**Margaret and the Moon** Feb 04 2021 A true story from one of the Women of NASA! Margaret Hamilton loved numbers as a young girl. She knew how many miles it was to the moon (and how many back). She loved studying algebra and geometry and calculus and using math to solve problems in the outside world. Soon math led her to MIT and then to helping NASA put a man on the moon! She handwrote code that would allow the spacecraft's computer to solve any problems it might encounter. Apollo 8. Apollo 9. Apollo 10. Apollo 11. Without her code, none of those missions could have been completed. Dean Robbins and Lucy Knisley deliver a lovely portrayal of a pioneer in her field who never stopped reaching for the stars.

**The Lost Girls: Why a feminist revolution in education benefits everyone** Mar 20 2022 Life for girls is a battle of contrasting expectations, being told you should be 'empowered' but also be a 'good girl', putting others first but still striving for perfection yourself. This conflict, internalizing expectations of an impossible standard, has led to an explosion in mental-health

and anxiety-related disorders in young women. The traditional narrative of education feeds the perception that girls are good. They achieve, work hard, are co-operative. They achieve better grades. But where do these high achievers disappear to? They aren't becoming CEOs, politicians or social leaders. Women are still disproportionately the family carers and domestic managers. This book explores: \* research around biological difference, and how our schools encode gendered expectations. \* how our curricula can provide role-models as well as modes of thinking, valuing traditionally feminine traits as equal to masculine \* using psychological approaches to develop girls' independence. \* how school systems and leadership can model approaches to encourage all students to create a gender-balanced environment. With practical questions and suggestions at the end of each chapter, this book is a guide to the research and a tool to help teachers and leaders shape a genuinely empowering school experience for young women.

*Gothic for Girls* Oct 15 2021 Winner of the 2019 Broken Frontier Award for Best Book on Comics Today fans still remember and love the British girls' comic *Misty* for its bold visuals and narrative complexities. Yet its unique history has drawn little critical attention. Bridging this scholarly gap, Julia Round presents a comprehensive cultural history and detailed discussion of the comic, preserving both the inception and development of this important publication as well as its stories. *Misty* ran for 101 issues as a stand-alone publication between 1978 and 1980 and then four more years as part of *Tammy*. It was a hugely successful anthology comic containing one-shot and serialized stories of supernatural horror and fantasy aimed at girls and young women and featuring work by writers and artists who dominated British comics such as Pat Mills, Malcolm Shaw, and John Armstrong, as well as celebrated European artists. To this day, *Misty* remains notable for its daring and sophisticated stories, strong female characters, innovative page layouts, and big visuals. In the first book on this topic, Round closely analyzes *Misty's* content, including its creation and production, its cultural and historical context, key influences, and the comic itself. Largely based on Round's own archival research, the study also draws on interviews with many of the key creators involved in this comic, including Pat Mills, Wilf Prigmore, and its art editorial team Jack Cunningham and Ted Andrews, who have never previously spoken

about their work. Richly illustrated with previously unpublished photos, scripts, and letters, this book uses Misty as a lens to explore the use of Gothic themes and symbols in girls' comics and other media. It surveys existing work on childhood and Gothic and offers a working definition of Gothic for Girls, a subgenre which challenges and instructs readers in a number of ways.

Girl Up Apr 08 2021 Already an international bestseller, this empowering survival guide provides no-nonsense advice on sex, social media, mental health, and sexism that young women face in their everyday life—from one of the emerging leaders in the feminist movement. They told you that you need to be thin and beautiful. They told you to wear longer skirts, avoid going out late at night, and move in groups—never accept drinks from a stranger, and wear shoes you can run in more easily than heels. They told you to wear just enough make-up to look presentable but not enough to be a slut; to dress to flatter your apple, pear, hourglass figure, but not to reveal too much. They warned you that if you try to be strong, or take control, you'll be shrill, bossy, a ballbreaker. Of course it's fine for the boys, but you should know your place. They told you "that's not for girls"—"take it as a compliment"—"don't rock the boat"—"that'll go straight to your hips." They told you "beauty is on the inside," but you knew they didn't really mean it. Well, screw that. Laura Bates is here to tell you something else. Hilarious, bold, and unapologetic, Girl Up exposes the truth about the pressures surrounding body image, the false representations in media, the complexities of sex and relationships, the trials of social media, and all the other lies society has told us. Praise for Girl Up "In Girl Up, Laura Bates has given women of every age a fast, frank, seductively readable guide to surviving in the time of social media, impossible body images, feminist hopes, internalizing fault, standing up for ourselves and each other, and yes, confronting Donald Trump. She leaves no doubt about what consent is, where the clitoris is, what our rights are, and what our hopes could be. This is an

owner's guide to our world and our bodies. It will definitely save sanity, and might save lives." —Gloria Steinem "Girl Up is an essential compendium of wit, wisdom, advice, and straight-talk. They should give out copies in the delivery room every time another girl enters the world. Or a boy, for that matter—they ought to be reading Girl Up too." —Sarah Knight, bestselling author of *The Life-Changing Magic of Not Giving a F\*ck* "This is the book young women need—one that teaches them about the anatomy of their vulva instead of how to impress their crush. While many of the topics covered are still relevant to me now, I really wish I'd had this book as a young adult." —Beth Newell, editor/cofounder of Reductress

Into the Water Feb 25 2020 #1 NEW YORK TIMES BESTSELLER  
GOODREADS CHOICE AWARD WINNER FOR

MYSTERY/THRILLER An addictive novel of psychological suspense from the author of #1 New York Times bestseller and global phenomenon *The Girl on the Train* and *A Slow Fire Burning*. "Hawkins is at the forefront of a group of female authors . . . who have reinvigorated the literary suspense novel by tapping a rich vein of psychological menace and social unease... there's a certain solace to a dark escape, in the promise of submerged truths coming to light." —Vogue A single mother turns up dead at the bottom of the river that runs through town. Earlier in the summer, a vulnerable teenage girl met the same fate. They are not the first women lost to these dark waters, but their deaths disturb the river and its history, dredging up secrets long submerged. Left behind is a lonely fifteen-year-old girl. Parentless and friendless, she now finds herself in the care of her mother's sister, a fearful stranger who has been dragged back to the place she deliberately ran from—a place to which she vowed she'd never return. With the same propulsive writing and acute understanding of human instincts that captivated millions of

readers around the world in her explosive debut thriller, *The Girl on the Train*, Paula Hawkins delivers an urgent, twisting, deeply satisfying read that hinges on the deceptiveness of emotion and memory, as well as the devastating ways that the past can reach a long arm into the present. Beware a calm surface—you never know what lies beneath.

**Economic Woman** Oct 22 2019 The author introduces the concept of economic woman and makes her visible in duality with and opposition to the exclusive model of economic man. Economic man has epitomized neo-liberal capitalism, which embraces competition and maximization of profit, resulting in a steep increase in economic inequality. The book demonstrates that women's inequality is a crucial factor in economic inequality, which cannot be fully understood without relating to women's situation, and that economic woman cannot thrive in the conditions of economic inequality created under global neo-liberalism. Emphasising the international human rights guarantees of women's right to equality in all fields of life, the author documents woman's increased participation in political, public, financial and corporate institutions, employment and entrepreneurship, with some women reaching high profile positions. Nevertheless, using global data, she reveals that economic woman lags behind, with a severe economic power deficit, an unfulfilled promise of equal employment opportunity, a gendered impact of poverty and barriers to gender equality in the family. The book analyses the trap of women's increased burden of breadwinning in the context of discriminatory laws and practices, infrastructural failures and policy gaps, which preempt achievement of gender equality in economic life. The book is intended for the general reader, academics, students, policy makers and NGOs. It shows economic woman at a global crossroads between a universal paradigm of gender equality and pervasive barriers to equal economic opportunity. The author demonstrates that tackling gender inequality, restoring welfare

priorities and reducing economic inequality are inextricably linked. Human rights and governments have a vital role to play in addressing them all, to create a sustainable economic infrastructure for the lives of women and men.

*Michelle Obama's Impact on African American Women and Girls* Dec 05 2020 This edited collection explores how First Lady

Michelle Obama gradually expanded and broadened her role by engaging in social, political and economic activities which directly and indirectly impacted the lives of the American people, especially young women and girls. The volume responds to the various representations of Michelle Obama and how the language and images used to depict her either affirmed, offended, represented or misrepresented her and its authors. It also examines her political activities during and post-election 2016.

**New Forms of Self-Narration** Jun 30 2020 This book is a timely study of young women's life writing as a form of human rights activism. It focuses on six young women who suffered human rights violations when they were girls and have gone on to become activists through life writing: Malala Yousafzai, Hyeonseo Lee, Yeonmi Park, Bana Alabed, Nujeen Mustafa, and Nadia Murad. Their ongoing life-writing projects diverge to some extent, but all share several notable features: they claim a testimonial collective voice, they deploy rights discourse, they excite humanitarian emotions, they link up their context-bound plight with bigger social justice causes, and they use English as their vehicle of self-expression and self-construction. This strategic use of English is of vital importance, as it has brought them together as icons in the public sphere within the last six years. *New Forms of Self-Narration* is the first ever attempt to explore all these activists' life-writing texts side by side, encompassing both the written and the audiovisual material, online and offline, and taking all texts as belonging to a unique, single, though multifaceted, project.

Racism and Psychiatry Dec 17 2021 This book addresses the unique sociocultural and historical systems of oppression that have alienated African-American and other racial minority patients within the mental healthcare system. This text aims to

build a novel didactic curriculum addressing racism, justice, and community mental health as these issues intersect clinical practice. Unlike any other resource, this guide moves beyond an exploration of the problem of racism and its detrimental effects, to a practical, solution-oriented discussion of how to understand and approach the mental health consequences with a lens and sensitivity for contemporary justice issues. After establishing the historical context of racism within organized medicine and psychiatry, the text boldly examines contemporary issues, including clinical biases in diagnosis and treatment, addiction and incarceration, and perspectives on providing psychotherapy to racial minorities. The text concludes with chapters covering training and medical education within this sphere, approaches to supporting patients coping with racism and discrimination, and strategies for changing institutional practices in mental healthcare. Written by thought leaders in the field, *Racism and Psychiatry* is the only current tool for psychiatrists, psychologists, administrators, educators, medical students, social workers, and all clinicians working to treat patients dealing with issues of racism at the point of mental healthcare.

**Dust Bowl Girls** Jan 06 2021 “Thrilling, cinematic . . . I loved every minute I spent with the bold, daring women of the Cardinals basketball team . . . The stuff of American legend” (Karen Abbott, New York Times–bestselling author). The Boys in the Boat meets A League of Their Own in this true story of a Depression-era championship women’s team. During the drought and financial crisis of the 1930s, Oklahoma basketball coach Sam Babb traveled from farm to farm recruiting talented, hardworking young women and offering them a chance at a better life: a free college education in exchange for playing on his basketball team, the Cardinals. And as Babb coached the Cardinals, something extraordinary happened. These remarkable athletes found a passion for the game and a heartfelt loyalty to one another and their coach—and they began to win. Combining exhilarating sports writing and exceptional storytelling, Dust Bowl Girls takes readers on the Cardinals’ intense, improbable journey all the way to an epic showdown with the prevailing national champions, helmed by the legendary Babe Didrikson. Lydia Reeder captures a moment in history when female athletes faced intense scrutiny from influential figures in politics, education, and medicine who denounced women’s sports as unhealthy and unladylike. At a time

when a struggling nation was hungry for inspiration, this unlikely group of trailblazers achieved much more than a championship season. “A compelling, heartwarming story of a group of college students determined to accomplish the impossible. This is a book you can’t put down.” —The Denver Post “[A] great sports story about an underdog whose triumphs inspired a community that badly needed a lift in the midst of hard economic times. I can’t wait for the movie.” —The Oklahoman
