, dreamers and rebels who started the American space programme. In particular, it is the story of Frank Malina, founder of what became Nasa's Jet Propulsion Laboratory and the scientist who cracked the, as he called it, problem of escape from the Earth by rocket. It's a wild ride. Jack Parsons, Malina's chemistry-expert research partner, was a bed-hopping occultist with delusions of grandeur. We get all the horrible details: drug parties and sex magic, cameos by Aleister Crowley and L Ron Hubbard, and an ill-fated attempt to start a mail-order religion. Armed with hitherto unpublished letters, journals, and documents from the Malina family archives, Fraser MacDonald reveals what we didn't know. Jack Parsons betrayed

Frank Malina to the FBI, cooperating fully in their investigation of Malina for un-American activities. The Jet Propulsion Lab's second director secretly denounced Frank as a Communist. Frank's research group had close ties to the spy network of the infamous Rosenbergs - the only Americans executed during the Red Scare. This is a story of soaring ideals entangled in the most human of complications: infidelity and divorce, betrayal and treason.

How to Escape from a Leper Colony Mar 14 2022 An enthralling debut collection from a singular Caribbean voice For a leper, many things are impossible, and many other things are easily done. Babalao Chuck said he could fly to the other side of the island and peek at the nuns bathing. And when a man with no hands claims that he can fly, you listen. The inhabitants of an island walk into the sea. A man passes a jail cell's window, shouldering a wooden cross. And in the international shop of coffins, a story repeats itself, pointing toward an inevitable tragedy. If the facts of these stories are sometimes fantastical, the situations they describe are complex and all too real. Lyrical, lush, and haunting, the prose shimmers in this nuanced debut, set mostly in the U.S. Virgin Islands. Part oral history, part postcolonial narrative, *How to Escape from a Leper Colony* is ultimately a loving portrait of a wholly unique place. Like Gabriel García Márquez, Edwidge Danticat, and Maryse Condé before her, Tiphany Yanique has crafted a book that is heartbreaking, hilarious, magical, and mesmerizing. An unforgettable collection.

Escape from Camp 14 Nov 29 2020 With a New Foreword The heartwrenching New York Times bestseller about the only known person born inside a North Korean prison camp to have escaped. North Korea's political prison camps have existed twice as long as Stalin's Soviet gulags and twelve times as long as the Nazi concentration camps. No one born and raised in these camps is known to have escaped. No one, that is, except Shin Dong-hyuk. In *Escape From Camp 14*, Blaine Harden unlocks the secrets of the world's most repressive totalitarian state through the story of Shin's shocking imprisonment and his astounding getaway. Shin knew nothing of civilized existence—he saw his mother as a competitor for food, guards raised him to be a snitch, and he witnessed the execution of his mother and brother. The late “Dear

Leader” Kim Jong Il was recognized throughout the world, but his country remains sealed as his third son and chosen heir, Kim Jong Eun, consolidates power. Few foreigners are allowed in, and few North Koreans are able to leave. North Korea is hungry, bankrupt, and armed with nuclear weapons. It is also a human rights catastrophe. Between 150,000 and 200,000 people work as slaves in its political prison camps. These camps are clearly visible in satellite photographs, yet North Korea’s government denies they exist. Harden’s harrowing narrative exposes this hidden dystopia, focusing on an extraordinary young man who came of age inside the highest security prison in the highest security state. *Escape from Camp 14* offers an unequalled inside account of one of the world’s darkest nations. It is a tale of endurance and courage, survival and hope.

Escape from Paris Nov 10 2021 This thrilling wartime adventure tells the true story of the downed American aviators who were rescued by French resistance fighters, taken to Nazi-occupied Paris, and hidden under the very noses of the Gestapo. *Escape from Paris* is the true story of a small group of U.S. aviators whose four B-17 Flying Fortresses were shot down over German-occupied France on a single, fateful day: July 14, 1943, Bastille Day. They were rescued by brave French civilians and taken to Paris for eventual escape out of France. In the French capital, where German troops walked on every street and Gestapo agents hid around every corner, the flyers met a brave Parisian resistance family living and working in the Hôtel des Invalides, a complex of buildings and military memorials, where Nazi officials had set up offices. Hidden in the complex the Americans, along with dozens of other downed Allied pilots and resistance operatives, hatched daring escape plots. The danger of discovery by the Nazis grew every day, as did an unlikely romance when one of the American airmen begins a star-crossed wartime romance with the twenty-two-year old daughter of the family sheltering him—a noir tale of war, courage and desperation in the shadows of the City of Light. Based on official American, French, and German documents, histories, personal memoirs, and the author's interviews with several of the story's key participants,

Escape from Paris crosses the traditional lines of World War II history with tense drama of air combat over Europe, the intrigue of occupied Paris, and courageous American and Allied pilots and French resistance fighters pitted against Nazi thugs. All of this set in one of the world's most beautiful and captivating cities.
