At twenty, he dropped out of college to pursue business full-time. At twenty-one, he was homeless and deeply in debt, living out of his car. It was then that he made a life-changing decision to re-invent himself and his career. By twenty-nine, Matt was a self-made millionaire. How did he do it? In *The Unemployed Millionaire*, Morris reveals how he turned his life around and shatters the myth that it takes money to make money. Thanks to the Internet explosion and the ease of global trade, it is possible for anyone to start a business and market their products worldwide to millions of customers. Here, Morris unlocks the secrets and provides you with the specific moneymaking formula he used to turn his ideas into a fortune. Equips you with a step-by-step formula for turning your great idea into a million-dollar business in as little as twelve months Proves you don't have to be smart, lucky, or rich to make millions Gives you the specific success principles all millionaires follow Author Matt Morris is an internationally recognized speaker who selectively mentors other entrepreneurs, traveling the world, working very little, and earning millions in the process With a foreword by Les Brown, motivational speaker, bestselling author, and television personality If you're serious about earning millions without working your fingers to the bone, *The Unemployed Millionaire* gives you the powerful strategies needed to turn your dreams into a reality. *Richer Than A Millionaire A Pathway to True Prosperity* Having taught thousands of students over our careers, it is clear to the authors that many young people are clueless about their direction in life. Yes, they want a career, and yes, they want a good life, but knowing what to do is to many quite a challenge. Some say they want to be rich, but they really don't know what that means. In a sense, to paraphrase the Italian Renaissance polymath Leonardo da Vinci, many are like ships on the high seas of life without rudders! They have tremendous potential but no direction. In our book, *Richer Than A Millionaire A Pathway to True Prosperity*, we hope to inspire and to point all people (but especially young adults and concerned parents and grandparents who want sound advice for the next generation) in what we believe is the right direction. This direction has been reinforced by over forty years of academic and consulting research on what it really means to be rich. Our approach relies heavily on tried-and-true social science research methods of personal interviews and large-scale

structured surveys. In other words, we have more than our personal opinions to offer. While there are many self-help books about wealth or happiness, we believe our book is unique in that it combines these topics. We show that it is possible to be modestly wealthy and happy. In order to reach true prosperity- health, happiness, and wealth, in all likelihood behavior modification will be required. And change is hard. Benjamin Franklin understood this, as he concluded in The Way to Wealth essay 250 years ago: the people heard the advice, agreed with it, and then practiced the contrary. If you're ready to take the journey to wealth and personal fulfillment, here's your ticket. In this life-changing little book, entrepreneur and inspirational speaker Keith Cameron Smith shows you how to think like a millionaire and reap the benefits of a millionaire mindset. The key to moving beyond the middle class and up the economic ladder is mastering ten vital principles, including

- Millionaires think long-term. The middle class thinks short-term. Create a clear vision of the life you desire, and focus on it.
- Millionaires talk about ideas. The middle class talks about things and other people. Ask some positive "what if" questions every day, and bounce ideas off successful people who will be honest with you.
- Millionaires work for profits. The middle class works for wages. Take calculated risks and learn to take advantage of good opportunities. We all want to improve our financial position. In this inspirational and practical guide filled with savvy and sensible advice, Smith upgrades you from coach to first class. So follow these principles, transform your life, and realize your dreams!

Secrets of the Millionaire Mind reveals the missing link between wanting success and achieving it! Have you ever wondered why some people seem to get rich easily, while others are destined for a life of financial struggle? Is the difference found in their education, intelligence, skills, timing, work habits, contacts, luck, or their choice of jobs, businesses, or investments? The shocking answer is: None of the above! In his groundbreaking Secrets of the Millionaire Mind, T. Harv Eker states: "Give me five minutes, and I can predict your financial future for the rest of your life!" Eker does this by identifying your "money and success blueprint." We all have a personal money blueprint ingrained in our subconscious minds, and it is this blueprint, more than anything, that will determine our financial lives. You can know everything about marketing, sales, negotiations, stocks, real estate, and the world of finance, but if your money blueprint is not set for a high level of success, you will never have a lot of money—and if somehow you do, you will most likely lose it! The good news is that now you can actually reset your money blueprint to create natural and automatic success. Secrets of the Millionaire Mind is two books in one. Part I explains how your money blueprint works. Through Eker's rare combination of street smarts, humor, and heart, you will learn how your childhood influences have shaped your financial destiny. You will also learn how to identify your own money blueprint and "revise" it to not only create success but, more important, to keep and continually grow it. In Part II you will be introduced to seventeen "Wealth Files," which describe exactly how rich people think and act differently than most poor and middle-class people. Each Wealth File includes action steps for you to practice in the real world in order to dramatically increase your income and accumulate wealth. If you are not doing as well financially as you would like, you will have to change your money blueprint. Unfortunately your current money blueprint will tend to stay with you for the rest of your life, unless you identify and revise it, and that's exactly what you will do with the help of this extraordinary book. According to T. Harv Eker, it's simple. If you think like rich people think and do what rich people do, chances are you'll get rich too! In a unique business fable, a wise, old millionaire counsels an eager young man through practical, ready-to-implement lessons that reveal ideas and actions that can give anyone the mentality of a millionaire. Original. Trading is a battle between you and the market. And while you might not be a financial professional, that doesn't mean you can't win this battle. Through interviews with twelve ordinary individuals who have worked hard to transform themselves into extraordinary traders, Millionaire Traders reveals how you can beat Wall Street at its own game. Filled with in-depth insights and practical advice, this book introduces you to a dozen successful traders-some who focus on equities, others who deal in futures or foreign exchange-and examines the paths they've taken to capture considerable profits. A billionaire's wallet, a bizarre challenge, and an unlikely friendship send two kids on a wild adventure. From the author of *The Miscalculations of Lightning Girl*. Felix Rannells and Benji Porter were never supposed to be field-trip partners. Felix is a rule follower. Benji is a rule bender. They're not friends. And they don't have anything to talk about. Until . . . They find a wallet. A wallet that belongs to tech billionaire Laura Friendly. They're totally going to return it-but not before Benji "borrows" twenty dollars to buy hot dogs. Because twenty dollars is like a penny to a billionaire, right? But a penny has value. A penny doubled every day for thirty days is \$5,368,709.12! So that's exactly how much money Laura Friendly challenges Felix and Benji to spend. They have thirty days. They can't tell anyone. And there are LOTS of other rules. But if they succeed, they each get ten million dollars to spend however they want. Challenge accepted! They rent cool cars, go to Disney World, buy pizza for the whole school-and that's just the beginning! But money can't buy everything or fix every problem. And spending it isn't always as easy and fun as they thought it would be. . . . As smart as it is entertaining, *Millionaires for the Month* is a thought-provoking story about friendship, privilege, and the value of a penny. The grandson of slaves, born into poverty in 1892 in the Deep South, A. G. Gaston died more than a century later with a fortune worth well over \$130 million and a business empire spanning communications, real estate, and insurance. Gaston was, by any measure, a heroic figure whose wealth and influence bore comparison to J. P. Morgan and Andrew Carnegie. Here, for the first time, is the story of the life of this extraordinary pioneer, told by his niece and grandniece, the award-winning television journalist Carol Jenkins and her daughter Elizabeth Gardner Hines. Born at a time when the bitter legacy of slavery and Reconstruction still poisoned the lives of black Americans, Gaston was determined to make a difference for himself and his people. His first job, after serving in the celebrated all-black regiment during World War I, bound

him to the near-slavery of an Alabama coal mine—but even here Gaston saw not only hope but opportunity. He launched a business selling lunches to fellow miners, soon established a rudimentary bank—and from then on there was no stopping him. A kind of black Horatio Alger, Gaston let a single, powerful question be his guide: What do our people need now? His success flowed from an uncanny genius for knowing the answer. Combining rich family lore with a deep knowledge of American social and economic history, Carol Jenkins and Elizabeth Hines unfold Gaston’s success story against the backdrop of a century of crushing racial hatred and bigotry. Gaston not only survived the hardships of being black during the Depression, he flourished, and by the 1950s he was ruling a Birmingham-based business empire. When the movement for civil rights swept through the South in the late 1950s and early 1960s, Gaston provided critical financial support to many activists. At the time of his death in 1996, A. G. Gaston was one of the wealthiest black men in America, if not the wealthiest. But his legacy extended far beyond the monetary. He was a man who had proved it was possible to overcome staggering odds and make a place for himself as a leader, a captain of industry, and a far-sighted philanthropist. Writing with grace and power, Jenkins and Hines bring their distinguished ancestor fully to life in the pages of this book. Black Titan is the story of a man who created his own future—and in the process, blazed a future for all black businesspeople in America. The incredible story of how a schoolteacher built a million-dollar portfolio, and how you can too Most people wouldn't expect a schoolteacher to amass a million-dollar investment account. But Andrew Hallam did so, long before the typical retirement age. And now, with Millionaire Teacher, he wants to show you how to follow in his footsteps. With lively humor and the simple clarity you'd expect from a gifted educator, Hallam demonstrates how average people can build wealth in the stock market by shunning the investment products peddled by most financial advisors and avoiding the get-rich-quicker products concocted by an ever widening, self-serving industry. Using low cost index funds, coupled with a philosophy in line with the one that made Warren Buffett a multi-billionaire, Hallam guides readers to understand how the stock and bond markets really work, arming you with a psychological advantage for when markets fall. Shows why young investors should hope for stock market crashes if they want to get rich Explains how you can spend just 60 minutes a year on your investments, never open a financial paper, avoid investment news, and still leave most professional investors in the dust Promotes a unique new investment methodology that combines low cost index funds and a Warren Buffett-esque investment philosophy Millionaire Teacher explains how any middle-income individual can learn can learn the ABCs of personal finance and become a multi-millionaire, from a schoolteacher who has been there and done that. The New York Times–bestselling author of The Millionaire Next Door reveals the spending and saving habits of financially successful women. Millionaire Women Next Door presents a variety of groundbreaking concepts involving the personality, lifestyle, motives, beliefs, and spending habits of economically successful American businesswomen. Most of these women report being raised in nurturing family environments. They were trained not only to succeed financially but also to be generous in giving to noble causes. Stanley asks, “How did these businesswomen become millionaires? They did it by doing more of the key activities and achieving better results than most of their male counterparts.” Praise for Thomas J. Stanley’s The Millionaire Mind “A very good book that deserves to be well read.” —The Wall Street Journal “Worth every cent . . . It’s an inspiration for anyone who has ever been told that he wasn’t smart enough or good enough.” —Associated Press “A high IQ isn’t necessarily an indicator of financial success . . . Stanley tells us that the typical millionaire had an average GPA and frugal spending habits—but good interpersonal skills.” —Entertainment Weekly “Ideas bigger than the next buck.” —Orlando Sentinel On the death of France's most glorious king, Louis XIV, in 1715, few people benefited from the shift in power more than the intriguing financial genius from Edinburgh, John Law. Already notorious for killing a man in a duel and for acquiring a huge fortune from gambling, Law had proposed to the English monarch that a bank be established to issue paper money with the credit based on the value of land. But Queen Anne was not about to take advice from a gambler and felon. So, in exile in Paris, he convinced the bankrupt court of Louis XV of the value of his idea. Law soon engineered the revival of the French

economy and found himself one of the most powerful men in Europe. In August 1717, he founded the Mississippi Company, and the Court granted him the right to trade in France's vast territory in America. The shareholders in his new trading company made such enormous profits that the term "millionaire" was coined to describe them. Paris was soon in a frenzy of speculation, conspiracies, and insatiable consumption. Before this first boom-and-bust cycle was complete, markets throughout Europe crashed, the mob began calling for Law's head, and his visionary ideas about what money could do were abandoned and forgotten. In *Millionaire*, Janet Gleeson lucidly reconstructs this epic drama where fortunes were made and lost, paupers grew rich, and lords fell into penury -- and a modern fiscal philosophy was born. Her enthralling tragicomic tale reveals two great characters: John Law, with his complex personality and inscrutable motives, and money itself, whose true nature even to this day remains elusive.

10TH ANNIVERSARY EDITION Is the financial plan of mediocrity -- a dream-stealing, soul-sucking dogma known as "The Slowlane" your plan for creating wealth? You know how it goes; it sounds a lil something like this: "Go to school, get a good job, save 10% of your paycheck, buy a used car, cancel the movie channels, quit drinking expensive Starbucks mocha lattes, save and penny-pinch your life away, trust your life-savings to the stock market, and one day, when you are oh, say, 65 years old, you can retire rich." The mainstream financial gurus have sold you blindly down the river to a great financial gamble: You've been hoodwinked to believe that wealth can be created by recklessly trusting in the uncontrollable and unpredictable markets: the housing market, the stock market, and the job market. This impotent financial gamble dubiously promises wealth in a wheelchair -- sacrifice your adult life for a financial plan that reaps dividends in the twilight of life. Accept the Slowlane as your blueprint for wealth and your financial future will blow carelessly asunder on a sailboat of HOPE: HOPE you can find a job and keep it, HOPE the stock market doesn't tank, HOPE the economy rebounds, HOPE, HOPE, and HOPE. Do you really want HOPE to be the centerpiece for your family's financial plan? Drive the Slowlane road and you will find your life deteriorate into a miserable exhibition about what you cannot do, versus what you can. For those who don't want a lifetime subscription to "settle-for-less" and a slight chance of elderly riches, there is an alternative; an expressway to extraordinary wealth that can burn a trail to financial independence faster than any road out there. Why jobs, 401(k)s, mutual funds, and 40-years of mindless frugality will never make you rich young. Why most entrepreneurs fail and how to immediately put the odds in your favor. The real law of wealth: Leverage this and wealth has no choice but to be magnetized to you. The leading cause of poorness: Change this and you change everything. How the rich really get rich - and no, it has nothing to do with a paycheck or a 401K match. Why the guru's grand deity - compound interest - is an impotent wealth accelerator. Why the guru myth of "do what you love" will most likely keep you poor, not rich. And 250+ more poverty busting distinctions...

Demand the Fastlane, an alternative road-to-wealth; one that actually ignites dreams and creates millionaires young, not old. Change lanes and find your explosive wealth accelerator. Hit the Fastlane, crack the code to wealth, and find out how to live rich for a lifetime. Through powerful practices, compelling stories and extensive research, *The Mindful Millionaire* meets you wherever you are in your money journey by exploring:

- How to break the cycle of fear, grief, and shame that often surrounds your money habits.
- How to write a new money story that inspires joy, satisfaction and prosperity.

know that by age 65...10% of Americans will be DEAD, 23% will be BROKE, and 37% will be DEAD BROKE? Meanwhile, others are taking charge of their lives. They are unseen, unheard, and unafraid. They are "The Neighborhood Millionaires." This is the book that will keep you from becoming another statistic and give you a path to financial security. Most people know that there are 70 million Baby Boomers in America today...but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in *Millionaire by Thirty*, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.

In this fresh and original book T. Harv Eker explains how you too can master the inner game of money so that you will not only achieve financial success but keep it once you have it. Using breakthrough techniques T. Harv Eker shows you how childhood and family experiences and inner mental attitudes shape your view of money. Each of us has a personal money and success blueprint already ingrained in our subconscious minds, and it is this blueprint that will determine the course of our financial lives. Eker reveals: Powerful 'declarations' that drive new, money-attracting beliefs into your subconscious; Dozens of high-income and wealth creation strategies; What truly wealthy people know that others do not; The cause of almost all financial problems; How to earn passive income, so that readers can make money while they sleep. Armed with insights provided in this book, you can begin taking action to transform your financial self, quickly and permanently. "Why aren't I as wealthy as I should be?" Many people ask this question of themselves all the time. Often they are hard-working, well educated middle- to high-income people. Why, then, are so few affluent. For nearly two decades the answer has been found in the bestselling *The Millionaire Next Door: The Surprising Secrets of America's Wealthy*, reissued with a new foreword for the twenty-first century by Dr. Thomas J. Stanley. According to the authors, most people have it all wrong about how you become wealthy in America. Wealth in America is more often the result of hard work, diligent savings, and living below your means than it is about inheritance, advanced degrees, and even intelligence. *The Millionaire Next Door* identifies seven common traits that show up again and again among those who have accumulated wealth. You will learn, for example, that millionaires bargain shop for used cars, pay a tiny fraction of their wealth in income tax, raise children who are often unaware of their family's wealth until they are adults, and, above all, reject the big-spending lifestyles most of us associate with rich people. In fact, you will learn that the flashy millionaires glamorized in the media represent only a tiny minority of America's rich. Most of the truly wealthy in this country don't live in Beverly Hills or on Park Avenue—they live next door. The author answers questions most commonly asked of millionaires and gives examples of how you can make a million dollars in one generation. Dedicated to a reality in which every woman has at least seven zeros in her bank account, author and experienced entrepreneur Rachel Rodgers offers this pull-no-punches guide for women to wield economic power—how real change is created. From two leaders of the FIRE (Financial Independence, Retire Early) movement, a bold, contrarian guide to retiring at any age, with a reproducible formula to financial independence.
