Ten Days In A Mad-House - Illustrated Edition Jan 29 2023 On the 22d of September I was asked by the World if I could have myself committed to one of the asylums for the insane in New York, with a view to writing a plain and unvarnished narrative of the treatment of the patients therein and the methods of management, etc. Did I think I had the courage to go through such an ordeal as the mission would demand? Could I assume the characteristics of insanity to such a degree that I could pass the doctors, live for a week among the insane without the authorities there finding out that I was only a "chiel amang 'em takin' notes?" I said I believed I could. I had some faith in my own ability as an actress and thought I could assume insanity long enough to accomplish any mission intrusted to me. Could I pass a week in the insane ward at Blackwell's Island? I said I could and I would. And I did. - Taken from "Ten Days In A Mad-House" written by Nellie Bly

This volume, the only printed and edited collection of Bly's writings, includes her best known works—Ten Days in a Mad-House, Six Months in Mexico, and

Around the World in Seventy-Two Days—as well as many lesser known pieces that capture the breadth of her career from her fierce opinion pieces to her remarkable World War I reporting. Profusely Illustrated Nov 22 2019 The fabulous life and times of one of our wittiest, most endearing and enduring caricaturists—in his own words and inimitable art. Sorel has given us "some of the best pictorial satire of our time ... [his] pen can slash as well as any sword" (The Washington Post). Alongside more than 172 of his drawings, cartoons, and caricatures—and in prose as spirited and wickedly pointed as his artwork—Edward Sorel gives us an unforgettable self-portrait: his poor Depression-era childhood in the Bronx (surrounded by loving Romanian immigrant grandparents and a clan of mostly left-leaning aunts and uncles); his first stabs at drawing when pneumonia kept him out of school at age eight; his time as a student at New York's famed High School of Music and Art; the scrappy early days of Push Pin Studios, founded with fellow Cooper Union alums Milton Glaser and Seymour Chwast, which became the hottest design group of the 1960s; his two marriages and four children; and his many friends in New York's

art and literary circles. As the “young lefty” becomes an “old lefty,” Sorel charts the highlights of his remarkable life, by both telling us and showing us how in magazines and newspapers, books, murals, cartoons, and comic strips, he steadily lampooned—and celebrated—American cultural and political life. He sets his story in the parallel trajectory of American presidents, from FDR’s time to the present day—with the candor and depth of insight that could come only from someone who lived through it all. In *Profusely Illustrated*, Sorel reveals the kaleidoscopic ways in which the personal and political collide in art—a collision that is simultaneously brilliant in concept and uproarious and beautiful in its representation.

Ten Days in a Mad-House Oct 26 2022 Ten Days In a Mad-House: Illustrated Paperback - Illustrated, December 2, 2015 by Nellie Bly Ten Days In a Mad-House (1887) by Nellie Bly. Nellie Bly, whose given name was Elizabeth Jane Cochran, was a pio-neer of investigative journalism. She died in 1922. Of her many exposé assignments for Joseph Pulitzer's NEW YORK WORLD, her voluntary (and undercover) journey into the "lunatic asylum" on Blackwell's (now Roosevelt) Island is perhaps the most well known. In previous chapters of the series, she has (without much difficulty) fooled various doctors and authorities into deeming her insane and admitting her to the asylum, which is located on an island just east of Manhattan. "SINCE my experiences in Blackwell's Island Insane Asylum were published in the World I have received hundreds of letters in regard to it. The edition containing my story long since ran out, and I have been prevailed upon to allow it to be published in book form, to satisfy the hundreds who are yet asking for copies." We are

Ten Days In a Mad-House Dec 16 2021 "She went undercover to expose an insane asylum's horrors. Now Nellie Bly is getting her due." — Diane Bernard, The Washington Post "It is only after one is in trouble that one realizes how little sympathy and kindness there are in the world." Ten Days in a Mad-House is a book by American journalist Nellie Bly. It was initially published as a series of articles for the New York World; Bly later compiled the articles into a book, being published by Ian L. Munro in New York City in 1887. The book was based on articles written while Bly was on an undercover assignment for the New York World, feigning insanity at a women's boarding house, so as to

be involuntarily committed to an insane asylum. She then investigated the reports of brutality and neglect at the Women's Lunatic Asylum on Blackwell's Island. The book received acclaim from critics at the time.

Accumulation of her reportage and the release of her content brought her fame and led to a grand jury investigation and financial increase in the Department of Public Charities and Corrections. A True Classic that Belongs on Every Bookshelf!

Into The Madhouse Jul 11 2021 "PLUCKY NELLIE BLY!"  
"No young writer has ever leaped into such sudden fame in New York as Miss Nellie Bly, who did that lunatic asylum exposure for the New York World. She is a bright, handsome young lady, less than twenty years old, who came to the metropolis from Pittsburg a few months ago, and pluckily undertook to make her living by newspaper work in the great city. She deceived the expert physicians who examined her, and pronouncing her insane they consigned her to one of the insane wards of Blackwell's Island, where she dwelt among horrors for ten days, noting down in her quick brain all that she saw and heard. The old song says: "Nellie Bly, shuts her eye When she goes to sleep," but she seems never to have closed a peeper during the whole of that trying ordeal. Her narrative of the horrors of the place—the indifference of doctors, the neglect and cruelty of the nurses and the tortures inflicted upon the unfortunates, is told in a plain, straightforward manner and attests at once to her humanity and truth." -

November, 1887 This volume collects for the first time

With a foreword by David Blixt, author of What Girls Are Good For: A Novel Of Nellie Bly, The Master Of Verona, and Her Majesty's Will.

The Incredible Nellie Bly Nov 03 2020 A visual biography of the groundbreaking investigative journalist Born in 1864, Nellie Bly was a woman who did not allow herself to be defined by the time she lived in, she rewrote the narrative and made her own way. Luciana Cimino's meticulously researched graphic-novel biography tells Bly's story through Miriam, a fictionalized female student at the Columbia School of Journalism in 1921. While interviewing the famous journalist, Miriam learns not only about Bly's more sensational adventures, but also about her focus on self-reliance from an early age, the scathing letter to the editor that jump-started her career as a newspaper columnist, and her dedication to the empowerment of women. In fact, in 1884, Bly was one of the few journalists who interviewed Belva Ann Lockwood, who was the first woman candidate for a presidential

election—a contest that was ultimately won by Grover Cleveland—and Bly predicted correctly that women would not get the vote until 1920. Of course Bly's most well-known exploits are also covered—how she pretended to be mad in order to get institutionalized so she could carry out an undercover investigation in an insane asylum, and Bly's greatest feat of all, her journey around the world in 72 days—alone—which was unthinkable for a woman in the late 19th century. As Miriam learns more of Bly's story, she realizes that the most important stories are necessarily the ones with the most dramatic headlines, but the ones that, in Nellie's words, "come from a deep feeling." This beautifully executed graphic novel paints a portrait of a woman who defied societal expectations—not only with her investigative journalism, but with her keen mind for industry, and her original inventions.

Ten Days in a Mad-House; Or, Nellie Bly's Experience on Blackwell's Island (Illustrated Edition) Mar 07 2021 Nellie Bly was the pen name of Elizabeth Cochran Seaman (1864-1922), an American journalist who was widely known for her record-breaking trip around the world in 72 days and for her undercover work to report on a mental institution from within. A pioneer in her field, she launched a new kind of investigative journalism, and was also a writer, inventor and industrialist. She entered on her career in journalism when a letter she wrote to the Pittsburgh Dispatch caught the editor's eye and he soon offered her a regular column to be written under the name of Nellie

Bly. Her early work included a series of investigative articles on women factory workers but when the paper received complaints from factory owners she was reassigned to the women's pages to cover topics like fashion and society with which she soon became disenchanted. In 1885, aged only 21, she travelled to Mexico to serve as foreign correspondent, spending half a year reporting on the lives and customs of the people, and her dispatches were later published in book form as *Six Months in Mexico* (1888). In 1887 she left the *Pittsburgh Dispatch* and headed for New York where she took on an undercover assignment for Joseph Pulitzer's *New York World*, agreeing to feign insanity in order to gain entry into the Women's Lunatic Asylum on Blackwell's Island and investigate reports of brutality and neglect. The results of her investigation first appeared as a series of articles which later the same year were published in book form bringing her critical acclaim and also leading to a grand jury investigation which brought about an increase in budget for the Dept of Public Charities and Corrections.

Around the World in Seventy-Two Days Jan 17 2022

"She was part of the 'stunt girl' movement that was very important in the 1880s and 1890s as these big, mass-circulation yellow journalism papers came into the fore." -Brooke Kroeger

*Around the World in Seventy-Two Days* (1890) is a travel narrative by American investigative journalist Nellie Bly. Proposed as a recreation of the journey undertaken by Phileas Fogg in Jules Verne's *Around the World in Eighty Days*

(1873), Bly's journey was covered in Joseph Pulitzer's popular newspaper the New York World, inspiring countless others to attempt to surpass her record. At the time, readers at home were encouraged to estimate the hour and day of Bly's arrival, and a popular board game was released in commemoration of her undertaking. Embarking from Hoboken, noted investigative journalist Nellie Bly began a voyage that would take her around the globe. Bringing only a change of clothes, money, and a small travel bag, Bly travelled by steamship and train through England, France—where she met Jules Verne—Italy, the Suez Canal, Ceylon, Singapore, Hong Kong, and Japan. Sending progress reports via telegraph, she made small reports back home while recording her experiences for publication upon her return. Despite several setbacks due to travel delays in Asia, Bly managed to beat her estimated arrival time by several days despite making unplanned detours, such as visiting a Chinese leper colony, along the way. Unbeknownst to Bly, her trip had inspired Cosmopolitan's Elizabeth Briland to make a similar circumnavigation beginning on the exact day, launching a series of copycat adventures by ambitious voyagers over the next few decades. Despite being surrounded by this air of popularity and competition, however, Bly took care to make her journey worthwhile, showcasing her skill as a reporter and true pioneer of investigative journalism. With a beautifully designed cover and professionally typeset manuscript,

this edition of Nellie Bly's *Around the World in Seventy-Two Days* is a classic work of American travel literature reimagined for modern readers.

The Madhouse Effect Oct 14 2021 The award-winning climate scientist Michael E. Mann and the Pulitzer Prize-winning political cartoonist Tom Toles have been on the front lines of the fight against climate denialism for most of their careers. They have witnessed the manipulation of the media by business and political interests and the unconscionable play to partisanship on issues that affect the well-being of billions. The lessons they have learned have been invaluable, inspiring this brilliant, colorful escape hatch from the madhouse of the climate wars. The Madhouse Effect portrays the intellectual pretzels into which denialists must twist logic to explain away the clear evidence that human activity has changed Earth's climate. Toles's cartoons collapse counter-scientific strategies into their biased components, helping readers see how to best strike at these fallacies. Mann's expert skills at science communication aim to restore sanity to a debate that continues to rage against widely acknowledged scientific consensus. The synergy of these two climate science crusaders enlivens the gloom and doom of so many climate-themed books—and may even convert die-hard doubters to the

side of sound science.

Ten Days in a Mad-House: A Graphic Adaptation Jun 22

2022 Beautifully adapted and rendered through piercing illustrations by acclaimed creators Brad Ricca and Courtney Sieh, Nellie Bly's complete, true-to-life 19th-century investigation of Blackwell Asylum captures a groundbreaking moment in history and reveals a haunting and timely glimpse at the starting point for conversations on mental health. "I said I could and I would. And I did." While working for Joseph Pulitzer's newspaper in 1887, Nellie Bly began an undercover investigation into the local Women's Lunatic Asylum on Blackwell Island. Intent on seeing what life was like on the inside, Bly fooled trained physicians into thinking she was insane—a task too easily achieved—and had herself committed. In her ten days at the asylum, Bly witnessed horrifying conditions: the food was inedible, the women were forced into labor for the staff, the nurses and doctors were cruel or indifferent, and many of the women held there had no mental disorder of any kind. Now adapted into graphic novel form by Brad Ricca and vividly rendered with beautiful and haunting illustrations by Courtney Sieh,

Bly's bold venture is given new life and meaning. Her fearless investigation into the living conditions at the Blackwell Asylum forever changed the field of journalism. A timely reminder to take notice of forgotten populations, *Ten Days in a Mad-House* warns us what happens when we look away.

The Daring Nellie Bly Sep 01 2020 From the award-winning picture book biographer of Woody Guthrie comes the inspirational story of Nellie Bly. Born in 1864, during a time in which options were extremely limited for women, Nellie defied all expectations and became a famous newspaper correspondent. Her daring exploits included committing herself to an infamous insane asylum in New York City to expose the terrible conditions there and becoming the first American war correspondent of either sex to report on the front lines of Austria during World War I. In 1889, Nellie completed her most publicized stunt, her world-famous trip around the world in just 72 days, beating the record of Jules Vernes' fictional hero in Around the

World in 80 Days. With an informative text and pen-and-ink illustrations reminiscent of the graphic style of the late 1800s, *The Daring Nellie Bly* captures the independent spirit of America's first star reporter, Nellie Bly.
