**Green Boating** Dec 29 2022 The coastal and archipelago areas in the Baltic Sea are popular destinations for a number of tourists. An important group of tourists is boaters, who visit the coastal areas during a short summer period. Boat owners are sometimes pictured as having a great interest for the nature and a willingness to do right. Pollution from pleasure boats such as discharges of oil and fuel, antifouling paints and cleaning agents have a negative impact on the coastal environment. Environmentally sound alternatives exist to some extent, but are not very common. Sustainable alternatives for boaters are lacking behind. One of the underlying purposes of this study was to understand how we can help boat owners change their behaviour and decrease the negative impact on the marine environment. The survey among boaters has been conducted in Finland, Sweden and Denmark with a web based survey ordered by

the Keep Sweden Tidy Foundation together with Keep the Archipelago Tidy Association in Finland and the Danish Outdoor Council. The research was performed by SIFO Research International.

**Consent** Feb 16 2022 This volume presents a leading contribution to the substantive arena relating to consent in the criminal law. In broad terms, the ambit of legally valid consent in extant law is contestable and opaque, and reveals significant problems in adoption of consistent approaches to doctrinal and theoretical underpinnings of consent. This book seeks to provide a logical template to focus the debate. The overall concept addresses three specific elements within this arena, embracing an overarching synergy between them. This edifice engages in an examination of UK provisions, with specialist contributions on Irish and Scottish law, and in contrasting these provisions against alternative

domestic jurisdictions as well as comparative contributions addressing a particularised research grid for consent. The comparative chapters provide a wider background of how other legal systems' treat a variety of specialised issues relating to consent in the context of the criminal law. The debate in relation to consent principles continues for academics, practitioners and within the criminal justice system. Having expert descriptions of the wider issues surrounding the particular discussion and of other legal systems' approaches serves to stimulate and inform that debate. This collection will be a major source of reference for future discussion.

[Advanced First Aid Afloat](#) Dec 17 2021 Since its first publication in 1972, more than 30,000 blue-water sailors have looked to this book when injury or illness struck at sea. Virtually every accident or ailment that might

occur when professional medical care is unavailable is squarely faced and dealt with, using layman's language and step-by-step instructions that calmly take the reader from diagnosis through treatment to follow-up care. The fifth edition brings this standard work up-to-date with current medical practice. While maintaining its ease of use for quick, easy reference in case of a medical emergency at sea, diagrams inside the front and back covers point the reader to the appropriate section of the book. Each section starts with a short account of a possible accident or sickness that might occur on a voyage, and then lists the steps to be taken by the caregiver. Photographs and diagrams accompany many of the procedures. Separate chapters are devoted to preparing a crew and the boat's medical chest for long cruises, including lists of drugs for which prescriptions are needed. A number of chapters deal with the unique needs of children.

**I Drink My Moo I Do My Poo That's All I Do** Jun 22 2022 Time to go....I've taken enough of your time..... My life has been a good life. I think I handled everything that was thrown at me. I know others were involved in some of the trials and tribulations that came my way and I hope I handled them OK. If I didn't, I'm truly sorry. Growing up I thought my childhood was bad in some respects. But a couple of things have changed that idea. One was writing this story. The other was back into the 80's when my mother moved to Seattle and I listened to her talk to my daughters about my childhood. When I listened to her tell those stories, I realized I had built a wall around my upbringing and I was steadfast in thinking, "it wasn't as good as it could have been". Those stories made me realize, "I did have a good childhood", and just

maybe..... I could have been a better son.

**The Oracle Paradox** Apr 28 2020 A techno-thriller novel of the near future when a powerful Artificial Intelligence called Oracle identifies individuals who pose a significant risk to the stability of our society, or who have a high probability of posing such a risk in the future, and sends assassins to kill them. The main character is Henry Porembski, who becomes one of Oracle's assassins when he is recruited after his wife and daughter are killed in a terrorist attack. When he is sent to kill a young girl, the same age as his daughter, he turns against Oracle and vows to protect the girl. He wonders, though: if Oracle knows us so well, why would it send him to kill a girl it had to know he would not kill? And could it really predict how a little girl would turn out as an adult? It all comes to a tense conclusion after Henry learns that his mission to kill the girl was really to set in motion a series of events intended to bring about the downfall of Oracle...because Oracle has determined that it, itself, poses a threat to the human civilization, and needs to be eliminated.
