[Bureau of Land Management Camping](#) Oct 29 2020 The

Ultimate Public Campground Project was conceived in 2008

to provide a consolidated and comprehensive source for

public campgrounds of all types. It all began with a simple

POI (Point of Interest) list of GPS coordinates and names,

nothing more, totaling perhaps 5,000 locations. As the list

grew in size and information provided, a website was

designed to display the data on a map. Next came mobile apps, first iOS and Mac apps and more recently Android versions. Now this information is available in various paperback books. Work continues on the Project with information updated regularly. This book describes 1,142 camping areas in the Western United States that are managed by the Bureau of Land Management.
