*A practical guide to working with the principles of polyvagal theory beyond the therapy session. Deb Dana is the foremost translator of polyvagal theory into clinical practice. Here, in her third book on this groundbreaking theory, she provides therapists with a grab bag of polyvagal-informed exercises for their clients, to use both within and between sessions. These exercises offer readily understandable explanations of the ways the autonomic nervous system directs daily living. They use the principles of polyvagal theory to guide clients to safely connect to their autonomic responses and navigate daily*

experiences in new ways. The exercises are designed to be introduced over time in a variety of clinical sessions with accompanying exercises appropriate for use by clients between sessions to enhance the therapeutic change process. Essential reading for any therapist who wants to take their polyvagal knowledge to the next level and is looking for easy ways to deliver polyvagal solutions with their clients. For anyone who has ever yearned to master a new language, *Fifty Sounds* is a visionary personal account and an indispensable resource for learning to think beyond your mother tongue. “The language learning I want to talk about is sensory bombardment. It is a possession, a bedevilment, a physical takeover,” writes Polly Barton in her eloquent treatise on this profoundly humbling and gratifying act. Shortly before graduating with a degree in philosophy from the University of Cambridge, Barton on a whim accepted an English-teaching position in Japan. With the characteristic ambivalence of a twenty-one-year-old whose summer—and life—stretched out almost infinitely before her, she moved to a remote island in the Sea of Japan, unaware that this journey would come to define not only her career but her very understanding of her own identity. Divided into fifty onomatopoeic Japanese phrases, *Fifty Sounds* recounts Barton’s path to becoming a literary translator fluent in an incredibly difficult vernacular. From “min-min,” the sound of air screaming, to “jin-jin,” the sound of being touched for the first time, Barton analyzes these and countless other foreign sounds and phrases as a means of reflecting on various cultural attitudes, including the nuances of conformity and the challenges of being an outsider in what many consider a hermetically sealed society. In a tour-de-force of lyrical, playful prose, Barton recalls the stifling humidity that first greeted her on the island along with the incessant hum of peculiar new noises. As Barton taught English to inquisitive middle school children, she studied the basics of Japanese in an inverse way, beginning with simple nouns and phrases, such as “cat,” “dog,” and “Hello, my name is.” But when it came to surrounding herself in the culture, simply mastering the basics wasn’t enough. Japanese, Barton learned, has three scripts: the phonetic katakana and hiragana (collectively known as kana) and kanji (characters of Chinese origin). Despite her months-long immersion in the language, a word would occasionally produce a sinking feeling and send her sifting through her dictionaries to find the exact meaning. But this is precisely how Barton has come to define language learning: “It

*is the always-bruised but ever-renewing desire to draw close: to a person, a territory, a culture, an idea, an indefinable feeling.” Engaging and penetrating, Fifty Sounds chronicles everything from Barton’s most hilarious misinterpretations to her new friends and lovers in Tokyo—and even the influence of Ludwig Wittgenstein’s transformative philosophy. A classic in the making in the tradition of Anne Carson and Rachel Cusk, Fifty Sounds is a celebration of the empowering act of learning to communicate in any new language. Released for the first time in paperback, this landmark social and political volume on feminism is credited with being responsible for raising awareness, liberating both sexes, and triggering major advances in the feminist movement. Reprint. A short, sharp guide to tackling life’s biggest challenges: understanding ourselves and making the right choices. Every day offers moments of decision, from what to eat for lunch to how to settle a dispute with a colleague. Still larger questions loom: How can I motivate my team? How can I work more efficiently? What is the long tail anyway? Whether you’re a newly minted MBA, a chronic second-guesser, or just someone eager for a new vantage point, The Decision Book presents fifty models for better structuring, and subsequently understanding, life’s steady challenges. Interactive and thought-provoking, this illustrated workbook offers succinct summaries of popular strategies, including the Rubber Band Model for dilemmas with many directions, the Personal Performance Model to test whether to change jobs, and the Black Swan Model to illustrate why experience doesn’t guarantee wisdom. Packed with familiar tools like the Pareto Principle, the Prisoner’s Dilemma, and an unusual exercise inspired by Warren Buffet, The Decision Book is the ideal reference for flexible thinkers. The diaries of a remarkable young woman who was determined to live a meaningful and happy life despite her struggle with cystic fibrosis and a rare superbug—from age fifteen to her death at the age of twenty-five—the inspiration for the original streaming documentary Salt in My Soul “An exquisitely nuanced chronicle of a terrified but hopeful young woman whose life was beginning and ending, all at once.”—Los Angeles Times Diagnosed with cystic fibrosis at the age of three, Mallory Smith grew up to be a determined, talented young woman who inspired others even as she privately raged against her illness. Despite the daily challenges of endless medical treatments and a deep understanding that she’d never lead a normal life, Mallory was determined to “Live Happy,” a mantra she*

followed until her death. Mallory worked hard to make the most out of the limited time she had, graduating Phi Beta Kappa from Stanford University, becoming a cystic fibrosis advocate well known in the CF community, and embarking on a career as a professional writer. Along the way, she cultivated countless intimate friendships and ultimately found love. For more than ten years, Mallory recorded her thoughts and observations about struggles and feelings too personal to share during her life, leaving instructions for her mother to publish her work posthumously. She hoped that her writing would offer insight to those living with, or loving someone with, chronic illness. What emerges is a powerful and inspiring portrait of a brave young woman and blossoming writer who did not allow herself to be defined by disease. Her words offer comfort and hope to readers, even as she herself was facing death. *Salt in My Soul* is a beautifully crafted, intimate, and poignant tribute to a short life well lived—and a call for all of us to embrace our own lives as fully as possible. From Graham Norton—the BAFTA Award-winning Irish television host and author of the “charming debut novel” (*New York Journal of Books*)  *Holding*—a masterly and haunting tale of secrets and ill-fated love follows a young woman as she returns to Ireland after her mother’s death and unravels the identity of her father. When Elizabeth Keane returns to Ireland after her mother’s death, she’s focused only on saying goodbye to that dark and dismal part of her life. Her childhood home is packed solid with useless junk, her mother’s presence already fading. But within this mess, she discovers a small stash of letters—and ultimately, the truth. Forty years earlier, a young woman stumbles from a remote stone house, the night quiet except for the constant wind that encircles her as she hurries deeper into the darkness away from the cliffs and the sea. She has no sense of where she is going, only that she must keep on. With wistful and evocative prose, *A Keeper* is sure to appeal to “fans of sensitive character studies” (*Publishers Weekly*) and brilliantly illustrates Graham Norton’s clear-eyed understanding of human nature and its darkest flaws. Stories, legends, poems, essays, letters, and memoirs, by Aesop, Yeats, Homer, Shakespeare, T.S. Eliot, Virginia Woolf, and others, offer a commentary on friendship. The classic reader that has introduced millions of students to the essay as a genre. 200,000 first printing. A religion is a system of stories, and there is no better way to engage with the world's religions than through the stories that animate their beliefs and practices. Videos and an award-winning adaptive learning tool, InQuizitive, further engage students and help them master core objectives and develop their own religious literacy. *For Milo*, everything's a bore. When a tollbooth mysteriously appears in his room, he drives through only because he's got nothing better to do. But on the other side, things seem different. Somewhere along the way, Milo realizes something astonishing. Life is far from dull. A New York Times Editors' Choice pick Named a Best Book of the Year by NPR, Los Angeles Times, Vogue, Wall Street Journal, Food Network, KCRW, WBUR Here & Now, Emma Straub, and Globe and Mail One of the Millions's Most Anticipated Books of 2021 America's modern culinary history told through the lives of seven pathbreaking chefs and food writers. Who's really behind America's appetite for foods from around the globe? This group biography from an electric new voice in food writing honors seven extraordinary women, all immigrants, who left an indelible mark on the way Americans eat today. Taste Makers stretches from World War II to the present, with absorbing and deeply researched portraits of figures including Mexican-born Elena Zelayeta, a blind chef; Marcella Hazan, the deity of Italian cuisine; and Norma Shirley, a champion of Jamaican dishes. In imaginative, lively prose, Mayukh Sen—a queer, brown child of immigrants—reconstructs the lives of these women in vivid and empathetic detail, daring to ask why some were famous in their own time, but not in ours, and why others shine brightly even today. Weaving together histories of food,*

immigration, and gender, *Taste Makers* will challenge the way readers look at what's on their plate—and the women whose labor, overlooked for so long, makes those meals possible. *The Little Norton Reader* presents 50 essays from the first 50 years of *The Norton Reader*, classics like the "Letter from Birmingham Jail" along with newer favorites such as "Is Google Making Us Stupid?" and "Fun Home." Its small size makes it portable, and its low price makes it affordable. *The Little Seagull Handbook* offers the kind of succinct advice students need about grammar, punctuation, documentation, and the writing process--an in addition, it covers the kinds of writing they are most often assigned--reports, analyses, narratives, and more. The second edition includes unique help for students whose primary language is not English. Available in two versions--with and without exercises. In *Separated by Their Sex*, Mary Beth Norton offers a bold genealogy that shows how gender came to determine the right of access to the Anglo-American public sphere by the middle of the eighteenth century. Earlier, high-status men and women alike had been recognized as appropriate political actors, as exemplified during and after Bacon's Rebellion by the actions of—and reactions to—Lady Frances Berkeley, wife of Virginia's governor. By contrast, when the first ordinary English women to claim a political voice directed group petitions to Parliament during the Civil War of the 1640s, men relentlessly criticized and parodied their efforts. Even so, as late as 1690, Anglo-American women's political interests and opinions were publicly acknowledged. Norton traces the profound shift in attitudes toward women's participation in public affairs to the age's cultural arbiters, including John Dunton, editor of the *Athenian Mercury*, a popular 1690s periodical that promoted women's links to husband, family, and household. Fittingly, Dunton was the first author known to apply the word "private" to women and their domestic lives. Subsequently, the immensely influential authors Richard Steele and Joseph Addison (in the *Tatler* and the *Spectator*) advanced the notion that women's participation in politics—even in political dialogues—was absurd. They and many imitators on both sides of the Atlantic argued that women should confine themselves to home and family, a position that American women themselves had adopted by the 1760s. Colonial women incorporated the novel ideas into their self-conceptions; during such "private" activities as sitting around a table drinking tea, they worked to define their own lives. On the cusp of the American

Revolution, Norton concludes, a newly gendered public-private division was firmly in place. *fascinating world where the inhabitants, no taller than a pencil live in a quiet old house and skillfully borrow what they need. A Modest Proposal' is a 1729 Juvenalian satirical essay written and published anonymously by Jonathan Swift. Swift suggests that the impoverished Irish might ease their economic troubles by selling their children as food for rich gentlemen and ladies. This satirical hyperbole mocked heartless attitudes towards the poor as well as British policy toward the Irish in general. One of the Top 10 Politics and Current Events Books of Fall 2019 (Publishers Weekly) An incisive cultural history that captures a fractious nation through the prism of television and the rattled mind of a celebrity president. Television has entertained America, television has ensorcelled America, and with the election of Donald J. Trump, television has conquered America. In Audience of One, New York Times chief television critic James Poniewozik traces the history of TV and mass media from the Reagan era to today, explaining how a volcanic, camera-hogging antihero merged with America's most powerful medium to become our forty-fifth president. In the tradition of Neil Postman's masterpiece Amusing Ourselves to Death, Audience of One shows how American media have shaped American society and politics, by interweaving two crucial stories. The first story follows the evolution of television from the three-network era of the 20th century, which joined millions of Americans in a shared monoculture, into today's zillion-channel, Internet-atomized universe, which sliced and diced them into fractious, alienated subcultures. The second story is a cultural critique of Donald Trump, the chameleonic celebrity who courted fame, achieved a mind-meld with the media beast, and rode it to ultimate power. Braiding together these disparate threads, Poniewozik combines a cultural history of modern America with a revelatory portrait of the most public American who has ever lived. Reaching back to the 1940s, when Trump and commercial television were born, Poniewozik illustrates how Donald became "a character that wrote itself, a brand mascot that jumped off the cereal box and entered the world, a simulacrum that replaced the thing it represented." Viscerally attuned to the media, Trump shape-shifted into a boastful tabloid playboy in the 1980s; a self-parodic sitcom fixture in the 1990s; a reality-TV "You're Fired" machine in the 2000s; and finally, the biggest role of his career, a Fox News-obsessed, Twitter-mad, culture-warring demagogue in the White House. Poniewozik deconstructs the chaotic Age of Trump as the 24-hour TV production*

that it is, decoding an era when politics has become pop culture, and vice versa. Trenchant and often slyly hilarious, *Audience of One* is a penetrating and sobering review of the raucous, raging, farcical reality show—performed for the benefit of an insomniac, cable-news-junkie “audience of one”—that we all came to live in, whether we liked it or not. This is a book that celebrates student writing—and honors the teaching that helps students produce such writing. It collects writing done by college students across the country and includes a call for papers, inviting students to submit their own writing for a prize and for inclusion in future editions of this book. The inspiration for Chloé Zhao's 2020 Golden Lion award-winning film starring Frances McDormand. Read by more than 8 million students, The Norton Anthology of English Literature sets the standard and remains an unmatched value. New York Times Bestseller In the most ambitious one-volume American history in decades, award-winning historian and New Yorker writer Jill Lepore offers a magisterial account of the origins and rise of a divided nation, an urgently needed reckoning with the beauty and tragedy of American history. Written in elegiac prose, Lepore's groundbreaking investigation places truth itself—a devotion to facts, proof, and evidence—at the center of the nation's history. The American experiment rests on three ideas—"these truths," Jefferson called them—political equality, natural rights, and the sovereignty of the people. And it rests, too, on a fearless dedication to inquiry, Lepore argues, because self-government depends on it. But has the nation, and democracy itself, delivered on that promise? These Truths tells this uniquely American story, beginning in 1492, asking whether the course of events over more than five centuries has proven the nation's truths, or belied them. To answer that question, Lepore traces the intertwined histories of American politics, law, journalism, and technology, from the colonial town meeting to the nineteenth-century party machine, from talk radio to twenty-first-century Internet polls, from Magna Carta to the Patriot Act, from the printing press to Facebook News. Along the way, Lepore's sovereign chronicle is filled with arresting sketches of both well-known and lesser-known Americans, from a parade of presidents and a rogues' gallery of political mischief makers to the intrepid leaders of protest movements, including Frederick Douglass, the famed abolitionist orator; William Jennings Bryan, the three-time presidential candidate and ultimately tragic populist; Pauli Murray, the visionary civil rights strategist; and Phyllis Schlafly, the uncredited architect of modern conservatism. Americans are descended from slaves and slave owners, from conquerors and the conquered, from immigrants and from people who have fought to end immigration. "A nation born in contradiction will fight forever over the meaning of its*

history," Lepore writes, but engaging in that struggle by studying the past is part of the work of citizenship. "The past is an inheritance, a gift and a burden," These Truths observes. "It can't be shirked. There's nothing for it but to get to know it." A guide to 50 hikes and trails in the Keystone State.
