Annotation Analyzes the films of major Italian postwar directors, from Amelio to Visconti, inspired by literary masters, including Balzac and Tolstoy. Thirteen-year-old Agostino is spending the summer at a Tuscan seaside resort with his beautiful widowed mother. When she takes up with a cocksure new companion, Agostino, feeling ignored and unloved, begins hanging around with a group of local young toughs. Though repelled by their squalor and brutality, and repeatedly humiliated for his weakness and ignorance when it comes to women and sex, the boy is increasingly, masochistically drawn to the gang and its rough games. He finds himself unable to make sense of his troubled feelings. Hoping to be full of manly calm, he is instead beset by guilty curiosity and an urgent desire to sever, at any cost, the thread of troubled sensuality that binds him to his mother. Alberto Moravia's classic, startling portrait of innocence lost was written in 1942 but rejected by Fascist censors and not published until 1944, when it became a best seller and secured the author the first literary prize of his career. Revived here in a new translation by Michael F. Moore, Agostino is poised to captivate a twenty-first-century audience. The history of totalitarian states bears witness to the fact that literature and print media can be manipulated and made into vehicles of mass deception. *Censorship and Literature in Fascist Italy* is the first comprehensive account of how the Fascists attempted to control Italy's literary production. Guido Bonsaver looks at how the country's major publishing houses and individual authors responded to the new cultural directives imposed by the Fascists. Throughout his study, Bonsaver uses rare and previously unexamined materials to shed light on important episodes in Italy's literary history, such as relationships between the regime and particular publishers, as well as individual cases involving renowned writers like Moravia, Da Verona, and Vittorini. *Censorship and Literature in Fascist Italy* charts the development of Fascist censorship laws and practices, including the creation of the Ministry of Popular Culture and the anti-Semitic crack-down of the late 1930s. Examining the breadth and scope of censorship in Fascist Italy, from Mussolini's role as 'prime censor' to the specific experiences of female writers, this is a fascinating look at the vulnerability of culture under a dictatorship. This book brings to the surface the lines of experimentation and artistic renewal appearing after the exhaustion of Neorealism, mapping complex areas of interest such as the emergence of ethical concerns, the relationship between ideology and representati A master historian illuminates the tumultuous relationship of Il Duce and his young lover Claretta, whose extraordinarily intimate diaries only recently have become available Few deaths are as gruesome and infamous as those of Benito Mussolini, Italy's fascist dictator, and Claretta (or Clara) Petacci, his much-younger lover. Shot dead by Italian partisans after attempting to flee the country in 1945, the couple's bodies were then hanged upside down in Milan's main square in ignominious public display. This provocative book is the first to mine Clara's extensive diaries, family correspondence, and other sources to discover how the last in Mussolini's long line of lovers became his intimate and how she came to her violent fate at his side. R. J. B. Bosworth explores the social climbing of Claretta's family, her naïve and self-interested commitment to fascism, her diary's graphically detailed accounts of sexual life with Mussolini, and much more. Brimful of new and arresting information, the book sheds intimate light not only on an ordinary-extraordinary woman living at the heart of Italy's totalitarian fascist state but also on Mussolini

himself. This cultural history of Mussolini's dictatorship discusses the meanings of modernity in interwar Italy. The work argues that fascism appealed to many Italian intellectuals as a new model of modernity that would resolve the European crisis as well as long-standing problems of the national past. An analysis of the confinement experience in Italian narrative between 1930 and 1960, covering the last years of Fascism. Not limiting herself to prisons, Nerenberg also explores military barracks, convents, and brothels as carceral homologues. MLN pioneered the introduction of contemporary continental criticism into American scholarship. Critical studies in the modern languages--Italian, Hispanic, German, French--and recent work in comparative literature are the basis for articles and notes in MLN. Four single-language issues and one comparative literature issue are published each year. Quando discuti con un avversario prova a metterti nei suoi panni, lo comprenderai meglio... Ho seguito questo consiglio ma i panni dei miei avversari erano così sudici che ho concluso: è meglio essere ingiusto qualche volta che provare di nuovo questo schifo che fa svenire. Antonio Gramsci International specialists from law, media, film and virtual studies address the jurist in the era of digital transmission. From the cinema of the early 20th century to social media, this volume explores the multiple intersections of these visual technologies and the law. Presents a detailed overview of Italy's current social customs and culture, covering its people, family life, religion, literature, the arts, festivals, sports, food, and leisure activities. Ancient and Medieval Philosophy, Series 1, No. 39 This book examines the important but largely neglected issue of the intricate mutual influences between Platonism and Stoicism in the Hellenistic period, the Imperial Age, and after. Although this interrelationship is often termed eclecticism, the authors of Platonic Stoicism reveal that the situation is much more complicated. Far from being eclectics, most Stoics and Platonists consciously appropriated material and integrated it into their own philosophical system. The dialogue between Platonists and Stoics testifies to active debate and controversy on central topics such as psychology, epistemology, physics, and ethics. THE ITALIAN CINEMA BOOK is an essential guide to the most important historical, aesthetic and cultural aspects of Italian cinema, from 1895 to the present day. With contributions from 39 leading international scholars, the book is structured around six chronologically organised sections: THE SILENT ERA (1895-22) THE BIRTH OF THE TALKIES AND THE FASCIST ERA (1922-45) POSTWAR CINEMATIC CULTURE (1945-59) THE GOLDEN AGE OF ITALIAN CINEMA (1960-80) AN AGE OF CRISIS, TRANSITION AND CONSOLIDATION (1981 TO THE PRESENT) NEW DIRECTIONS IN CRITICAL APPROACHES TO ITALIAN CINEMA Acutely aware of the contemporary 'rethinking' of Italian cinema history, Peter Bondanella has brought together a diverse range of essays which represent the cutting edge of Italian film theory and criticism. This provocative collection will provide the film student, scholar or enthusiast with a comprehensive understanding of the major developments in what might be called twentieth-century Italy's greatest and most original art form. Publisher description Broken Time, Fragmented Space: A Cultural Map for Post-war Italy examines how the artists and intellectuals of post-war Italy dealt with the 'shameful' heritage of their fascist upbringing and education by trying to craft a new cultural identity for themselves and the country. The continuities between the culture of the fascist and post-fascist periods were, however, far greater than what intellectuals were ready to admit, creating an uncomfortable, sometimes schizophrenic relation to time, as a painful urge to erase the past. Drawing on a variety of critical approaches, Torriglia investigates the efforts to reconstruct a personal as well as a collective self by analyzing both canonical and lesser-known cinematic and literary texts. Organized around four main themes - the use of language, the interaction between personal and public spheres, the perceptual categories of history and memory, and the reconstruction of the female identity - the study also includes historical introductions and sociological commentary that provides an extensive and captivating picture of the cultural production in 1950s Italy, a period that has not yet been extensively studied. Spaghetti with meatballs, fettuccine alfredo, margherita pizzas, ricotta and parmesan cheeses—we have Italy to thank for some of our favorite comfort foods. Home to a dazzling array of wines, cheese, breads, vegetables, and salamis, Italy has become a mecca for foodies who flock to its pizzerias, gelaterias,

and family-style and Michelin-starred restaurants. Taking readers across the country's regions and beyond in the first book in Reaktion's new Foods and Nations series, *Al Dente* explores our obsession with Italian food and how the country's cuisine became what it is today. Fabio Parasecoli discovers that for centuries, southern Mediterranean countries such as Italy fought against food scarcity, wars, invasions, and an unfavorable agricultural environment. Lacking in meat and dairy, Italy developed foodways that depended on grains, legumes, and vegetables until a stronger economy in the late 1950s allowed the majority of Italians to afford a more diverse diet. Parasecoli elucidates how the last half century has seen new packaging, conservation techniques, industrial mass production, and more sophisticated systems of transportation and distribution, bringing about profound changes in how the country's population thought about food. He also reveals that much of Italy's culinary reputation hinged on the world's discovery of it as a healthy eating model, which has led to the prevalence of high-end Italian restaurants in major cities around the globe. Including historical recipes for delicious Italian dishes to enjoy alongside a glass of crisp Chianti, *Al Dente* is a fascinating survey of this country's cuisine that sheds new light on why we should always leave the gun and take the cannoli. For over a century, Italy has had a love affair with the cigarette. Perhaps no consumer item better symbolizes the economic, political, social, and cultural dimensions of contemporary Italian history. Starting around 1900, the new and popular cigarette spread down the social hierarchy and eventually, during the 1960s, across the gender divide. For much of the century, cigarette consumption was an index of economic well-being and of modernism. Only at the end of the century did its meaning change as Italy achieved economic parity with other Western powers and entered into the antismoking era. Drawing on film, literature, and the popular press, Carl Ipsen offers a view of the "cigarette century" in Italy, from the 1870s to the ban on public smoking in 2005. He traces important links between smoking and imperialism, world wars, Fascism, and the protest movements of the 1970s. In considering this grand survey of the cigarette, *Fumo* tells a much larger story about the socio-economic history of a society known for its casual attitude toward risk and a penchant for *la dolce vita*. *The A to Z of Modern Italy* is an attempt to introduce the key personalities, events, social developments, and cultural achievements of Italy since the beginning of the 19th century, when Italy first began to emerge as something more than a geographical entity and national feeling began to grow. This is done through a chronology, a list of acronyms and abbreviations, an introductory essay, a map, a bibliography, and some 400 cross-referenced dictionary entries on prominent individuals, basic institutions, crucial events, history, politics, economics, society, and culture. The present book covers topics both on fluvial and lagoon morphodynamics. The first part is dedicated to tidal environments. Topics include an overview of main morphological features and mechanisms of estuaries and tidal channels and a model devoted to investigate flow field pattern and bed topography in tidal meandering channels and a comparison with recent observational evidence of meanders within different tidal environments. The general failure of Bagnold hypothesis when applied to equilibrium bedload transport at even relatively modest transverse slope is demonstrated. A new model is then proposed based on an empirical entrainment formulation of bed grains. This anthology highlights the rich range of modern Italian fiction, presenting the first English translations of works by many famous authors. Contents include fables and stories by Italo Calvino, Elsa Morante, Alberto Moravia, and Cesare Pavese; historical fiction by Leonardo Sciascia and Mario Rigoni Stern; and little-known tales by Luigi Pirandello and Carlo Emilio Gadda. No further apparatus or reference is necessary for this self-contained text. Appropriate for high school and college courses as well as for self-study, this volume will prove a fine companion for teachers and intermediate-level students of Italian language and literature as well as readers wishing to brush up on their language skills. See every Dover book in print at [www.doverpublications.com](http://www.doverpublications.com) Neorealism emerged as a cultural exchange and a field of discourse that served to shift the confines of creativity and revise the terms of artistic expression not only in Italy but worldwide. If neorealism was thus a global phenomenon, it is because of its revolutionary portrayal of a transformative moment in the local, regional, and national histories of Italy. At once guiding and guided by that transformative moment, neorealist

texts took up, reflected, and performed the contentious conditions of their creation, not just at the level of narrative content but also in their form, language, and structure. Italian Neorealism: A Cultural History demonstrates how they did so through a series of representative case studies. Recounting the history of a generation of artists, this study offers fundamental insights into one of the most innovative and influential cultural moments of the twentieth century. Describes the cultural impact of World War II on the anti-Fascist intellectuals of France, Germany, and Italy, and investigates the ways in which they helped shape Europe's reconstruction

Quando Alberto Moravia cominciò a scrivere questo capolavoro, nel 1925, non aveva ancora compiuto diciott'anni. Intorno a lui l'Italia, alla quale Mussolini aveva imposto la dittatura, stava dimenticando lo scoppio d'indignazione e di ribellione suscitato nel 1924 dal delitto Matteotti e scivolava verso il consenso e i plebisciti per il fascismo. Il giovane Moravia non si interessava di politica, ma il ritratto che fece di un ventenne di allora coinvolto nello sfacelo di una famiglia borghese e dell'intero Paese doveva restare memorabile. Il fascismo eleva l'insidia moderna dell'indifferenza a condizione esistenziale assoluta.

The Complete Works of Primo Levi, which includes seminal works like *If This Is a Man* and *The Periodic Table*, finally gathers all fourteen of Levi's books—memoirs, essays, poetry, commentary, and fiction—into three slipcased volumes. Primo Levi, the Italian-born chemist once described by Philip Roth as that “quicksilver little woodland creature enlivened by the forest's most astute intelligence,” has largely been considered a heroic figure in the annals of twentieth-century literature for *If This Is a Man*, his haunting account of Auschwitz. Yet Levi's body of work extends considerably beyond his experience as a survivor. Now, the transformation of Levi from Holocaust memoirist to one of the twentieth century's greatest writers culminates in this publication of *The Complete Works of Primo Levi*. This magisterial collection finally gathers all of Levi's fourteen books—memoirs, essays, poetry, and fiction—into three slip-cased volumes. Thirteen of the books feature new translations, and the other is newly revised by the original translator. Nobel laureate Toni Morrison introduces Levi's writing as a “triumph of human identity and worth over the pathology of human destruction.” The appearance of this historic publication will occasion a major reappraisal of “one of the most valuable writers of our time” (Alfred Kazin). *The Complete Works of Primo Levi* features all new translations of: *The Periodic Table*, *The Drowned and the Saved*, *The Truce*, *Natural Histories*, *Flaw of Form*, *The Wrench*, *Lilith*, *Other People's Trades*, and *If Not Now, When?*—as well as all of Levi's poems, essays, and other nonfiction work, some of which have never appeared before in English. This is the first comprehensive account of the diversity and complexity of censorship practices in Italy under the Fascist dictatorship. Through archival material it shows how practices of censorship were used to effect regime change, to measure and to shape public opinion, behaviour and attitudes in the twenty years of Mussolini's dictatorship. This bibliography lists English-language translations of twentieth-century Italian literature published chiefly in book form between 1929 and 1997, encompassing fiction, poetry, plays, screenplays, librettos, journals and diaries, and correspondence. “Francesca Billiani and Laura Pennacchietti draw brilliantly and with precision the evolution of the new architecture and of the national novel (with insights on translations of international novels), whose profiles had been shaped from different angles, especially in the 1930s. These two fields, apparently so distant one from the other, had never been

analysed in parallel. This book does this and uncovers several points of contact between the two, spanning propaganda and theoretical turning points." —Chiara Costa and Cornelia Mattiacci, Fondazione Prada, Italy "This book shows convincingly how the arte di Stato during Fascism was created with the morality of a new novel as well as architecture. It is surprising to read how one of the representatives of State art, Giuseppe Bottai, is also one of the finest critics of realist novels and rationalist architecture. More than parallel endeavours, the system of the arts during the Fascist regime should be viewed as a series of intersections of cultural, political and aesthetic discourses." —Monica Jansen, Utrecht University, The Netherlands Architecture and the Novel under the Italian Fascist Regime discusses the relationship between the novel and architecture during the Fascist period in Italy (1922-1943). By looking at two profoundly diverse aesthetic phenomena within the context of the creation of a Fascist State art, Billiani and Pennacchietti argue that an effort of construction, or reconstruction, was the main driving force behind both projects: the advocated "revolution" of the novel form (realism) and that of architecture (rationalism). The book is divided into seven chapters, which in turn analyze the interconnections between the novel and architecture in theory and in practice. The first six chapters cover debates on State art, on the novel and on architecture, as well as their historical development and their unfolding in key journals of the period. The last chapter offers a detailed analysis of some important novels and buildings, which have in practice realized some of the key principles articulated in the theoretical disputes. Francesca Billiani is Senior Lecturer in Italian Studies and Director of the Centre for Interdisciplinary Research in the Arts and Languages at the University of Manchester, UK. Laura Pennacchietti is Research Associate in Italian Studies at the University of Manchester, UK. Between 1917 to 1975 Germany, Italy, Portugal, the Soviet Union, and Spain shifted from liberal parliamentary democracies to authoritarian and totalitarian dictatorships, seeking total control, mass consensus, and the constitution of a 'new man/woman' as the foundation of a modern collective social identity. As they did so these regimes uniformly adopted what we would call a modernist aesthetic - huge-scale experiments in modernism were funded and supported by fascist and totalitarian dictators. Famous examples include Mussolini's New Rome at EUR, or the Stalinist apartment blocks built in urban Russia. Focusing largely on Mussolini's Italy, Francesca Billiani argues that modernity was intertwined irrecoverably with fascism - that too often modernist buildings, art and writings are seen as a purely cultural output, when in fact the principles of modernist aesthetics constitute and are constituted by the principles of fascism. The obsession with the creation of the 'new man' in art and in reality shows this synergy at work. This book is a key contribution to the field of twentieth century history - particularly in the study of fascism, while also appealing to students of art history and philosophy. Neorealism and the "New" Italy centers on neorealist Italian artists' use of compassion as a vehicle to express their characters' interactions. Simonetta Milli Konewko proposes that compassion as an emotion may be activated to unify certain individuals and communities and investigates the mechanisms that allowed compassion to operate during the postwar period. Aiming to produce a deeper understanding of the ways in which Italy is re-encoded and reconstructed, this book explores the formation of Italian identity and redefines neorealism as a topic of investigation. Providing the most complete record possible of texts by Italian writers active after 1900, this annotated bibliography covers over 4,800 distinct editions of writings by some 1,700 Italian authors. Many entries are accompanied by useful notes that provide information on the authors, works, translators, and the reception of the translations. This book includes the works of Pirandello, Calvino, Eco, and more recently, Andrea Camilleri and Valerio Manfredi. Together with Robin Healey's Italian Literature before 1900 in English Translation, also published by University of Toronto Press in 2011, this volume makes comprehensive information on translations from Italian accessible for schools, libraries, and those interested in comparative literature.
