He is a product of the savage world he was raised in and prides himself on being cold and cruel. Then someone new to his town catches his eye, someone different than everyone else. Without knowing why he starts to silently stalk him, unaware of where it will lead him.

Televised Presidential Debates and Public Policy Oct 15 2021 With this second edition, Kraus continues his examination of formal presidential debates, considering the experience of television in presidential elections, reviewing what has been learned about televised debates, and evaluating that knowledge in the context of the election process, specifically, and the political process, generally. He also examines the media and the role they occupy in presidential elections. Because critics often refer to the Lincoln-Douglas debates when reproaching presidential debates, comparisons of the two are discussed throughout the book.

Much of the data and information for this accounting of televised presidential debates comes from the author's first-hand experience as one who was involved with these debates as a participant observer, on site at nearly all of the debates discussed. Throughout these discussions, emphasis is placed on the implications for public policy. To suggest policy that will be accepted and adopted by politicians and the public is, at best, difficult. Proposals for changes in public policy based on experience -- even when scientific data support those changes -- must be subjected to an assessment of the values and predispositions of the proponent. These values and predispositions, however, may not necessarily inhibit the proponent's objectivity. As such, this review of television use in the presidential election process provides the context for examining televised debates.

Nonverbal Communication Oct 03 2020 Even though our society subtly discourages the verbal expression of emotions, most of us, in ostensibly conforming to our roles, nevertheless manage to express likes, dislikes, status differences, personalities, as well as weaknesses in nonverbal ways. Using vocal expressions; gestures, postures, and movements, we amplify, restrict, or deny what our words say to one another, and even say some things with greater facility and efficiency than with words. In this new, multidimensional approach to the subject of nonverbal communication Albert Mehrabian brings together a great deal of original

work which includes descriptions of new experimental methods that are especially suited to this field, detailed findings of studies scattered throughout the literature, and most importantly, the integration of these findings within a compact framework. The framework starts with the analysis of the meanings of various nonverbal behaviors and is based on the fact that more than half of the variance in the significance of nonverbal signals can be described in terms of the three orthogonal dimensions of positiveness, potency or status, and responsiveness. These three dimensions not only constitute the semantic space for nonverbal communication, but also help to identify groups of behaviors relating to each, to describe characteristic differences in nonverbal communication, to analyze and generate rules for the understanding of inconsistent messages, and to provide researchers with new and comprehensive measures for description of social behavior. This volume will be particularly valuable for both the professional psychologist and the graduate student in psychology. It will also be of great interest to professionals in the fields of speech and communication, sociology, anthropology, and psychiatry.

I know you think that you're God's gift to women, but I have a secret to let you in on: you're not. You're God's gift to yourself. Get over your wanna-be cool surfer self and grow up. I thought it was time that someone addressed your big head and told you straight to your face that you're not all that. Just because you have an Ivy league education doesn't mean you're the smartest man in the world. In fact, I'm not even sure if you would have gotten in if you didn't have rich parents. Yes, I went there. Every woman doesn't want to sleep with you and I'm sure you're not even good in bed. And I'm someone that would know. From, Your Secret Not Admirer

Politicians' Expressions of Anger and Leadership Evaluations Dec 17 2021 Dieses Buch untersucht, inwiefern sich Wutausdrücke politischer Führungskräfte auf die Bewertung der Kandidat*innen durch die Bürger*innen auswirken. Gerade zu Wahlkampfzeiten ist diese Frage von besonderer Relevanz, da Emotionen mitunter strategisch eingesetzt werden könnten. Dabei werden in der empirischen Analyse Emotionsausdrücke von mehreren Politikern berücksichtigt, um den Einfluss auf die Bewertungen der Politiker als soziale Gruppe zu ermitteln. Daneben konzentriert sich das experimentelle Design zudem auf drei politische Führungspersönlichkeiten: die Bundeskanzlerin Angela Merkel, den ehemaligen Fraktionsvorsitzenden der Linken Gregor Gysi sowie den ehemaligen Parteivorsitzenden der SPD, Sigmar Gabriel. Diese drei Fallstudien geben Aufschluss über die Wirkung von Emotionsausdrücken von Politikern und Politikerinnen mit verschiedenen Stellungen im politischen System. Processing Politics Nov 15 2021 How often do we hear that Americans are so ignorant about politics that their civic competence is impaired, and that the media are to blame because they do a dismal job of informing the public? *Processing Politics* shows that average Americans are far smarter than the critics believe. Integrating a broad range of current research on how people learn (from political science, social psychology, communication, physiology, and artificial intelligence), Doris Graber shows that televised presentations—at their best—actually excel at transmitting information and facilitating learning. She critiques current political offerings in terms of their compatibility with our learning capacities and interests, and she considers the obstacles, both economic and political, that affect the content we receive on the air, on cable, or on the Internet. More and more people rely on information from television and the Internet to make important decisions. *Processing Politics* offers a sound, well-researched defense of these remarkably versatile media, and challenges us to make them work for us in our democracy.

Informed Societies Aug 25 2022 This book explains how and why information literacy can help to foster critical thinking and discerning attitudes, enabling citizens to play an informed role in society and its democratic processes. In early 21st century societies, individuals and organisations are deluged with information, particularly online information. Much of this is useful, valuable or enriching. But a lot of it is of dubious quality and provenance, if not downright dangerous. Misinformation forms part of the mix. The ability to get the most out of the information flow, finding, interpreting and using it, and particularly developing a critical mindset towards it, requires skills, know-how, judgement and confidence – such is the premise of information literacy. This is true for many aspects of human endeavour, including education, work, health and self-enrichment. It is notably true also for acquiring an understanding of the wider world, for reaching informed views, for recognising bias and misinformation, and thereby for playing a part as active citizens, in democratic life and society. This ground-breaking and uniquely multi-disciplinary book explores how information literacy can contribute to fostering attitudes, habits and practices that underpin an informed citizenry. The 13 chapters each come from a particular perspective and are authored by international experts representing a range of disciplines: information literacy itself, but also political science, pedagogy, information science, psychology. *Informed Societies: Why Information literacy matters for citizenship, participation and democracy* covers: - why information literacy and informed citizens matter for healthy, democratic societies - information literacy's relationship with political science - information literacy's relationship with human rights - how information literacy can help foster citizenship, participation, empowerment and civic engagement in different contexts: school students, refugees, older people and in wider society - information literacy as a means to counter misinformation and fake news - the challenges of addressing information literacy as part of national public policy. The book will be essential reading for librarians and information professionals working in public libraries, schools, higher education institutions and public bodies; knowledge and information managers in all sectors and student of library and information science students, especially those at postgraduate/Masters level who are planning dissertations. Because of the topicality and political urgency of the issues covered, the book will also be of interest to students of political science, psychology, education and media studies/journalism; policy-makers in the public, commercial and not-for-profit sectors and politicians implications of information use and information/digital literacy.

House of Kwa Nov 03 2020 Wild Swans meets Educated in this riveting true story spanning four generations 'Revelatory and remarkable' - TRENT DALTON 'Memorable and vivid' - RICHARD GLOVER 'Lands with a thump in your heart' - LISA MILLAR 'Heartbreaking and uplifting' - MEAGHAN WILSON ANASTASIOS 'An heroic saga' - MIKE MUNRO The dragon circles and swoops ... a tiger running alone in the night ... Mimi Kwa ignored the letter for days. When she finally opened it, the news was so shocking her hair turned grey. Why would a father sue his own daughter? The collision was over the estate of

Mimi's beloved Aunt Theresa, but its seed had been sown long ago. In an attempt to understand how it had come to this, Mimi unspools her rich family history in House of Kwa. One of a wealthy silk merchant's 32 children, Mimi's father, Francis, was just a little boy when the Kwa family became caught up in the brutal and devastating Japanese occupation of Hong Kong during World War II. Years later, he was sent to study in Australia by his now independent and successful older sister Theresa. There he met and married Mimi's mother, a nineteen-year-old with an undiagnosed, chronic mental illness. Soon after, 'tiger' Mimi arrived, and her struggle with the past - and the dragon - began ... Riveting, colourful and often darkly humorous, House of Kwa is an epic family drama spanning four generations, and an unforgettable story about how one woman finds the courage to stand up for her freedom and independence, squaring off against the ghosts of the past and finally putting them to rest. Throughout, her inspiration is Francis's late older sister, the jet-setting, free-spirited Aunt Theresa, whose extraordinary life is a beacon of hope in the darkness. PRAISE FOR HOUSE OF KWA 'House of Kwa enchants and enthralls like the best kind of sweeping, dynastic fiction, but it rattles the bones and breaks the heart with the pure facts of Mimi Kwa's extraordinary story. Revelatory and remarkable storytelling.' Trent Dalton 'An astonishing true tale that leaps across centuries and cultures to land with a thump in your heart.' Lisa Millar 'A startling tale of the past, its terrible grip on the present, and the battle to set yourself free. Full of scenes that hover between tragedy and farce, House of Kwa is one of the most compelling stories you'll read this year. Memorable and vividly told, this is a book for anybody forced to survive their own parents.' Richard Glover 'From the back streets of China to war-torn Hong Kong to suburban Australia, this is an heroic saga that reveals just some of the stories behind the multi-cultural nation we are today.' Mike Munro AO 'This is a charming and compelling story, an insight into a deeply traditional Chinese family in times when China was undergoing internally and externally induced upheaval.' South China Morning Post 'A rich and riveting read which heralds a new chapter in Kwa's life as a writer. The spirited tiger, full of life and driven to achieve, has many stories to tell yet.' The Weekend Australian 'House of Kwa answers the question of how one should write about one's family with generosity and love - to read it is to experience Kwa's wonder at the strength and resilience of her family, as well as the intimacy of her relationships with them. Traversing the boundaries of a traditional memoir, House of Kwa is the biography of a family that explores the way our lives are shaped by the past we can and cannot remember. Kill Your Darlings 'A rare work of non-fiction which balances page turning prose with lyrical depth. Do yourself and everyone you know a favour and dive in!' Megan Rogers An utterly captivating, gripping and inspirational tale of one woman's triumph over adversity. In this extraordinary multi-generational memoir, Kwa fearlessly grapples with questions of love, loyalty, and the power of the human spirit. Intimate and revelatory, House of Kwa is the most heart-breaking and uplifting book I have read in years and announces the arrival of an exciting writer. Meaghan Wilson Anastasios 'If you're a fan of the book Educated by Tara

Westover, as I am, and most readers I know are, then you have to read this.' Joan McKenzie, Joan's Picks, Whitcoulls 'Mimi's narrative about their family life is heart-breaking, hilarious, and often unbelievable.' Magic talk FM 'An exotic journey that takes readers through the contributions Chinese immigrants have made to multicultural Australia.' ABC Nightlife 'Kwa is an engaging storyteller.' Asian Review of Books 'Extraordinary - I couldn't put it down. Wonderfully written, this intriguing family story reads like a page-turning novel. The journey of the Kwa dynasty and its legacy is told in such rich, colourful detail, you feel like you are there. I loved it. Sue Smethurst 'I laughed, I grieved, I was intrigued. It took enormous strength to write this story of trauma, abuse, mental health, dislocation, racism and reinvention. Above all it is a story of love and kindness. It will resonate with so many people.' Kirsty Manning

Death Waits in the Dark Jun 30 2020 It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys’ killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.

Sociology Saves the Planet May 10 2021 Highlighting how the environment and society are intrinsically linked, this book argues that environmental concerns need to be treated as a core concept in the study of sociology. Given its focus on inequality and the constituent elements of the social world, sociology has often been accused of negligence regarding the urgency of the world's environmental crisis. Sociology Saves the Planet corrects this mis-perception by integrating the theme of environment and society to highlight the intrinsic value a sociological perspective brings to our understanding of the current ecological crisis. The author first draws out the origins of sociology in the social and ecological transformations of the industrial revolution. In accounting for the social upheavals of the 19th century, Emile Durkheim, Karl Marx, and Max Weber all provided key insights into the changing nature of human organization and exploitation of the natural world. Second, readers will explore sociological perspectives developed since that time, grounded in evidence-based research, which highlight the inextricable connection between environment and society. Special attention is devoted to the dual role of people as producers and consumers in the modern context. Lastly, this book examines the significance of major categories of social difference regarding the current environmental crisis. In that regard the question of environmental justice is paramount, illuminating both the disproportionate benefit of natural resource exploitation to those countries and individuals with higher socioeconomic status, and the greater exposure to environmental hazard among those with less. Averting global calamity requires we recognize the unequal social impacts of the environmental crisis while valorizing inclusivity and the diversity of human experience in our search for solutions. Designed for introductory courses, this book is essential reading for sociology students and will be of interest to students and academics studying environment and sustainability more broadly.
